

POETRY.

WE COME AND GO.

If you or I To-day should die, The birds would sing as sweet to-morrow...

Yes, he is dead, Whom thou hast said, The corn would bear the grass you'd say...

How soon we part! How few who stay! Remember those who turn to mould...

Another takes our place instead! Another takes our place instead!

SAINT PATRICK'S NIGHT! Arach boys and girls, attention! Just list to what I say...

There's been a great mistake, my boys, Ever since the world began, About St. Patrick's night...

A word about the shamrock green, 'Twas dear St. Patrick planted it, And that's what made it grow...

THE HATYAN REBELLION.—A business letter from Port au Prince to Messrs. Seawell Bros. says:—According to a publication of the present Government, an insurrection took place in Jemel on the 5th inst., conducted by General L. Hane, which has resulted in the extending of the ports, South and West of the Island, which have all been decided in a state of siege.

Metalled Re-serve.—It is said that the stock of gold and silver on hand in the Bank of France is by far the largest amount in any one sum in the world, and we do not know if there was ever a larger collection of hard money.

It amounts to more than \$35,000,000, an amount sufficient to buy the whole greenback currency of the United States at present rates, and some considerable surplus.

It is more than three times the entire quantity of coin and bullion held in the Bank of England. Indeed, it is scarcely less than the combined metallic reserves of the Bank of England, the Imperial Bank of Germany, the Bank of Austria, and the Bank of the Netherlands, by the latest returns received.

AN ALLAN CAPTAIN KNIGHTED.—Captain Edward Scott, late of the Allan steamship Phoenician, has been knighted by the King of Italy.

The London Telegraph says:—It is interesting to note that Captain Edward Scott, of Greenock, was honored by the King of Italy with a special distinction in token of the good service he rendered the cause of Italy under General Garibaldi, especially in transporting up the mountains the troops during the winter of the campaigns.

We have now the duty of intimating that in obedience to invitation from the Italian Minister, Captain Scott lately went to London, where, at the Embassy, he was invested with the order of the Star of the Order of the Italian Knight of the Order.

WHAT TEMPERANCE HAS DONE FOR ONE TOWN. The temperance movement recently begun in Marblehead is something remarkable. It is three months old; and out of a population of eight thousand, the signatures of the pledge, including women and children, already number five thousand.

The reform club, composed of men who have given up drinking, has over six hundred members, and what was generally known as the 'where temperance was' very common has now through its influence the other way that the dram shops are deserted.

Provisions has been made for the entertainment of the workmen and youths outside of saloons; reading and smoking rooms have been organized for use in the day and evening, and practical measures have been taken for the permanent lifting up of those who are down. The foremen in drink have become foremost in efforts to elevate one another.

THE WEATHER.—Winter appears to have moved across the Atlantic and down South. Ten inches of snow has fallen at Memphis, Tennessee, a circumstance which is said to be unprecedented in the history of that city.

Memphis is only a little above sea level, and is situated in the thirty-fifth degree of latitude. In Scotland, however, they seem to have no parallel on this side of the Atlantic.

Twenty feet of snow is something utterly beyond our experience, but this the despatches say was the depth of the fall in the North of Scotland, the very height of the winter snowed up. Some of the Scottish immigrants who grumble so much about New Brunswick winters, may thank their stars that they are not in Scotland just now, with a snow-fall which makes the chimney the only practical mode of getting out of the house.

Twenty feet of snow should give our Scottish friends enough sleighing to last them for several years. It is to be hoped that when this great snow-fall melts it will not cause a repetition of those disastrous floods which have lately done so much destruction to life and property in France and Germany.

MANTIPPE. It seems that the memory of this woman, like that of her renowned husband, is likely to be kept alive to the end of time. She is said to have possessed a very irritable temper and her name has become a synonym of 'vixen' or 'scold.'

It is more than that possible, however, that the judgment passed upon her by mankind was so severe. A more charitable disposition would undoubtedly have discovered in many of her qualities and her attributed failings more to physical infirmities than to moral obliquity.

The party most intimately acquainted with her and therefore most able to form a correct opinion, gives her credit for many domestic virtues. It is so well known that she was a devoted mother, and that she was a most successful manager of her household.

It is a pity that she was not able to form a correct opinion, gives her credit for many domestic virtues. It is so well known that she was a devoted mother, and that she was a most successful manager of her household.

IN pursuance of an Act of the General Assembly of this Island, made and passed in the twenty-fourth year of the reign of Her Majesty Queen Victoria, intitled 'An Act relating to the Land Assessment and Assessment imposed by Law on the Town and Royalty of Prince-town,' and also of an Act made and passed in the twenty-seventh year of the same reign, intitled 'An Act to consolidate and amend the several Laws imposing an Assessment on all Lands in this colony, and for the encouragement of Education.'
