NEW YORK

NEW YORK (AP)—The stock market tapped off three days of recovery with a dull and irregular decline Friday.

Some leading issues were under heavy selling pressure because of corporate developments but the over-all performance was generally expected following the advances of the previous sessions.

On balance, the loss was trifling. The Dow Jones industrial average dropped 1.86 at 809.39. Other indicators also took mild losses.

Volume was low, 3,840,000 shares, only a slight improvement over the 3,660,000 of Thursday, the year's lightest.

A big feature was Sperry Rand which fell 1⅜ to 14¾ on 234,500 shares as most active stock. It was the first time in 12 sessions that Texas Gulf Sulphur had not paced the list of volume.

Another outstanding market factor was an official order for Pacific Telephone to cut its telephone rates. Pacific Telephone, a subsidiary of American Telephone, sank 1¼ to 28⅞ as 10th most active stock.

A.T. and T. FELL

A. T. and T. suffered with its subsidiary and fell 1⅝ to 134¼ as fourth most active issue.

The Associated Press average of 60 stocks dipped .2 to 304.0 with industrials off .1, rails up .2 and utilities off .5.

Among the 15 most active stocks gainers and losers were even at seven each, with Lionel unchanged.

Among Canadian issues traded Canadian Pacific rose 1¾, McIntyre Porcupine ¼ and Dome Mines ⅛. Granby Mining and International Nickel each lost ¼, Aluminium Ltd. ⅛.

The American Stock Exchange was irregularly lower although Canadian Javelin added ¼.

TORONTO

TORONTO (CP) — Stocks closed the week on a bright note as a late rally pushed all major segments of the market to the upside. Trading was slim.

Industrials were paced higher by CPR which tacked on 1 to $46¾.

Algoma Steel and Dominion Bridge remained lower ½ each at 68½ and 23 respectively.

Leitch spurted 50 cents to $5.20 and Highland-Bell 60 cents to $6.95 among mining issues.

In speculative mining issues, PCE Exploration and Bunker Hill dipped five cents each to 47 cents and 51 cents respectively.

Golds were strong.

Western oils showed a firm front.

On index, industrials were up .16 to 154.40, golds 1.35 to 136.19, base metals .36 to 63.26, western oils .86 to 97.62 and the Exchange index .21 to 144.24. Volume for the session was 3,859,000 shares compared with 4,481,000 shares Thursday.

INCREASED CAPACITY

Norwegian hydro - electric power plants increased their installed generating capacity to a total 7,910,000 kilowatts in 1963.

Varied Views Are Heard By Que. Committee

QUEBEC (CP)—The Quebec Legislature committee on the constitution Friday heard one resident of the province urge that Quebec become independent and another call for its continued membership in the Canadian Confederation.

The committee is considering the possible need for changes in the Quebec constitution in the light of modern conditions.

The argument for independent status came from Raymond Barbeau, who said he is a teacher at the school for advanced commercial studies in Montreal and author of several books urging separation of Quebec from Canada.

Mr. Barbeau said Quebec is an authentic "nation state" which does not possess sufficient powers for statehood because of what he called its "annexation by a foreign state."

SHOULD BE REPUBLIC

He said Quebecers have the right under international law to self - determination and that their future should be one of independence and participation in the worlds community as a free republic.

Edward J. Struthers of Stanstead, Que., who identified himself as a former federal government official, told the committee of legislators that the present constitutional system, including the rights of the English - speaking minority in Quebec, should remain unchanged.

The French - speaking residents of the province, he said, "have no reason to feel inferior or discriminated against."

EXPECT MILLIONS

Some 30,000,000 persons are expected to visit the Montreal world fair during its six months of operation in 1967.
