NEWS NOTES

Since a system of single tax upon improved land has been introduced in New Zealand, seven thousand families have found homes. Courts in New South Wales decided recently that employers cannot compel employees to work on Saturday afternoon without extra pay.

Six Edwin Arnold has estimated that about 30,000 young women in England are attempting to win fame and fortune by writing so-called poetry.

A co-operative iron company has been established at Hubbard, O. Every man working for the concern is a stockholder. There are about 135 men employed.

Cost Yale College last year for athletics \$45,208.24, of which sum \$16,522.12 was expended for the football association. But the receipts from the football games were \$29,031.39, or nearly twice as much as any other games brought in.

An exchange claims that Ferdinand Holtzendorf, a German resident of Heidelberg, has not tasted water for thirteen years, and that since he gave up drinking it his weight has increased from 122 to 145 pounds. It does not state his age.

Krupp, the German cannon manufacturer, employs 16,000 men, with their families, number 60,000, and constitute the bulk of the population of Essen, while 30,000 others are located at various branch works. The total number of families benefited by the enterprise is estimated at 25,000.

The decline of drinking at London dinner parties is attributed to the fact that champagne is now usually the only wine served, it having furnished claret and replaced the old port that used to appear with the dessert. As a result, a guest is now contented with a few glasses of champagne, where his grandfather used always to consume one and sometimes, as Pitt did, even three bottles of port at dinner.

A writer in the London Standard, discussing the unusual circumstances of five generations existing at Skillington, records that in 1849 he accompanied the late Dr. Feil, Bishop of Newfoundland, on a missionary visit to an outlying part of the diocese. He saw there, in a fisherman's "dill," seven generations, all females. The youngest was a newly born infant; its mother was twelve years ago; its grandmother twenty-six, and so upward. The great-great-grandmother need not, at this rate, be added, have been so very old, and it is possible that before she died she saw a child of the baby aforesaid.

One of the oldest, if not the very oldest, men in America lives in a little shanty on the banks of the Osage river, at Osage City, Mo. He is a negro, and his name is Richard Hoops. According to the statements of Hoops, which are well supported by accessible records, he was born in Chatham county, N. C., December 26, 1770. Born a slave, he was taken to Missouri by his owner, John P. Hayden, while a mere boy. A few years later he was sold to the man whose name he now bears, and lived with him near Vienna, Maries county, until the emancipation of the slaves. Since that time he has lived at Westphalia, but for the last twenty-five years has made his home at Osage City.

THE lobster fishermen along the coast are making good sales of their catch of lobsters. Each of the crustaceans over 100 inches in length fetch the fishermen 14 cents, or \$14 per 100. The catch has not been a very large one. The local market is supplied with the undersized fish which do not find a sale in the American market.—St. John Telegraph.

A RIVAL FOR CANADA.—An exchange says: Canada and the other wheat producing countries will probably in a year or so have a rival in Argentina as regards the export of wheat. In 1880 there were, it is estimated, 490,000 acres under wheat in Argentina, and in 1870 the area was put at 2,800,000 acres, whereas for 1893 the estimated extent of the wheat fields was 6,100,000 acres.

ABOUT WEDDING PRESENTS.—A unique wedding present was made some years ago, but not in Falmouth, by the mother-in-law of a young man, who presented her with a basket of unopened socks. Recently a Falmouth young man, whose fiancée married another, received from her, not the proverbial mitten, but a box of cigars, as a compensation to the betrothed son, as the engagement ended in smoke.—Hants Journal.

POLICE COURT.—This forenoon Edward Cullen, Pownal Street, was fined \$25 and costs, or one month's imprisonment, for violating the Liquor Regulation Act by selling in a room a quantity more than one entrance or exit. The fine was imposed on the defendant's confession. The fine was paid. The two summonses against George Carver were dismissed. A malicious dog case was adjourned until tomorrow.

A SOLEMN AFFAIR.—Not long since David Carmichael, of Centreville, Carlton Co., N. B., died of cancer. He lived a single life and accumulated a good property, which he left to his brothers, a sister and friends. The brothers, not satisfied, wished to prove the will in solemn form. For that purpose six lawyers took a hand. The executor, which was a very beautiful one, was well covered with floral tributes. Mrs. Chandler was a daughter of the late John Cairns, and was well known and deservedly esteemed. Her bereaved husband and son and other relatives have the sympathy of all.

THE COLUMBIA.—The Pope Manufacturing Company has added another department to its business. It is a brand new departure in the field of cycle making, and so distinctly novel that no one person in ten thousand would be able to name it in a hundred guesses—nothing less than a laboratory for the testing of every lot of metal, of whatever nature, purchased or about to be purchased by the concern. Samples of the raw material are sent to this department, and, by chemical process, there is related to a fluid and critically analyzed. If this analysis shows the metal to be deficient in carbon or other necessary component, as gauged by the Columbia standard, the stuff is at once rejected. Most rubber and tire makers have their chemistry, but this is the first time that such a departure has been instituted in the cycle trade. It is, as Artemus Ward would say, "getting down pooty fine."

LAD TO REST.—The funeral of Mrs. Edward Chandler took place from her late residence, King Square, yesterday afternoon. The attendance of citizens generally was very large, the procession ranking with the largest ever seen in Charlottetown. The pall-bearers were Benj. Rogers, P. Blake, Benj. Hearty, W. F. Carter, James R. Davidson and Robert D. Coffin. The casket, which was a very beautiful one, was well covered with floral tributes. Mrs. Chandler was a daughter of the late John Cairns, and was well known and deservedly esteemed. Her bereaved husband and son and other relatives have the sympathy of all.

OUR HATS

were not made twenty-five years ago, nor do we ask old-time prices. Our assortment is the largest on P. E. Island, and our styles the latest. We know what the people want and we buy to suit our customers.

If you can't get a Hard or Soft Felt Hat to suit you at PROWSE BROS., you need not try in the city.

We have bought the largest stock of Hats for Spring in the city, and in buying such large quantities we bought as low as any wholesale house in the Dominion.

Why go to a house where they only keep about three dozen Hats, when you can buy from men who import hundreds of dozens of First-class Hats.

PROWSE BROTHERS, The Stylish Hatters.
