EPWORTH LEAGUE.—It is said that the Epworth League connected with the Methodist church in Canada numbers nearly 2,000, with \$3,000 members.

PRINCE OF WALES COLLEGE.—The following was received too late for insertion in the prize list:
School management—Leslie McDuff, M. McGee, Alice Wynne, Lulu Robertson.

FROST CAUSES DAMAGE.—Recent heavy frosts have done a great deal of damage to fruit and vegetation throughout some of the most fertile districts of England. The result will be that other countries will have to be drawn on by the English fruit dealers.

A NEW SWED.—Carter's Heavy Cropping Purple To, twenty per cent heavier cropper than Haszard's Improved. For sale at Carter's Seed Store and by merchants throughout P. E. Island. See description in Carter's Seed Catalogue.

FARMS WANTED.—Farmers having good pasture farms to sell should write T. M. Kirkwood, Sudbury, Ont., who wants to purchase about 1000 acres, either in one block or in two or three farms close together.

CHILD FATALLY SCALDED.—The one year old child of Nat Mahoney, New Glasgow, N. S., was put in a high chair along side of the stove last Saturday morning to get warm. While the mother's back was turned for a minute, the little one managed to pull over her a boiling pot of porridge, causing intense suffering. The infant died next morning.

IRISH KICKERS.—Arrangements are well under way for the visit to Canada in the fall of the Irish Rugby football team, which will include half of the players who last year defeated Scotland, England, and Wales for the International championship. It is expected that they will arrive about the third week in September and play about twelve games during the tour, which will take in most of the leading cities of the country.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of women's weakness and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favorite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth and insures the health of both mother and child.

ESTEEMED EXCHANGES.

The Farmer: Do not forget that the keynote to economical pork production is in pasturage for the pigs or forage crops. An acre devoted to pasture for the hogs is likely to return you a larger profit than the same acre in wheat would do, and it will do the land good at the same time.

HIS OWN FREE WILL.

DEAR SIR,—I cannot speak too strongly of the excellence of MINOR'S LINIMENT. It is THE remedy in my household for burns, sprains, etc., and we would not be without it.

It is truly a wonderful medicine.

OBITUARY.

Cornelius J. McIntyre, of French Village, died on Tuesday, 16th inst. in the seventy-fifth year of his age. Though he had been ill for some months there was still hope for his recovery, and only a few days previous to his death was it felt that his earthly career was near its close. To his many friends and acquaintances it was sad intelligence, but how much sadder to his bereaved wife and family who ever found in him a model husband and father. To comfort the afflicted, to help the needy and in every way to make life's pathway brighter was his aim in life, and as his earthly reward he died without leaving an enemy; and for such we may hope there is rest in the life beyond. His last hours were hours of peace, and having received the last rites of his holy church he died as the devoted Christian who trusts in the mercy of Him whose precepts he has followed. His funeral, which was exceptionally large, was attended by all classes and creeds, which gave ample proof of the esteem in which he was held. His remains were conveyed to St. Andrew's Church, where a Requiem Mass was sung by the pastor, Rev. James McDonald, while the choir was assisted by Rev. A. J. McDonald, of Fort Augustus, and after the last funeral rites, were laid to rest in their last resting place.

The healthy man is pretty sure to be a favorite with the ladies. The sick man isn't. His complexion is sallow, his eyes are dull, his skin is blotched or pimply, his breath is unpleasant and he is mentally and physically sluggish. These conditions are due to disorders of the digestion or torpidity of the liver. These cause impurity of the blood, and one cannot continually pump impure blood into every organ of the body without making those organs sick. Pump impure blood into the brain and there is soon a sick brain. It will show in headaches, dizziness, drowsiness, dull eyes, frightful dreams and loss of sleep. Pump bad blood into the lungs and the result is consumption, bronchitis, asthma, weak lungs, spitting of blood or throat or nasal troubles. Feed the nerves and brain cells upon the poisons of an impure blood and the consequence is nervous exhaustion and nervous prostration. Dr. Pierce's Golden Medical Discovery cures these diseases and cures the conditions that cause them. It restores the appetite, makes digestion and assimilation perfect, the liver active, the blood pure and the nerves steady. It is the great blood-maker and flesh-builder. It cures 98 per cent. of all cases of consumption. It is the best remedy for blood and skin diseases. Druggists sell it.

Wm. Smothers, Esq. of Millston, Jackson Co., Wis., writes: "I wish to say that Dr. Pierce's Golden Medical Discovery is the best medicine for the Grip that I have ever tried. I was cured twice with it when I could not get any other relief."

"A stitch in time saves nine." Doctor Pierce's Common Sense Medical Adviser tells the mother how to take one little home-stitch that saves nine costly visits from the doctor. For a paper-covered copy send 31 one-cent stamps, to cover cost of contents and mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y. Cloth binding, 50 stamps.

Doctors now agree that consumption is curable. Three things, if taken together, will cure nearly every case in the first stages; the majority of cases more advanced; and a few of those far advanced.
The first is, fresh air; the second, proper food; the third, Scott's Emulsion of cod-liver oil with hypophosphites.
To be cured, you must not lose in weight, and, if thin, you must gain. Nothing equals Scott's Emulsion to keep you in good flesh.
