Urgently needed, an Associate Minister (Presbyterian) for Zion Presbyterian Church, Charlottetown, P.E.I., for a period of one year. Please communicate with: MR. A. A. MacDONALD, Clerk of Session, 96 Upper Hillsborough Street, Charlottetown, P. E. I.

Prized Royal Messages

Hanging in the Library in the Bible House of the British and Foreign Bible Society, London, England, are two much prized messages. The first is from His late Majesty King George VI to members of Forces, sent in the dark days of 1940: "To all serving in my Forces by sea or land or in the air, and indeed to all my people engaged in the defence of the Realm, I commend the reading of this Book. For centuries the Bible has been a wholesome and strengthening influence on our national life, and it behoves us in these momentous days to turn with renewed faith to this Divine source of comfort and inspiration."

THE CENTRAL GUARDIAN

Women's Liberal Club Meeting

The February meeting of the Charlottetown Women's Liberal Club was held in the ladies room of the Canadian Legion Hall on February 12th. The president, Mrs. Russell Roper presiding. Two minutes silence were observed in respect to the memory of the late King George VI and God Save the Queen was sung. The minutes of the last meeting were read by the recording secretary, Mrs. W. J. Rord, which were approved as read. Mrs. G. A. MacDonald, treasurer then gave the financial report. Mrs. Eugene Cullen gave a most interesting talk on Liberalism from Confederation up to the present time. A hearty vote of thanks was moved by Mrs. Cecil Stewart, seconded by Mrs. B. B. Jones, and presented to the speaker by Mrs. Roper. Complimentary remarks were also made to Mrs. Cullen by Mrs. D. J. Riley. A nominating committee was appointed, comprising Mrs. John M. Rattenbury, Mrs. Lloyd Wellner and Mrs. B. B. Jones to select a slate of officers for the annual meeting in April. A tea committee comprising Mrs. Arthur Guldon, Mrs. Gilbert Gaudet and Mrs. Russell Farquharson served tea at the close of the meeting.

IN MEMORIAM

In loving memory of my Father James Dennis who passed away February 16, 1947. Resting where no shadows fall, In perfect peace he waits us all. God who links the broken chain As one by one we meet again. Ever remembered by daughter, Mae.

IN MEMORIAM

In loving memory of my husband James Dennis who passed away February 16th, 1947. Tonight the stars are shining, On a grave not far away, Where they laid our loved one, Five years ago today. May Heaven's winds blow softly, O'er that sad and hallowed spot, Where the one we love lies sleeping. And will never be forgot. Ever remembered by his Wife.

Strange But True

By F. H. MacArthur

The Canadian Press news travels by teletype over a 12,000 miles system of leased wires for which CP pays about \$130,000 every year. If all copy were handled at the standard press rate of one quarter of a cent a word the telegraph bill for 24 hours would be as much as \$12,500.

A news flash reaches the editorial room within three minutes after the news was "made" some place halfway around the world. This gives us some idea of how the world has shrunk in modern times.

There were 338 telephone calls (long distance and local) for every person in Canada in 1950, or 1,689 per phone. Now, considering that there are only 19.9 phones for every 100 of the population, it becomes at once quite obvious that some Canadians do a lot of talking.

Oil dries up quicker when machinery is not in motion and the smaller the amount of oil the quicker it dries up. That's why very small watches run dry in six to twelve months. Every machine wants oiling regularly, and so, most certainly, watches.

The self-winding watch is an ingenious invention fulfilling all its claims. True, the wrist motion winds the watch; it cannot overwind, for the mainspring is wound on the same principal as a pedometer winding invented by Louis Recardon in 1780. Briefly, lever pinated at one end and kept in its normal position against the upper of two banking pins by a curved spring so weak that the ordinary motion of the wearer causes the lever to continually oscillate between the banking pins.

The chronometer escapement was invented about 1780 by Le Roy, for the Marine timekeepers to keep Greenwich time for the purpose of obtaining the longitude at sea.

The harbor of Shanghai is one of the cleanest in the world. With no flotsam, broken bottles or dead cats lying about. All these things are valuable and they are collected by the salvage boats which ply about the harbor.

The crew of these salvage boats consists of the skipper, who is also the owner, his wife and such children as are too young to be employed ashore. The whole crew are devoted to the rescue of wrecks and litter from the sea. So thoroughly do they do their work that no sea-gulls may be seen in Shanghai. They would starve to death in the international city.

It is customary in the British and American navies to delay cleaning the galleys for a few days before arriving in Shanghai. All this stuff provides a rich harvest for the salvage boats and they swarm around the big liners just as the Arab pirates of the Barbary Coast came around the clipper ships a century ago.

Nothing in the way of bottles, bones and rags escapes them, for everything in China has some intrinsic value and can be turned into cash.

"Only two classes of men never change: The wisest of the wise and the dullest of the dull." Servants are the most difficult

THE ROOTS OF TRUE ALLEGIANCE

A story went the rounds some years ago that King Edward VII was once asked this question: "What would you do if Britain should proclaim herself a republic?" "I'd be the first president," was the King's reply.

Whether there was any basis of fact for the story or not, the principle it illustrates is profoundly true—our monarchs rule by the will of the people. Our government is a "government of the people, by the people and for the people."

According to our British ideal the throne is never unoccupied: the moment that King George VI died, the heiress to the throne became Queen. As the one passed out the other entered. And yet Elizabeth II did not assume the authority that goes with her high position until she was proclaimed Queen by representatives of her people according to the laws of the realm. She governs this vast and varied Commonwealth of nations, not only by the consent, but by the glad acclaim of her subjects. No other aspirant to the throne would be considered for an instant.

We have been talking grandly about our loyalty and allegiance to our King in the past and to the Queen now. There is in the hearts of the British the world over a tradition of loyalty to the throne and to the King as King. An excellent example of this is found in Shakespeare's description of the attitude of the Duke of York in his tragedy, King Richard II. The aged Duke, the last of his family condemned roundly the policy of the young King and his treatment of his subjects.

Yet when Bolingbroke returned from exile with armies strong enough to dethrone Richard, York accused him to his face of "gross rebellion and detested treason." He admitted the wrongs that Bolingbroke had suffered at the King's hands and had "labored all he could to do him right," but this effort "to find out right with wrong" was nonetheless worthy of condemnation. Nevertheless, when Richard had been overthrown and Bolingbroke had become King in fact, York denounced as strongly a plot to kill him, and actually raised his own son before the King as guilty of a crime worthy of death for taking part in such a plot.

This is the traditional loyalty to the throne as an institution, and, in spite of many exceptions to the rule, has been one of the foundation stones of our stability.

Lately, however, another factor has entered British life, not new, but increasing in its intensity and influence—namely, the warm personal attachment of our people to our reigning sovereigns. King George V contributed much to this by the way he led his people

through World War I and by the personal virtues of the King and Queen in their family and public life. King George VI and Queen Elizabeth added more fuel to this fire by their personal charm displayed in their visits to the different countries of the Commonwealth, by the way they shared their people's sufferings during the war, by their courage and sympathy and devotion to duty no matter what the cost. Now this personal affection, added to our loyalty, is being given in full measure to Elizabeth II and her husband, and we know that it will deepen with the years. Our love is founded on respect, enriched by memories of the past, and full of promise for the future.

This ideal of "Government by consent of the Governed" goes right back to the roots of our religion in the example of Christ Himself. The more closely we study the story of Jesus' triumphal entry into Jerusalem, the stronger grows our conviction that Jesus thereby offered Himself to His people as King of Peace.

He had rejected the popular ideal of kingship in His temptations because of the conditions on which it was offered—regal authority based on force. But the prophet Zechariah had foretold a King coming to His people riding on an ass then the symbol of peace (Zechariah 9:9-10), and Jesus came in fulfillment of that prophecy. But His people were then dreaming of a Messiah who would overthrow their oppressors and establish in Jerusalem a throne by military and supernatural might, from which He would rule the nations.

They, therefore, rejected the King of Peace. The Son of God, all-powerful in the fulfilment of His Father's will, would not compel allegiance. He would rule only by the free consent of His people. When they refused it, He went to the Cross.

To Jesus this was the only principle consistent with the value He set on persons, whose rights as free beings even the Creator would not deny.

Today with a new resurgence of rule by violence, Christ's law of His kingdom is more in point than ever. This law applies also to our personal relationships with God in Christ. As Saviour and Lord, Christ is offered to us still. When He comes to us individually He comes to reign. But His authority over our lives is exercised on condition of our personal surrender and trust. His word to unbelievers is the same as of old: "Ye will not come unto me that ye may have life."

PIONEER SERVICE

A regular twice-daily mail and passenger service operated between Amsterdam and the Hague as early as 1669.
