Clothing.

The new and ingenious LOCK POCKET is a safeguard against the loss of valuables from out the pockets by means of abstraction or otherwise. As with pocket it is invaluable. This pocket is in use in the United States and other countries, and its success in PREVENTING THE LOSS OF MONEY, watches or other valuables brings it into universal favor wherever introduced.

When buying clothing see that the LOCK POCKET is attached to your garment.

THE DAILY EXAMINER.

NOVEMBER 5, 1892.

Notes and Comments.

—The New York Examiner of a late date has the following: "Canada is said to be getting the better of us in the matter of supplying England with butter and cheese, and her success is, not unreasonably, ascribed to the peripatetic dairy schools, which are showing dairymen how to improve their methods. Why not introduce so useful an institution among us? By the way, what about that traveling dairy promised by Mr. Premier Peters?"

—The competition of Canadian cheese and Danish butter is playing havoc with the rural population. The London Globe says: "Dame Durden's daughter, the charming Kate, that carried the milking pail, was a picturesque young person, but she will not do for the dairymaid of the future. The making of butter and cheese is passing into the conditions of a skilled industry, and the change must be recognized, or English farmers will soon find themselves out in the cold."

—Mr. Gladstone, who spoke with his customary vigor, made an address at the turning of the first sod of the Wirral railway on October 21, and, in the course of his remarks, said: "There is in this country to be observed at this time an extraordinary tendency to the accumulation of population in large towns. There is, I am sorry to say, more or less to be noticed in some parts a tendency to the diminution of the rural population." But the Premier never said it was due to "Party Government," or would be removed by an application of free trade. He remembered that they had free trade already.

—It will be remembered that when the Canadian commissioners visited Washington, last winter, for the purpose of discussing, with a view to settlement, the various questions of international interest unsettled between Canada and the United States, that one of the matters so discussed was the appointment of a commission of experts to consider the question of the protection of fish in the inland waters contiguous to the two countries, and the regulation of the use of engines of destruction in non-territorial waters. It is understood that the appointment of such a joint commission has now been agreed on and that Canada will be represented by Commander Wakeham, of the department of Marine and Fisheries, whose long connection with the fisheries branch of the department specially qualifies him for the position. The commissioners will have access to all the material bearing on the subject collected by the Canadian and United States governments and will make investigations during a period not to exceed two years. The report will cover the protection of fish and the use of engines for their destruction and also contain suggestions as to close season to be observed by the fishermen of both countries. The report will be made jointly and severally to the two governments and they will be subsequently used as the basis of an international agreement.

The Cattle Disease.

THE LONDON CHAMBERS OF AGRICULTURE WANT CANADIAN CATTLE SCHEDULED.

The Montreal Star's London cable (Nov. 2) says: The Central Associated Chambers of Agriculture are urging that Canadian cattle be immediately scheduled, thus making it compulsory to slaughter them immediately upon being landed. Mr. Chaplin, late president of the board of agriculture in Lord Salisbury's administration, and an authority on such matters, declared yesterday that it was necessary that the exemption in favor of cattle imported from Canada be rescinded. The interim report by Dr. McCachran, the Dominion cattle quarantine inspector, was published here today and has had a good effect. Dr. McCachran, in his report, states that the Dominion Government in putting forth every effort to trace the locality whence the condemned cattle were shipped in order to prove the entire absence of pleuro-pneumonia in Canada. To this end a staff of specialists, acting under his instructions, are now tracing up the sources of shipments. The doctor says he is not ready to make a final report, but so far the investigations of himself and staff have not resulted in the discovery of a single case of pleuro-pneumonia in any of the localities visited. The Canadian officials connected with the high commissioner's office, as well as the Dominion ministers here in London, are earnestly urging the board of agriculture to await a full report from Dr. McCachran before deciding to schedule Canadian cattle.

A WELL-GLOVED HAND, if it be a pretty one, is a fair index of refinement and taste. We are showing today one lot of 14 inch Suede Mousquetaire gloves at 85 cts per pair, former price \$1.35 and \$1.10; one lot of Hook lacing gloves at 85 cents a pair, former price \$1.10. As these lots are balance of stock, come quick and get a pair.—Stanley Bros. nov4 31 eod

READ James Paton & Co's carpet advt in to-day's issue. They are offering five fringe Brussels carpet at \$1.10, carpet paper at 34 cents per yard, making and laying carpets by the best makers and layers at 9 cents per yard; they cut your carpets free of charge, also superintend the laying free, and charge nothing for waste. When in want of anything in the house furnishing line give them a call. They will sell you cheap—James Paton & Co., Scotch store. n4 31

English Derby hats, selling fast. Onsp for cash at the Scotch Store. Nov 2 31

To An Indian Summer Day.

Thou sweetest, fairest day of all the year,
So bright at early morn, so calm at eve,
I fain the busy life of men would leave
And seek in rural scenes without a peer
In all earth's broad domain, in autumn tide
A safe retreat from constant toil and care,
And there, beneath the painted forest rare,
Where nature reigns and many thoughts abide,
Withdraw, the summer-scented hours to spend
In wandering around thy rosy bowers,
The brightest prospect in a land of flowers,
Whose various tints harmoniously blend,
Best day! Thy fading glory quickly may depart,
But thy sweetness and light linger long in my heart.

G. H. A.
Toronto, October, 1892.

Culture in Schools.

There is no need to turn up a contemptuous nose at the idea of giving the young people in our schools a certain amount of polish as well as a respectable amount of instruction in the "three R's" and such other branches as may seem expedient. It would be well for educationists and school trustees to think about imparting to our children some culture and courteousness. The word "culture" need not be astirically spelt "culchah." Schooling ought to produce not only educated or learned persons but people trained in the civilities and courtesies of polite social intercourse. There are many of our boys and girls who do not support the idea that they are getting this sort of teaching. It is easy to say that life would be sweeter and easier if people were more polite and graceful, but they will never shine in these directions unless the education in them is begun in youth. A refinement of popular manners is a thing worth striving for. Education should be a matter of human training that is quite as much practical as intellectual, having sedulous urbanity for its basis, and inculcating before all else the profound consideration for one's fellow-creatures' feelings that is expressed by courtesy of speech and gesture. Is the education of our boys and girls proceeding in this direction at all, or rather are they not imbibing the notion that it is smart to be overbearing and noisy, and a mark of manliness to be rude? An artificial varnish of manners is not at all to be desired, but a true politeness springing from an inward grace of spirit is of great price. Schools of dancing and deportment may be in their way good, but even they cannot give us exactly the thing needed. It can probably only be supplied if it ever can be supplied at all, by the teachers who instruct our children. Their style, their manners, their attitude towards the world at large, their grace, or their awkwardness will be imitated by and reflected in their pupils.—Toronto Mail.

SEE our specialty for the season, "The Charlottetown Box of Stationery," it leads all in its line—Haszard & Moore.

FOR FIVE CENTS.—Get a Gem Dictionary of the English language, containing over thirty thousand words, for five cents at the Diamond Bookstore. Biggest bargains in the universe.

FOR FEMALE CONVICTS.—The erection will soon be undertaken at Kingston of an institution for the abode of female insane convicts from all over the Dominion. At present this class numbers 25 and it is deemed proper to group them all together for economic reasons.

NOW READY.—The new arithmetic published by Mr. D. J. McLeod, Chief Superintendent of Education, and authorized for use in the schools of P. E. Island and P. W. College is ready for sale at the Bazaar Store.

IN THE SHERIFF'S HANDS.—The printing outfit of the Toronto Sun, the proposed annexation organ, which was seized at the instance of W. F. McLellan, M. P., for \$200 rent, has been annexed by the sheriff under a writ of replevin at the suit of W. B. Johnston who has a claim against it also.

GRATIFYING TO ALL.—The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy "Syrup of Figs," as the most excellent laxative known, illustrate the value of the qualities on which its success is based and is abundantly gratifying to the California Fig Syrup Company.

PARIS, Nov. 3.—Col. Dodds, commanding the French forces operating against King Behazin in Dahomey, Africa, telegraphs that the resistance of Dahomeyans is becoming less vigorous, owing to the enormous losses they have sustained in engagements with the French.

THERE are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's Kidney Pills are guaranteed to cure the worst cases. It costs but little to give them a trial. They are for sale by all druggists and dealers, or by mail on receipt of 50 cents, or six boxes for \$2.50. Write for book called Kidney Talk.

THE CONQUEROR HAS COME! Heart Trouble, Dyspepsia, DIZZINESS, AND Muscular Rheumatism CURED!

REV. W. L. BROWN, FOR YEARS A MEMBER OF THE M. E. CHURCH, BUT FOR THE LAST TEN YEARS AN EVANGELIST IN THE CHURCH OF GOD. HE IS WELL KNOWN BY THOUSANDS WHO WILL VOUCH FOR THE TRUTH OF THE FOLLOWING:

"I write to inform you that the TWO COURSES OF SKODA'S DISCOVERY AND LITTLE TABLETS have done me more good than any medicine I have ever used. I can hardly realize it, the change has been so marked."

I contracted the Chronic Diarrhoea in the Army, and since 1850 I have been a constant sufferer. In addition to this, I was troubled as follows: 1st a lame Back and Kidney trouble, 2d, Dyspepsia, 3d, Flatulence and an all-gone feeling, 4th, Distress at pit of Stomach, 5th, Headache and Dizziness, 6th, Muscular Rheumatism in Chest so I had to lie in bed for weeks at a time; 7th, a Severe Heart Trouble that would cause my pulse to run at 90 for days at a time. I was treated by very eminent Physicians, but would be compelled to leave my labors and return to my home weeks at a time. In fact I have had 15 fits of sickness in the last 25 years, and several times have been given up to die.

I feel that I am completely cured of all my bodily diseases except the Diarrhoea, which is not cured but greatly benefited. COLD course which I think will cure me entirely. Yours with gratitude,

REV. W. L. BROWN.
