Hutley told of throwing another one over the side from another mess.

Various witnesses told of seeing MacDonald with a can similar to that in which the fluid was stored and of seeing him pour drinks.

Bus Terminal-Travel Bureau Facilities Proposed

The above floor plan shows the proposed alterations in the Market Building providing for a Bus Terminal with starting station and entrance facing South on Market Square. The Travel Bureau entrance will be on Queen Street. In both cases existing entrances have been utilized.

A brick wall, indicated as unbroken, extends the entire depth of the building from north to south, isolating the former section of the structure, with the east and north entrances as at present. The theatre entrance at the north-west corner fronting on Queen Street and the Theatre area on the upper floor will remain unchanged.

The proposed alterations will be dealt with by the City Council at a meeting within a few days. The plans are by J. F. Toombs, architect.

3. The Bonn republic must have Western military allies to survive as a free, sovereign state on the frontier of the Soviet Empire.
