Du Pont Will Distribute Large Block Of GM Shares

WILMINGTON, Del. (AP) — Directors of E. I. du Pont de Nemours and Co. Inc., has decided to distribute about one-third of the 63,000,000 shares of General Motors stock it holds to its common shareholders on July 9.

Under the arrangement, a holder, on June 8 of one share of du Pont common will receive one half share of GM.

The stock distribution is the first of possibly four instalments by March, 1965, under a federal court anti-trust divestiture order.

President Crawford Greenewalt said the distribution will be the only one in 1962. It will involve nearly 23,000,000 shares of GM stock with present market value of around $1,150,000,000.

Greenewalt said a recent law passed by Congress will save du Pont stockholders from the payment of a heavy tax in accepting the GM stock.

Under the law, he said in a letter mailed Thursday to stockholders, "the market value of the General Motors stock will be treated as a return of capital to individual stockholders."

Du Pont has nearly 46 000,000 shares of its common stock outstanding. Thus when diversture of GM stock is completed each holder of one share of Du Pont will receive about 1 1-3 shares of GM.

Both GM and du Pont lost a little ground on the New York Stock Exchange in first trading on the news. GM traded at $51.12, up 25 cents on the day but 25 cents below the highest previous "flash" price. Du Pont traded at $214.75, up $5.87 but off $1.75 from the opening, also on a "flash" price.

Flash prices are reported on certain stocks, including GM and du Pont, when the ticker tape is running substantially late, as in Thursday's heavy trading.

Heath Reports On ECM Talks

LONDON (Reuters)—Edward Heath, Britain's deputy foreign secretary and chief common market negotiator, has told the House of Commons that any agreements reached on the solution of individual elements remains subject to overall agreement.

Reporting on the latest round of talks which ended Wednesday in Brussels, he said momentum was maintained both in the meetings of the deputies of ministers and in the ministerial meetings which produced agreement on the tariff treatment to be applied to Britain's imports of industrial products from Canada, Australia and New Zealand.

He reminded that Britain from the outset has recognized that indefinite and unlimited continuation of free entry in this field might not be regarded as compatible with the development of the common market.

A member shouted "it's a sell-out" as Heath explained details of the agreement reached in Brussels.

He said there will be consultations between the enlarged European community and Canada, Australia and New Zealand in 1966 and 1969. After this date appropriate steps would be taken "in the light of all the circumstances and in conformity withthe provisions" of the 1954 treaty of Rome which formed the common market.

Approval Given For University

TORONTO (CP)—A group of citizens in Peterborough have been given provincial approval to open a new university there, the 14th recognized university in Ontario, Premier Robarts has announced.

The Institution will be called Trent University. It is to start classes in September, 1964, with an enrolment of some 100 students. Within 10 years, enrolment is expected to increase to 1,000.

Present plans call for capital expendituresof about $2,000,000 in 1964-65, $1,750,000 in 1965-66 and $1,800,000 in 1966-67.

Trent is expected to "provide a broad range of degree courses in the arts and sciences."

4♦	4♠	5♦	6♠

Opening lead — four of diamonds.

This deal occurred in the match between Switzerland and Belgium during the European championships staged in England last year.

At both tables the final contract was six spades and at both tables the contract was made. This, in itself, is not so extraordinary in a team match, but what lends interest to the hand is that the play at each table was of such high order that each declarer made twelve tricks in a hand that, superficially, appeared destined to go down.

The Belgian declarer was Ebi Polak and the Swiss declarer was James Patino. The play was similar at the two tables.

West led a diamond which was ruffed in dummy. Declarer entered his hand with a trump and played his singleton heart.

If West had gone up with the ace and returned a diamond, declarer would ruff in dummy, cash the king of hearts, discarding a club, and then ruff the nine of hearts. Since East's queen would fall on the nine, dummy's jack would have become a trick on which South could discard his remaining club loser. Declarer would thus make the slam.

But at each table West played low when the singleton was led, both Wests hoping that declarer would guess wrong. However, each South played the king, then ruffed a heart, ruffed a diamond, and ruffed another heart.

They then crossed to dummy with a trump and led the jack of hearts. East, out of hearts, discarded a diamond, and South instead of ruffing the heart, as would seem natural, discarded a club.

So West made the ace of hearts after all, but he didn't enjoy it for long. He now had to return either a club, which would permit South to score the queen, or else give declarer a ruff and discard.

West did as well as he could when he returned a low club, but South played low from dummy to bring home a well - deserved slam.

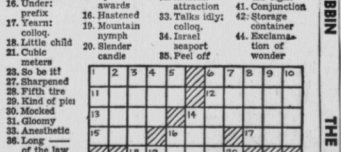
Saturday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
