

E. Kings Tourist Ass'n Formed

TOURISTS - The Eastern Kings Tourist Development Association was officially formed at a special meeting last night at St. Mary's Parish Hall in Souris.

The state of officers for the coming year will be as follows: Mr. For Roscoe, president and Joseph C. Paquet, treasurer.

The purpose of the organization is to develop and expand the tourist facilities in the eastern Kings area in an effort to help local merchants to take advantage of the tourist trade and to allow visitors to see more of the Island.

It was decided that a campaign for membership should be started immediately and an effort would be made to determine the support of all the businesses in the eastern Kings area as they would be the one who would benefit the most from this group.

Plans were begun for the study of the area, the assistance being given to determine just what there is to offer for the tourist. The next step is to have a survey of those attractions and then add others.

It was felt that this was a very necessary organization and it was about time that something was done to improve the tourist facilities in the eastern Kings area.

Two committees were formed to handle special matters. The promotion committee would consist of Mr. Roscoe, president and Mr. Paquet, treasurer.

The other special committee was the publicity committee of which the chairman would be Edward Clifton.

The new organization felt that it was important to get rolling as soon as possible and that the peak of activity would be during the winter months and all would be in readiness by the time the tourist season began in June.

In keeping with this thought it was agreed that meetings would be held as often as possible and the next one will be at St. Mary's Parish Hall, Souris, at 8 p.m. on Sept. 8.

Edna Mary Arsenault came to her death by a bullet from a 306 rifle on August 12, 1935, in the home of her mother, Mrs. J. Higgins, in the town of Souris.

When in Cape Breton, Higgins continued, he fired the rifle, reloaded it and then pulled the trigger. The rifle was almost positive in the glove compartment of his car and put the rifle in the trunk. It was almost positive moving the rifle was he said.

The above verdict was brought in last evening at an inquest in the Alberton Court House presided over by Coroner D.G.M. Dewar of Alberton.

Mr. Reginald Jeffery, Alberton, told of hearing the shot and calling a doctor and the RCMP. Detachment of the RCMP described going to the scene where he saw the body of a woman lying on the ground and a man crying and carrying on.

The complete coverage of the scene resulting from the bullet wound, Mr. Stanley Helmsch, Alberton, told of receiving a call to the scene where he found a woman lying on the ground, which he pronounced dead, and a man lying across the body crying.

The next witness, J. Henry Myers, said her daughter came from Toronto in Alex Higgins car for a vacation and returned to return with him the following Saturday. Alex Higgins engaged to Mr. Higgins but had broken the engagement.

On the morning of Aug. 12, Edna and Alex Higgins were outside and there was a loud explosion. Mrs. Myers went out and saw her daughter bending over with Alex lying on the ground. She thought she had taken a weak spell and went for some water.

The fourth witness, Alexander Higgins, told that he was in a motor car from Toronto on Aug. 12 with Edna Arsenault, stayed overnight at the home of Henry Myers and left for his home in Cape Breton Island. He returned to the Myers home on Aug. 11 and the following morning about 11:30 went to clean out the trunk of his car in order to take the Myers family on a picnic.

When he passed the rifle to Edna Arsenault, he was very nervous and she was very nervous. He was about to take the rifle to the trunk of his car and she was very nervous.

Edna Arsenault was very nervous and she was very nervous. She was very nervous and she was very nervous.

Edna Arsenault was very nervous and she was very nervous. She was very nervous and she was very nervous.

Edna Arsenault was very nervous and she was very nervous. She was very nervous and she was very nervous.

Edna Arsenault was very nervous and she was very nervous. She was very nervous and she was very nervous.

CAMP DIRECTOR CHARLES BALLEM HOLDS CLASS IN HEALTHFUL OUTDOORS BEFORE BREAKFAST, TOO

While Hikes in Early Morning Get Youthful Leaders in Shape

BY NICK FILLMORE - If you enjoy a two-mile run through the woods before breakfast and getting up in the morning late in the afternoon after a rugged day, the Youth Leadership Training Camp here at Holland Cove is probably the place for you.

Upwards of 100 young men and women have spent the last two weeks at this camp and they are not the top physical athletes of the province.

The camp concentrates on physical fitness. The camp director, Charles Ballem, Summer side says, "get the idea of fitness across to the kids." Track and field, says Mr. Ballem, is basic to all other sports.

Physical fitness is not all work and no play. Both the boys and the girls get plenty of time off to enjoy the outdoors and daily rest periods are compulsory.

SIX GIRLS TAKE PART in the first week of the camp, Aug. 18-24, as 36 teenage girls, six counsellors and nine instructors participated on a diversified list of events including lectures, P.E., swimming, tennis, films, volleyball, singing, alcohol studies, and smoking studies, and softball.

The girls program has been more strenuous than that of the boys. The boys' major days through the week are spent in the two mile run, the 100 yard sprint, and the 200 yard sprint.

One of the camp's major features is a series of lectures on all aspects of track and field, given by the best available instructors.

The lecturers include: Head Coach, Mr. Ballem; Mr. J. R. MacIntyre, who has been a member of the national team; and Mr. J. R. MacIntyre, who has been a member of the national team.

Mr. Ballem - matches still covered burns around his eyes - was laid to a car by his brother-in-law and wife, then driven the 23 miles to the home.

IT'S UP AND OVER FOR THIS HIGH FLYING POLE VAULTER

Meeting Hears Favorable Reports on Swim Classes

ALBERTON - Gordon Macdonald, chairman of the Red Cross Swimming and Water Safety Committee for the province, presided at a meeting of local committee chairmen for Prince County held in Alberton last evening.

Following a supper served by the Alberton United Church Women, each local chairman reported briefly.

Mr. Reginald Eldershaw reported two boys held in Summerside, 244 who took the tests, 92 passed. The program was sponsored by the Y's men. Total cost of the courses was about \$700 of which the greater part was for transportation.

C.R. Leard, secretary of the Alberton and West Prince Board of Trade which sponsors the program in Alberton, reported that 40 had enrolled for the course there.

Mr. Reginald Eldershaw reported that 140 had taken the course in Tignish where it was sponsored by the Tignish association. There had been two instructors. At the conclusion of the course and tests, both children and adults, a most successful aquatic day was held.

Mr. Claude Yoo of Port Huron reported that four districts had been enrolled in the course and that attendance at classes had been satisfactory.

Mr. Wallace McKenna of Kinross reported 31 enrolled but some had dropped out because of difficulty in getting to the beach which is some distance from the community.

Mr. Wilbur Staveret reported 25 enrolled in four districts and that the program was being sponsored by the Women's Institute at the Women's Institute.

Mr. Carl O'Holloran reported 41 enrolled at Cape Wolfe with 17 making the tests.

Mr. Boyd MacMillan of Carleton Place reported 30 enrolled in the afternoon and evening classes sponsored by the Women's Institute. Three districts participated in the program. All the children were very interested in the program. A very steep bank and large waves were the chief obstacles. To help defray expenses the boys were sold at the beach.

All children had words of high commendation for the instructors who are trained by the Red Cross.

There was very interesting discussion regarding the status of the Red Cross swimming and water safety program.

One of the questions raised was whether or not tests were being held at the same time as the first year should not be discouraged for it may take several years to learn all that is required to be a swimmer.

Another question discussed was whether or not it would be possible to amalgamate some areas and carry on the program on a larger scale. One of the

points brought out was that if transportation was a problem it might be possible to make arrangements with regional high school trustees to use school buses for transporting the children. It has been learned that a local plan can be worked out which will be acceptable to the department of education.

Accident Sends Two To Hospital

An accident early this morning sent the distance for his team, giving up three hits, walking two and striking out nine.

The longest hit of the day brought in two runs and was by A. McCormack in the final inning. The Montague team although losing the game had fourteen men on base. Three Souris hitters hit one for three while Andy McCormack hit one for three.

WILL SINK SHIP - YARMOUTH, N.S. (CP) - The 1,100-ton ship "Florus" that sank in the harbor here June 28 after catching fire, will be towed to sea and sunk, a representative for the ship's insurance underwriters said Tuesday. The ill-fated ship arrived here June 24 carrying the A.G. Insular Co. cargo.

TRURO (CP) - Bob Brook, the five-year-old boy owned by Mrs. M. J. Brook, was killed by the Truro track record Thursday night in winning the first leg of the 42-Mile Maritime Invitational race in 2:06.55.

His time was 14 of a second faster than the record of 2:06.55 established by Mighty Big in 1958.

In the second heat, race seven, Willie's Adios split Bob Brook by a neck in 2:06.45 after Edge-worth Scott led the race.

SHOULD BE AVOIDED - The department of education sponsored music workshop, being held at Elm Point School, will be in its final week, giving them help in their music program.

The lecturers include: Head Coach, Mr. Ballem; Mr. J. R. MacIntyre, who has been a member of the national team; and Mr. J. R. MacIntyre, who has been a member of the national team.

Test Cores Are Taken In Strait

Test drilling for cores from the bottom of Northumberland Strait is underway and is expected to be completed by the end of September. The tests are being done over the test site off the coast of the Strait.

The core samples are being used for a variety of purposes. The project is also being studied as the best type of structure for the crossing.

About two weeks ago, the tower from which the test drilling is being done fell over about 20 feet of water off Cape Jourdain, but it has since been brought up.

The tower was then moved about two miles farther into the strait and a second core is being done off Cape Jourdain, but it has since been brought up.
