

**THE DAILY EXAMINER**

JUNE 1, 1898.

—When Admiral Dewey cut the Manila cable without making adequate arrangements for buoying, subsequent picking up, and working, he displayed lack of foresight. During the bombardment of Alexandria, the cables were picked up, placed on board the cable steamer Chiltern and worked with as much regularity as they had been on shore.

—Who is to succeed Lord Aberdeen as Governor-General of Canada? The Mail and Empire, of London declares, that the Earl of Jersey is undoubtedly the public favorite to England. Lord Jersey knows the colonials, and would do well in Canada; whilst Lady Jersey would be the most popular lady to preside at Rideau Hall since the days of Lady Dufferin.

—Senator Ferguson's letter shows that he continues to take an interest in the practical improvement of our conditions even while in the cool shades of opposition. It is significant that reform that he was the means of effecting in our summer time table has been carried out by those who opposed it. His suggestions for a further improvement are also worthy of favorable consideration.

—We deeply sympathize with Judge Fitzgerald and Mrs. Fitzgerald in their grief concerning the death of their daughter, Miss Kathleen Fitzgerald. The young lady had been ill throughout the winter, but her death was unexpected. At her request, and in the hope that a change of scene would do her good, the family removed, a few days ago to their summer residence at Holland Cove where serious symptoms soon appeared. Her bright young spirit passed away yesterday afternoon.

—A letter from the Universal Peace Union of Philadelphia to the Queen of Spain was recently taken out of the United States mails and sent back to the Society. The following is a quotation from the letter:

"It is in our hearts to say, as the Universal Peace Union, representing many thousands of friends of peace in all parts of the world, and now from the United States, that we have appreciated your several concessions in this Cuban trouble in behalf of peace, and we want you to hear from the people, the real representatives of the American heart, that we believe all that is desired could be obtained by peaceful means. Our President McKinley, we have reason to believe, has been forced into his present attitude. Years ago we prevented filibustering expeditions against your interests; we have been doing the same now. "Oh, how you would elevate your nation, what a contribution to this age of intelligence, if you could send a message to America! "Our hearts are full of sympathy for you in your no doubt embarrassed position, but the right will sustain you."

This message was returned to Alfred H. Love, President of the Peace Union by the Post-Office authorities at Washington with a written statement that the department declined to forward the letter. A messenger was sent to Washington by Mr. Love to see the Secretary of State, who positively declined to sanction the use of the United States mails for a letter which for obvious reasons he regarded as objectionable. Mr. Love stated that notwithstanding the prohibition of the Government, he had taken measures to see that this communication was transmitted to the Queen of Spain by a roundabout way.

**MOUNT ALLISON UNIVERSITY.**

SACKVILLE, N. B., May 31.  
On Monday afternoon the exercises of the Boys' Academy came off. A pleasing feature of the programme was an excellent essay on the Cuban question by Gustavo Gispert, the son of an officer in the insurgent army.  
In the evening the Ladies' College anniversary was a great success. Diplomas and teachers' certificates were received by a number of young ladies.

Highest general average—1st prize \$23, Miss Edith Archibald, Halifax; 2nd, \$10, Miss Winnie Brecken, Charlottetown; 3d, \$10, Miss Constance Chipman, St. Stephen. Miss Minnie Moore was awarded a prize for essay-writing. Miss Anna Poole gave a good reading in Beethoven Hall on Friday evening.  
This evening the University closing will take place, when degrees will be conferred.

CAPTURED A SHARK.—A shark measuring about 12 feet long, became entangled in the nets of one of the West End flats weirs last Friday. The fishing being very good the last few days, it is thought the monster had followed the large schools of fish into the harbor. The shark was shot by a young West Ender.—St. John Telegraph.

CLERKS DISCHARGED.—It is understood that Jordan & Marsh, the big department store firm in Boston, have discharged over three hundred clerks on account of the slack business. White's big store also has discharged a regiment of clerks for the same reason. There were many Is'anders employed in both stores.

A BIG CONTRACT.—The Moncton papers report that Messrs. Paul Lea and James Reid, Dorchester, have received the contract for building the Merchants' Bank of Halifax, which will be of stone and brick. The building will cost in the vicinity of \$29,000, and work will be commenced in a week or ten days.

Mayor Warburton will take the chair at the Marietta LaDell entertainment at 8 p. m. tomorrow in Kindergarten Hall.

The well known property, Holland Garden, for sale by public sale at 12 o'clock tomorrow.

**THE OPERA.**

We heartily congratulate Mr. J. H. McDonald and those who united with him in the production of the "Doctor of Alcantara." Remembering that the dramatic persons are all amateurs and that the practice of their parts and the opera as a whole did not extend over six weeks, we regard the rendition of last evening, in respect alike to acting and singing, as really wonderful. There were of course a few little faults about which the critic might discourse. But the general effect produced was undeniably, and under all the circumstances exceptionally, good. The different parts were nicely balanced, the choruses grand, and the accompaniments by Vincombe's orchestra all that could be desired. The cast of the characters was as follows, the first four ably sustaining the leading parts.

Doctor Paracelsus.....Mr. J. H. Macdonald  
Isabella, daughter of Dr.....Miss Hyndman  
Lucrezia, wife of Dr.....Mrs. W. J. O'Reilly  
Inez, Isabella's Maid.....Miss Amy Earle  
Senor Balthazar.....Mr. J. F. O'Neill  
Carlos, son of Bal.....Mr. A. Peake  
Pomposo, Sheriff.....Dr. J. F. Maloney  
Perez } Porters. } Mr. J. O. Arsenault  
Sancho } } Mr. H. Dingwell

The singing of Miss Annie Hyndman was faultless. No passage or part presented any difficulty to her. All was sung with fidelity of interpretation and accuracy of rendition, and in a voice refreshingly sweet and clear, full of youthful vigor and spirit. Mr. Macdonald, too, surprised even his many admirers by the versatility of his performance. Both of these talented artists acted as well as they sang, and it is doubtful if any Canadian city of the size of Charlottetown could produce their superiors. Mrs. O'Reilly and Miss Amy Earle deserve a highly honorable place both for their singing and histrionic performances. As was anticipated, Mr. Arthur Peake acted his part well, and with practice will no doubt shine as brilliantly as an operatic singer as he hitherto has as one of our leading amateur actors.

A large and cultured audience, which included His Honor the Lieutenant Governor and Mrs. Howlan, His Lordship the Bishop of Charlottetown and many of the Clergy, gave generous and well-deserved applause; and Mrs. O'Reilly, Miss Hyndman and Miss Earle were each presented with bouquets of beautiful flowers, expressive of the appreciation of their friends.  
It is pleasing to learn that the opera will be repeated at a matinee to be given on Saturday afternoon.

**Leiter's Profits.**

From a source that has been in close connection with Leiter comes this estimate of Leiter's profits:

1897—July deal.....	\$ 500,000
1897—September deal.....	720,000
1897—December deal.....	330,000
1898—May deal.....	1,800,000
<b>Total.....</b>	<b>\$3,350,000</b>

**Tobacco Growing.**

TORONTO, May 30.—In the crop bulletin just issued by the Ontario Department of Agriculture correspondents in Essex county say that a great deal of tobacco is being grown this year, necessitating the hiring of extra help. Joseph Henry, of Leamington, is putting in 23 acres of tobacco on his lake-shore farm. Labor in and around Leamington is very scarce and everybody is going in for tobacco raising. The first crop promises to be abundant.

The need of a good Spring Medicine is almost universal, and Hood's Sassaaparilla exactly meets this need. Be sure to get Hood's.

Will not upset the stomach: Dr. Harvey's Southern Red Pine—The Cough Cure.

United States Consuls at Rio Janeiro have been warned to look out for a Spanish fleet, which may put in there for coal, if on its way to Manila.

**DIED.**

On May 31st, in the 17th year of her age, Kathleen Frances, beloved daughter of Rowan R. and Angas A. Fitzgerald. [Funeral on Thursday, 2nd June, to the Peoples Cemetery. Friends wishing to attend will please meet the hearse at 2 o'clock, p.m. on the St. Peter's Road, opposite the residence of Mr. A. B. Warburton.]

**AN UP TO DATE TIME TABLE.**

**A Letter on the Subject From Hon. D. Ferguson.**

SIR,—In the Daily Patriot of the 26th inst. I notice a letter signed "Souronian" advocating close connection between the trains serving Souris, Georgetown and Tignish, and the steamer Northumberland at Summerside making it possible for passengers and mails crossing via Summerside to leave or reach Eastern or Western Island points on the P. E. I. Railway on the same day.

"Souronian" does not seem to be aware that this service, as far as the west is concerned, has been an accomplished fact in the summer months since 1895. In that year, in the face of no small opposition, I secured the co-operation of the different railway authorities and the P. E. Island Steam Navigation Company in an arrangement by which mail and passenger connection between the United States and western Canada, on the one hand, and P. E. Island on the other, was made as close as perhaps any similar service on the American continent. Although the opinion of the people of the western part of this Province was somewhat divided at the time, I secured connection morning and evening between the Tignish train and the steamer Northumberland. I am glad to say that the results of the experiment then made are such that I think few people would desire to go back to the old style of things when passengers and mails from Tignish were detained one night at Moncton and a second at Summerside instead of going forward to their destination in the evening of the same day.

I believe that a slight change might be made in the hour of departure of the West bound trains on the Mainland. So that the steamers might leave Summerside one or perhaps two hours later than she does at present. That change would enable trains leaving Tignish, Souris and Georgetown at reasonable hours in the morning to connect with the steamer at Summerside.

I fully agree with the Patriot and its correspondent that if we are to encourage tourist travel we must have up to date time tables.

I am sincerely yours  
D. FERGUSON.

Ottawa, May 28th, 1898.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that the feeding shall be regular and right. While he is doing this it is likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can find no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong, assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.

**LOCAL NOTICES.**

There's a boom to the shirt waist selling. Read our ad for the reason why.—Moore & McLeod.

New waists, 1898 styles, direct from the factory—selling at bargain prices, see ad. Moore & McLeod.

Shells from American guns are now being sold as curios in San Juan, and Porto Rico. At least five hundred of them were picked up. A large portion of them were unexploded.
