

THE DAILY EXAMINER

FEBRUARY 13, 1896.

NOTES AND COMMENTS.

The Glasgow Herald says the coming British naval programme will cost £9,500,000, which will be constructed four battleships, four first-class cruisers, four third-class cruisers and sixty torpedo destroyers.

The Grits are clanking at straws. The Toronto Globe of Monday last has an editorial urging the Liberals to support the Patrons of Industry at the general election, and declaring that it would rejoice to see a number of them in the house at Ottawa.

Toronto Globe: The Patron member for West Wellington was upstaged and disqualified. For our part we do not think his offence was of the first gravity.

Such "vigorous support" as is calculated to defeat the men whose candidature it espouses, is that given by the Guardian. The Examiner does not give such "vigorous support" as that. The Examiner's efforts are expended in defeating its opponents, not its friends!

Prof. Cox, of Montreal, made a few days ago, a remarkable use of the new discovery in photography, by employing it to locate a bullet lodged in a young man's leg which the surgeons had in vain attempted to discover with the probe.

The Hamilton Times avers that the Liberal Government has been using any money it can scrape up comes out of their own pockets. Upon which the Montreal Gazette remarks that there is evidence in the public records of Quebec which shows that over \$300,000 was scraped up for use by the Liberal election workers, not out of their own pockets but out of the pockets of the people.

St. John Sun: North Sydney is a decidedly grid town. Dr. Isaac Murray, the eminent Presbyterian clergyman, who welcomed Sir Charles Tupper and spoke very highly of his policy, has been a kind of a pastor, and the so-called liberal press says that his choir has struck and the congregation has deserted the church.

Referring to the statement that bribery was resorted to in Cape Breton against Sir Charles Tupper, the Hamilton Times asks, where would the Liberals get money to buy votes? During the last general campaign, remarks the Montreal Gazette in reply, it was Mr. Erskine Blair who said there was a hundred million dollars of New England capital interested in securing a majority for unrestricted reciprocity in Canada.

Thomas Sexton has declined the chairmanship of the Liberal League in the city, which was tendered to him by the council of the federation at their quarterly meeting in Dublin on Sunday last.

Something seemingly new in politics has developed at Elizabethtown, Ky. The mayor announced on assuming office of his year that he would give his salary to the city. The city councilmen determined not to be outdone in patriotism and voted to allow the city to draw their pay, too.

Some weeks ago the startling news was flashed over the country that in a certain Mexican village there had been a case of personed ten heretics—x men, two women and one child—set fire to the jail and danced around the victims as these were being cremated. Newspapers and pulpits next forth loud denunciations of the atrocities practiced by Catholics. Enquiries were at once made, and it was discovered that there was not a particle of truth in the report.

That woman in politics means purity in politics one Kansas woman has started out to demonstrate in an interesting way. Mrs. D. P. Leslie was elected county clerk in Brown county at the last election. She, of course, pledged herself to appoint only deserving persons to the offices in her control. She has begun by making her daughter chief deputy. She knows the character of this appointment thoroughly and is satisfied of her fitness and integrity.

A woman suffering from leprosy was discovered in South Boston a few days ago and was removed to Phillip's Island in the harbor. The fact that she has lived in South Boston five years is given out. She is fifty-five years old, of English birth. The doctors are satisfied that neither she or her family are in any danger of being diseased. The family have not mingled with neighbors and as the house has been thoroughly fumigated and other members of the family properly cared for there is no fear of further danger.

Blood and nerves are closely related. Keep the blood pure with Hood's Sarsaparilla and you will not be nervous.

ENGLAND AND GERMANY.

Utterances in the Reichstag Will Aid the Navy Scheme.

Within the past week, says a late despatch from Berlin, the officially inspired German press, which formerly had been pounding England hard, as violent language could be so readily ceased its blasts against Great Britain. It cannot be ascertained that there have been any changes in the course of the policy of Germany, except that the former cause generally supports the representations on the part of Austria and Italy, the emperor put a check upon German diplomatic activity in quarters where there had been jealousy of England.

The debate in the Reichstag on Friday upon the naval estimates gave Herr Marshall von Bismarck, minister of foreign affairs, and members of Reichstag in touch with the government an opportunity to make declarations decidedly friendly to England, and the occasion was the most of. Apart from a reassuring speech by Herr Marshall von Bismarck, the most notable statement was a declaration of Prince von Arenberg, Centrist, president of the Colonial Society of Germany that at no time had there been any trace of any anti-German excitement which prevailed in England. This utterance was received with applause in which members of all parties joined.

The Scott's Farm, a strenuous opponent of the free admission into Great Britain of Canadian live stock, appears to regard with more satisfaction, the proposal to establish a Canadian dressed-meat trade, judged by the following, which appears in its last issue: "Professor Robertson, the chief agricultural organizer of the Canadian Government, is a long-haired Scotchman; he recognizes the wants of the times, and respectfully sets himself to supply them. At the congress held during the Christmas (Ontario) Fair (Stock) week he unfolded a scheme for supplying wholesome food to the British market, with which no one will be able to quarrel. The keynote of his scheme is—Britain for the British; Canada is part of the United Kingdom; better is it for the mother country to get her food supplies from her own children than from strangers. So say we all. The aim of the Professor—and the Dominion Government will back him—is to make the car trade between Great Britain and Canada a dead-end street. He recognizes that the ports of this country are irrevocably closed to live cattle and sheep, and he, therefore, calls upon the Canadian farmer to supply the Mother Country with dead-meat, which will be chilled, not frozen. He proposes that, in order to make a demand for this meat, the Government of the Dominion begin by slaughtering 500 cattle per week at Montreal and shipping the chilled carcasses to the British ports, in which shops will be opened for the sale of Canadian meat and nothing else. Believing that the quality is first-class, Professor Robertson means to sell on its own merits, and thereby create a demand for Canadian beef, such as now exists for Danish butter. As we cannot feed our population ourselves, no farmer or more worthy means of supplementing our efforts that now outlined has ever been devised."

ITALY'S AFRICAN WAR.

Sea Army Utterly Demoralized—Arrival of the Italian Troops.

A despatch to the Boston Globe from London says: The facts regarding Italy's war with Abyssinia have been grossly misrepresented in Europe. It is a pity that the Italian troops have suffered severely at the hands of the enemy, but the Italian press has been so grossly deceived by the propaganda of the Italian Government. The propaganda of the Italian Government has been so grossly deceived by the propaganda of the Italian Government. The propaganda of the Italian Government has been so grossly deceived by the propaganda of the Italian Government.

SCCHOOL EXAMINATION AT KELLY'S CROSS.

Mr. D. J. McLeod, Superintendent of Education, held an examination at Kelly's Cross on the 4th inst., and, as usual, found the Kelly's Cross School in a high state of efficiency. There were fifty-nine pupils in attendance, thirty-two in the juniors, and twenty-seven in the seniors. The examination of the junior classes showed that Miss Maggie McKenna is continuing to do good work in her department, and is proving a success in training young children in the advanced department. The examination of the senior classes showed that Mr. Devereaux is evidently determined to maintain his well-earned reputation of being one of the best first-class teachers in the Province.

AN ACKNOWLEDGMENT.

Sir,—Permit me, through the columns of THE EXAMINER, to state that I most earnestly desire to thank the citizens and the non-resident voters for the renewal of confidence, as expressed yesterday in my reelection to the office of Mayor by an exceedingly large vote and most handsome majority, and to assure them that my best efforts shall continue to be given to the advancement of the best interests of the city.

W. E. DAWSON. City'wa, 13th Feb, 1896.—1

CARD OF THANKS.

To the Electors of Ward Five: I am extremely obliged to the Electors of the Ward for electing me at the head of the poll. I will in the future as in the past endeavor to carry out the wishes of the electors and the city in general.

I am, your truly, ALEXANDER HORNE. febl3

CARD OF THANKS.

To the Electors of Ward Five:—Ladies and Gentlemen:—Please accept my sincere thanks for your expression of confidence, as shown in the large vote by which you have re-elected me as one of your representatives at the Council Board. I appreciate it the more coming, as it does after having served several years in the past six years. I remain, your obedient servant, GEORGE E. HUGHES. febl3-11

CARD OF THANKS.

To the Electors of Ward Five: The undersigned thanks his sincere thanks to the Electors of Ward Five for their handsome majority in returning him as their representative in the City Council. D. L. HOOPER. febl3

CARD OF THANKS.

Mr. Donald Nicholson and Dr. H. D. Johnson wish to thank the friends who so ably supported them, and who so kindly voted for them, in the Civic Election in Ward Four. febl3

"IS LIFE WORTH LIVING?"

Life is worth living if we live aright.

Eyes to the front, the final end in view. The end when all aims trivial or untrue. Must burst like airy bubbles on our sight. Life is worth living if we do our best. Our best is often greater than we dream. Immortal souls with mighty forces teem. They are revealed by him who makes the quest.

Life is worth living when we secret thought. Hides no least wish or impulse, hope or aim. That can bring disappointment, sorrow, shame. Or hurt to any fellow being's lot.

Life is worth living when we strive to be. Of greater use to-morrow than to-day. Molding ourselves from rough, unshaped clay. To something lovely for the world to see.

—Elli Wheeler Wilcox in Youth's Companion.

FROM A BRITISH STANDPOINT.

The Scott's Farm, a strenuous opponent of the free admission into Great Britain of Canadian live stock, appears to regard with more satisfaction, the proposal to establish a Canadian dressed-meat trade, judged by the following, which appears in its last issue: "Professor Robertson, the chief agricultural organizer of the Canadian Government, is a long-haired Scotchman; he recognizes the wants of the times, and respectfully sets himself to supply them. At the congress held during the Christmas (Ontario) Fair (Stock) week he unfolded a scheme for supplying wholesome food to the British market, with which no one will be able to quarrel. The keynote of his scheme is—Britain for the British; Canada is part of the United Kingdom; better is it for the mother country to get her food supplies from her own children than from strangers. So say we all. The aim of the Professor—and the Dominion Government will back him—is to make the car trade between Great Britain and Canada a dead-end street. He recognizes that the ports of this country are irrevocably closed to live cattle and sheep, and he, therefore, calls upon the Canadian farmer to supply the Mother Country with dead-meat, which will be chilled, not frozen. He proposes that, in order to make a demand for this meat, the Government of the Dominion begin by slaughtering 500 cattle per week at Montreal and shipping the chilled carcasses to the British ports, in which shops will be opened for the sale of Canadian meat and nothing else. Believing that the quality is first-class, Professor Robertson means to sell on its own merits, and thereby create a demand for Canadian beef, such as now exists for Danish butter. As we cannot feed our population ourselves, no farmer or more worthy means of supplementing our efforts that now outlined has ever been devised."

YOUNG FELLOW.

A Rose by Any Other Name.

Would smell as sweet. It's not the name, but the thing the name stands for, which counts. It is not the high-priced label on the bottle, but the wine in the bottle, with which the public is concerned. The public wanted a good but cheap wine, and this the Bordeaux Claret Co. have supplied in claret, burgundies and shampagnes, at the lowest prices ever offered in the history of selling in any country—\$3 and \$1 per doz. quarts. And yet the wines are excellent. They have age; they have robustness; they have bouquet. To sell on its own merits, and thereby create a demand for Canadian beef, such as now exists for Danish butter. As we cannot feed our population ourselves, no farmer or more worthy means of supplementing our efforts that now outlined has ever been devised."

OBITUARY.

Paris, Feb. 13. Ambrose Thomas, the musical composer, is dead.

HOCKEY AT SUMMERSIDE RINK.

The "Oranges" Victorious, 3 to 5. (By Telephone).

A splendid sheet of ice greeted the players here last night, and a fairly good audience witnessed the match. At 8 o'clock both teams appeared on the ice, and after a few rounds accompanied by music from the band, the referee's whistle sounded and they lined up in the following order:—

Forwards—William Strong, A. Baker, L. Sharp, B. Harper, H. Grady, (Capt.) Point—W. H. B. Russ. Goal—H. Fraser.

GREENS.

Forwards—R. Morris, T. A. Green, F. McInnis, L. Montgomery, J. Brehaut, (Capt.) Point—H. Jamieson. Goal—R. McDonald.

The Orange defended the eastern goal, and the Green the western during the first half. After some lively scrimmaging the Green gained a goal, and shortly afterwards a goal was gained for the Orange. For the first half the count stood 1 to 1.

In the second half Morris and Sharp faced off, and the Orange gained their goal in succession, and the Green in turn gained two goals. When time was called the count stood 5 to 3 in favor of the Orange.

Special mention may be given to L. Sharp, H. Grady and Wm. Strong for the Orange, and also to R. Morris, E. A. Green and J. Brehaut for the referee.

GEORGETOWN JOTTINGS.

The Carnival to be held on the 17th promises to eclipse anything of this kind ever held in the city.

The Stanley is now doing good work between here and Pictou.

There is talk of a regatta being held here about the 20th inst., as the harbor is so clear of ice as in July. Perhaps as Summerside has had no ice all winter some of her fast boats would like to take part in this regatta.

The annual town meeting was held on the 10th inst. All the old assessors were re-elected without opposition. This speaks well for the handling of the town's finances in the last year.

TELEGRAPHIC.

SPECIAL DESPATCHES TO THE EXAMINER.

PARLIAMENT OF CANADA.

How About That \$25,000?

OTTAWA, Feb. 13.

Some interesting answers were given by ministers to questions put in the House yesterday.

Hon. Mr. Dickey informed Colonel O'Brien that Sir Charles Tupper had been instructed to place a portion of the Regiment of Royal Canadian Infantry at the service of the Imperial Government for garrison duty. The instructions were conveyed in an informal telegram from the Minister of Militia, the date of which could not be definitely fixed.

Mr. Davies again brought up the question of the alleged expenditure of \$25,000 by the gill in the Cape Breton election, and read a letter from the Attorney-General of Nova Scotia, in which he characterized the charge as an unmitigated falsehood. Mr. Davies said, on his personal honor, that \$2,000 was the very outside sum subscribed for Mr. Murray's expenses. He asked that a committee of the House be appointed to investigate the matter.

Mr. Dickey said that Mr. Davies had pledged his honor—whatever that might be worth (loud cries of order). Well, he would withdraw the phrase and state that it was not on his personal honor, but on a personal knowledge of facts, that Mr. Davies should make his declaration to the House. If Mr. Davies wanted to investigate the amount of money spent, he should do so through the proper channel, namely, the courts.

The discussion was continued by Mr. Mills, of Bothwell, Dr. Weldon, who pointed out the facilities which the courts gave to the Liberals, Taylor, Mulock and others, after which the matter dropped.

FLOWERS.

One expects flowers in spring and summer, but if we are to judge of the quantity on the lists shown in New York, it will be a flower season. Certainly they will be profusely used.

We saw principally roses, violets, poppies, nasturtiums, carnations and pansies. How many the combinations! How beautiful the blendings of color! How artistic the designs!

Flowers are massed for side trimmings in the "gerbe" form, the French for sheer.

The artists talk much of "cache-peignes"—cash-pans—are nearly the pronunciation. Literally these are "comb-holders," that is, an arrangement of flowers to be worn under the back trim of the hat so as to conceal the comb. We call to mind no New York hat that did not show these. "Cache-peignes" are also made from lace and other material.

As for colors, the different tones of yellow found in the nasturtiums are great favorites. Cashmere effects in roses are elegant. In petunias and violets the light shades seem to have the preference.

In form there is much that is new. This is especially noticeable in violets, poppies and daisies. The new forms will be all good stock.

Many of the flowers shown are extravagantly large. Violets are shown as large as a small rose.

FOLIAGE.

This comes out in higher artistic effects and more beautiful shades than ever. It will be largely used. Something very new are the combinations of green satin leaves in the cashmere effects. They are a delight to the eye.

Violet and Rosebud foliage are leading forms much sought. They are charming enough to warrant this forecast.

Natural roses in pink up through all the shades of the American beauty to dark red are very popular.

These colors will be favorites in Ribbons also.

The Newest Veils and the correct manner of tying them. We received the New Veiling yesterday—James Paton & Co.

Artificial Flowers in favor. We received New Flowers yesterday direct by express from Mr. Paton—James Paton & Co.
