GOOD NEWS FOR ABSTAINING  
MOTORISTS

Alliance News of Great Britain  
for January reports that one of  
the leading insurance companies  
of the Empire has announced the  
inauguration of a policy which  
gives the abstaining motorist a 10  
per cent reduction in insurance  
costs. The news says:

The directors of the Eagle Star  
Insurance Company Ltd., have  
decided to grant a concession  
amounting to 10 per cent of the  
usual premium, to motorists who  
are pledged abstainers and who  
signify their intention to remain  
so.

"Before reaching this decision,  
the directors have thoroughly in-  
vestigated the scientific and medi-  
cal evidence which has been ac-  
cumulated in recent years on the  
subject of alcohol and its relation  
to road accidents, and they are  
satisfied that, other things being  
equal, the abstainer is a better  
risk for insurance purposes than  
the drinker. This discount will be  
over and above cumulative No  
Claim Bonus, and it will apply  
to existing policy holders as well  
as to new policies. Moreover, the  
numerous agents of this company  
will all be authorized to accept  
abstainers for insurance under the  
revised scale.

"In their investigation the di-  
rectors of the company discovered  
that both in Norway and Sweden,  
insurance companies had either  
been catering exclusively to ab-  
staining motorists, or else had been  
dividing them into a separate class  
with a lower premium, and that  
the experience of these companies  
has proved conclusively that the  
abstainers were less prone to ac-  
cidents and that the claims made  
upon insurance funds were con-  
sequently less.

"The Eagle Star, with assets of  
over 25 millions, is one of the  
oldest and wealthiest insurance  
companies, and has a world-wide  
reputation."

Wash Flower Vases  
Flower vases should always be  
washed thoroughly with soap and  
water. They should be kept dry and  
ply and not be used to their  
various homes, to end a swell even-  
ing.

## NEW CONSCRIPT BRITISH ARMY UNDER CANVAS

LONDON, July 16—Great Bri-  
tain's first 34000 youths of her  
new conscript army spent their  
first week-end under canvas and  
in barracks as the Government  
mobilized manpower and resources  
for any eventuality during the  
summer months, considered by  
some to be "Europe's danger pe-  
riod."

"The Boys of the New Brigade"  
as the 20-year-old militia recruits  
are called, will start real training  
on Tuesday. Their first three days  
in the army were to be occupied  
with preliminaries.

Preparedness Steps  
In other ways the nation, with  
mobilization of the first unit of  
200,000 to be called up this year,  
concluded a week in which major  
preparedness steps were taken.

1. Mass flights of Royal Air  
Force bombers to France to dem-  
onstrate Britain's striking power  
from the air, with indication the  
planes may shortly carry out  
similar manoeuvres over Eng-  
land.

2. Announcement that defence  
expenditures for the 1939-40 fis-  
cal year are estimated at £150,000,  
000 (about \$302,000,000) higher  
than originally expected.

3. Announcement that naval re-  
servists will be called up July 31  
for exercises in August and  
early September.

Tonight in the mails were more  
than 30,000 postcards sent by the  
new recruits to their relatives ad-  
vising them of safe arrival in  
camp. Such a card was furnished  
each recruit as soon as he arrived.  
The conscripts came by bicycle,  
automobile, train and afoot to  
spend the next half year learning  
to be soldiers.

In shirt sleeves and sports trousers,  
in overalls and in smart west  
end suits, they represented all  
classes of society.

Conscripts will receive gray flannel  
trousers, dark blue sports jacket  
and beret for wear during their  
recreation hours.

When the youths were register-  
ed, only 17 per cent of them de-  
clared themselves to be conscientious  
objectors. The authorities  
provided they should have full op-  
portunity to perform non-military  
services.

Eighty-three per cent of the  
registrants were found to be physi-  
cally fit.

Conscripts are entitled to pick  
their own branch of the service.  
The pay for the first year will be  
generous, by general army stand-  
ards. The base rate is one shilling  
sixpence a day (about 35 cents). In  
addition there is a weekly allow-  
ance of 17 shillings for the wives  
of militiamen who are married,  
supplemented by a deduction of  
three shillings sixpence (about 82  
cents) from the husband's base  
pay. Allowances also are made for  
children.

A few stray bears were shed by  
anxious mothers and sweethearts  
as the recruits left Saturday, but  
scenes at city and village railway  
stations were more reminiscent of  
a mass holiday outing or athletic  
expedition than anything else.

At most camps serious business  
was postponed until this week, al-  
though distribution of arms was  
begun at several places. Most of  
the recruits, however, were given  
an opportunity to familiarize them-  
selves with their new surround-  
ings.

A complete sports kit provided  
each conscript emphasized the  
athletic and body-building side of  
their training.

Special pains were taken to en-  
sure similar treatment for rich and  
poor.

hot water when withered blossoms  
are being discarded, lest bacteria  
which decays the stems of flowers  
survive in the vase and shorten  
the life of the fresh blooms which  
are put into it. Slender vases  
which cannot be cleaned inside  
with a cloth may be washed out  
with the aid of a bottle brush

## Gyro Convention Concluded At Fredericton

FREDERICTON, July 14—(CP)  
—Dr. A.W.G. Good, Fredericton,  
was elected governor of Gyro Dis-  
trict No. 6 at the annual conven-

## CROP REPORT

WINNEPEG, Man., July 14—  
Weather has turned warm to de-  
cidedly hot over the Prairies dur-  
ing the past week with only scat-  
tered showers and occasional hail  
storms at widely separated points.  
The warmer days have been wel-  
comed in sections where crops ap-  
peared later than normal and  
where precipitation was ample for  
present needs. A few districts  
which were deficient in fall and  
early spring moisture are already  
showing the need of further rains  
to prevent crop deterioration.

Grasshoppers which have been  
well controlled to date are com-  
mencing to fly and are causing  
concern, according to the weekly  
crop report of the Department of  
Agriculture, Canadian National  
Railways.

## Is Indicted On 19 Counts

BATON ROUGE, La., July 14—  
Dr. James Monroe Smith, former  
president of Louisiana State Uni-  
versity, was indicted tonight on 19  
separate counts of forgery and  
falsification of public records by  
the East Baton Rouge grand jury,  
which also returned indictments  
against three other officials and  
former officials at the university.

These were: Dr. Clarence A.  
Lorio, State Senator and member  
of the university board of super-  
visors who was charged with  
knowingly receiving and having  
embezzled goods in his possession.  
Dr. Lorio is official physician for  
the university and a prominent  
state political leader.

E. N. Jackson, business manager  
of the university, alleged embez-  
zlement of goods.

George Caldwell, former super-  
intendent of the university, charged  
with embezzlement.

RAW FOODS FOR RHEUMATIC  
CASES

Dr. Bircher Benner, of Zurich,  
Switzerland, maintained that any-  
one who was in good health  
should have 50 per cent raw food;  
anyone who was ill should have 100  
per cent. He practised this himself  
with an amazing renewal of vigor  
erto lost health, and increased ac-  
tivity in every form. He used the  
raw food diet at first on a few  
chosen patients but with such  
encouraging results that it has now  
become world known.

There is a hospital in London  
that now takes rheumatic patients,  
and puts them straight away on to  
a diet consisting of raw foods, for  
a fortnight; no protein or starch,  
but fresh and dried fruits, nuts and  
cream. The improvement is amaz-  
ing; patients who on admission  
could hardly walk upstairs, needed  
two sticks, and were in constant  
pain, have been discharged to re-  
turn to work within six months.

On Thursday evening last the  
Y. P. U. of Union Road, Lot 33,  
held a very successful ice-cream  
festival in Mr. John McKinnon's  
field.

Master James Gallant (Wim-  
mie) who has been spending some  
weeks with his sister, Mrs. Fred  
Gallant of Sachville, N. B., has  
returned to his home in St.  
Amands.

## GOVERNMENT HOUSE

Official residence of His Honour Lieutenant Governor DeBlois and Mrs. DeBlois. It was here  
that the Confederation Fathers were entertained in 1864, and it has been the scene of many stately  
functions since that time, the last being the luncheon and garden party attended by Their Majesties King  
George and Queen Elizabeth last month.

Distinguished by its pillared Colonial facade and beautiful architectural lines, Government House  
dates back over a century. It was built under order of a Commission appointed by the Prince Edward  
Island Legislature in 1831, and completed in 1834 when the first Levee was held on May 23 of that  
year.

The first occupant of Government House was His Excellency Sir Aretas W. Young, who died there  
in 1835.
