

With The Setting SUN...

Spring is here, summer approaches chasing away the cold winter winds once again. School will soon be over and the SUN sets for another year. Now's the time for many thanks and fond farewells.

It takes the aid and support of many to get a newspaper out and we could never have done it without you all.

Heartfelt thanks to the Student Union Executive, Terry, Patti, Sue and Bruce for their innumerable contributions. Thanks to our writers for without articles what is a newspaper? So thank you Theresa McKenna, Larry Loveless, John McLean, The Professor, The Student, Jaimie McSwain, Paul Bradley, The Engineers, Robyn Hume, Pamela Shaw, Hugh Johnson, John Pendergast, Mickey Place, CIMN (your music kept us going many a night), Gabble Ratchet, Tom Killorn, Pam Clarke, The Business Society, Blanchard Corner, John MacDougall, Topics, and our foreign correspondent Maureen Hartman.

We've had some excellent photos in the SUN this year and Augustine Hii Lou Ping and Preston Delaney deserve a lot of credit.

We have all followed with great interest and amusement the antics of "Dexter T Gnome" and have chuckled at the cartoons of our witty and talented graphics artist, Paul Robinson. Thanks PR!!

Advertising is essential to a newspaper and we appreciate the hard work of Dave McInnis and our new found wonder, Peggy Howard.

A very very special thank you to our dedicated typist Cathy Parkman who faithfully pounded the keys article after article after article.

By the way Tom and Frankie did a few things as well.

So with the setting SUN we wish everyone a special kind of summer, a great new school year and to all the graduating students all the very, very best in your future endeavors. For our frazzled professors and administrators we wish a relaxing summer and the strength to carry on once more in September. Be good, be happy and be strong.
