Aircraft Return To Summerside Base

The two Lancaster, R. C. A. F. aircraft, the Northern Cross and the Zenith, which left Summerside Airport two weeks ago, arrived back at their home base yesterday morning at 10:37 after a non stop flight from Fort Worth, Texas, a flight which took eight hours.

The flight, which was under command of Wing Commander H. A. Forbes, D.F.C., was planned for the purpose of gaining experience in every department of the field of air navigation.

The two planes made an extensive tour of United States bases since leaving Summerside. Although the actual flight proved uneventful it was reported to be most productive in the exchange of new ideas and in experience gained by the crew.

Weather conditions throughout were good and their receptions at the various American bases were of outstanding hospitality.

Two more long distance trips are scheduled for the two aircraft, one to the United Kingdom about March 3rd and a trip to the Arctic Circle around the first week in April.

The following is the schedule for mixed curling at the Summerside Rink for this evening.

Acadia— A New Spring Wheat For Eastern Canada

OTTAWA, Feb. 8—In the past six years there has been an increase of over 20 per cent in the spring wheat acreage in Eastern Canada. This may be attributed at least in part to the high cost of feed grains making wheat growing slightly more attractive, and also to the introduction of better disease resistant varieties, such as Coronation, Regent and Cascade. The latter variety was licensed in 1947 and met with a good reception by many growers.

The Cereal Division, Central Experimental Farm, Ottawa, announced that another hard red spring wheat, called "Acadia", and suitable for Eastern Canada, has been licensed. This variety is a high yielding, bearded wheat which was developed from a selection made at the Experimental Farm, Indian Head, Sask., from an Ottawa hybrid sent there in 1937.

Acadia has been tested in Eastern Canada for the past ten years, and during that time has been a consistently high yielder, having a better than 2-bushel yield over its nearest competitors. Huron and Coronation II. Acadia has a strong straw and is mid-season in maturity, being about 2 days earlier than Coronation and Cascade. In the field it presents a pleasing appearance with its good uniformly good colour, and ample tillering ability. It has a favourable disease reaction, being resistant to bunt and black chaff; moderately resistant to stem and leaf rust; semi-resistant to loose smut, and has also shown good resistance to some of the forms of root rot generally found in the east.

It should be borne in mind that this new variety is only intended for use in Eastern Canada, as it is not equal to Marquis in quality, being slightly lower in protein and loaf volume. It is mainly intended for use as a feed wheat but can be used satisfactorily for milling into flour and baking into bread when the need arises.

Seed of Acadia is being increased on most of the eastern Experimental Farms and Stations this year and ample seed should be available for a general distribution to eastern farmers in 1953. It is expected that Acadia will be distributed, as far as seed permits, in two bushel lots.

Those interested in securing seed should write to the Superintendent at their nearest Experimental Farm or Station in their own Province to have their names listed to purchase seed when available. The orders will be filled in order of application. The price has not been set but will be reasonable. There will be no seed available for general distribution this year, and remember this is an eastern variety and is not recommended for Western Canada.

Let's Talk It Over

Strangely enough, in the first winter in which the town of Summerside is without a covered rink, more hockey is being played by the youth of the town than for some years. There is scarcely a night that a bus or a fleet of cars does not have the town's hockey team to play hockey in some outside arena and nearly always there is a group of young people accompanying the teams to cheer them on to victory.

The young people are having a wonderful time, but there may be a sad aftermath to all these excursions into the rural areas. It is difficult to believe that school lessons are not being seriously neglected by many of those hockey enthusiasts. If the town's hockey team is confined to Friday and Saturday nights, it would be ideal, but apparently little is being done to keep the excursions restricted to those evenings.

One cannot help but notice that "devotion to duty" rings through all the encomiums heaped on our late king, George VI, like the refrain of a song. The deceased king's greatness lay in his unflinching devotion to one of the most difficult roles that life can thrust on man, more than in any of his other good qualities, and he had many. Men have been called "great" for heroism in battle, for being the "man of the hour" at a vital cross-roads of history, for all kinds of spectacular action on the colorful stage of the universe, but greatness is perhaps better exemplified in the man who, humbly and prayerfully, bears his hard burden with dignity and honor. "Devotion to duty" if practised as faithfully by everyone as it had been by our late sovereign, would probably make our world a far better place to live in.

At Montreal, the wholesale price of sirloin steak Friday was 85 cents, 10 cents less than a month ago. Consumers paid 95 cents, a drop of 15 cents in 95 weeks.

Wholesalers and retailers in Montreal claimed the drop was caused by fewer meat exports to the United States.

A weaker U.S. market also was cited in Winnipeg as one reason for the price drop. Exporters were said to want to get the Canadian price down so they could export to the U.S. Prices south of the border now are lower than in Canada and for the first time in 25 years, American beef is coming into the country.

There's an excellent outlook for tourist travel to the Maritimes this summer," J. S. McDonald, Montreal, general passenger agent Canadian National Railways, said here last night.

Mr. McDonald accompanied by C. D. James, assistant to director of colonization and agriculture, C. N. R., Montreal will observe the transfer of 1,100 immigrants arriving from overseas in the S.S. Anna Salen tomorrow to three C. N. R. trains at dockside.

Present prospects for tourist travel to the Maritime Provinces this summer appear to be exceptionally good, Mr. McDonald said, and quite rightly so because they offered "exceptional facilities and appeal to assist United States and Canadian holiday seekers."

Indications are also bright for the reception of new Canadians through the Maritime ports," he said. "This year we are planning to arrange the transportation of as many more immigrants as we handled in 1951."

Also in Halifax are Arthur P. Lait and F. N. McKenzie, passenger traffic managers for the C.N.R. system, Montreal, on their first official inspection visit to the Maritimes since their recent appointment.

Minutes of last meeting were read, approved and signed by the motion picture. Roll was answered with a verse of Scripture, first word beginning with the letter "A."

Correspondence was read, consisting of a letter from Miss Elma Inman regarding used schoolbooks up to Grade III, and used Sunday School material, and two thank-you notes. A letter was also read from Mrs. Frank Cutcliffe regarding Presbyterial. Bills were presented and on motion passed.

Sick committee reported having given fruit to two people in the community. It was moved, seconded and carried to pay \$4.00 to help with treat for children at Christmas. Two members paid their fees. Reports were given by the treasurers and Mrs. George Dunning kindly invited members to her home for next meeting when the lunch committee will be Miss Gladys Burrows, Mrs. Percy Howatt and Mrs. George Dunning. Mrs. Stafford Coles has charge of the worship period and Miss Helen Wall is to be the leader for the Study Book.

Roll call is to be answered with a verse of Scripture, the first letter of the first word to be "B". Mrs. George Dunning was appointed to attend Presbyterial in Charlottetown.

Meeting closed by repeating the Mizpah Benediction and lunch was served by the hostess, assisted by committee in charge.

SPRINGFIELD, Colo. (AP) - The mother of a soldier killed in Korea has sent to President Truman a Purple Heart medal awarded her son posthumously. Mrs. Edith Rosengrant said her son, Pte. Dock Rosengrant, was killed last August 10 near Sinchon. "I wish every parent of every boy killed over there would do the same," Mrs. Rosengrant said. "We should flood Washington with these medals until we get as brave men there as are being killed in Korea."

N. Bedeque Farmers Annual Meeting

The North Bedeque Farmers Institute held their annual meeting in the North Bedeque hall on Wednesday evening, Feb. 6th. It was well attended. The president Reuben Large presided, and in opening the meeting with a brief address, asked all to rise for two minutes silence in memory of the departed King.

The secretary and sales manager, Horace Huestis, gave a report of the year's business which amounted to \$33,000.00, showing a small profit, which was added to the capital account of the Institute.

The auditors, Messrs. T. J. Inman and Arnold Henderson each gave a brief review of the work accomplished during the year. The Institute, said, complimented the secretary-manager on having his books in splendid shape.

Messrs. Frank Jardine and Edwin Lord, who were the delegates to the Central Farmers Institute meeting in Charlottetown, each gave a very comprehensive report of the central meeting, followed by a general discussion.

Election of directors resulted as follows: Reuben Large, Frank Jardine, Horace Huestis, Edwin Lord, James Marchbank, George Hogg, Wilbur Stavert, Walter L. Hogg, Lloyd Waugh; auditors: T. J. Inman and J. Arnot Henderson.

Reports Increase In Life Insurance WATERLOO, Ont., Feb. 8—New life insurance exceeding \$133,000,000 was purchased by Canadians from the Mutual Life of Canada in 1951 it was reported at the 82nd annual meeting of policyholders held here yesterday. This is the largest amount ever recorded in one year. Included is \$13,000,000 new Group Life insurance.

Addresses were delivered by the President, L. L. Lang, and the General Manager, A. E. Pequegnat. Nineteen fifty-one was described as "the most uniformly satisfactory year in the Company's history."

Life insurance in force in the Company rose by over \$100,000,000 to a total of \$1,238,542,113. The Mutual Life of Canada has closed every year of business since it was founded in 1869 with an increase in insurance in force. A substantial increase in the number of individual policies issued in 1951 over the previous year was also reported.

The average rate earned on total invested assets was 4.05 per cent, an increase of .08 per cent for the year and 25 per cent for the past three years.

Mortgage and sale agreements now represent 22 per cent of the total assets. There was an increase of \$12,150,000 in this type of investment in the past year. Bonds increased by five million dollars, chiefly public utility and industrial securities.

Surplus earnings of \$6,306,839 allowed the Company to maintain its liberal dividend scale. The earnings exceeded those for the previous year by \$12,500.

Discussing the national scene Mr. Lang pointed out that there are encouraging employment prospects—at the end of the third quarter of 1951 there were 5,943,000 Canadians gainfully employed, an all time record.

Mr. Pequegnat stressed the value of permanent insurance, as compared with term insurance, particularly as related to the providing of personal security for later years. He pointed out that at age 25 the chance of survival to age 65, based on a modern mortality table, is 71 per cent, at age 35 the chance is 73 per cent, and at age 45 it is 75 per cent.

He revealed that Canada leads the world in the ratio of owner-

PARIS, Feb. 8.—(AP) —Canadian delegate Jean Lesage Wednesday chided fellow delegates on the 80-country social committee of the United Nations after a day-long wrangle over a resolution on human rights.

After the resolution was approved, 38 to 5, the Soviet bloc dissenting, Lesage, Liberal member of parliament for Montmagny-L'Islet, Que., quoted the following from the diary of Samuel Pepys 1668-69: "But Lord! What a tumultuous thing this committee is, for all the reputation they have of a great council, there being as impertinent questions and disorderly proposals, as any old man could make, behaving themselves like most insolent and ill-mannered men."

Mindful that the committee has been arguing for three months in the Palais de Chaillot, Lesage read this quotation from a letter from King Charles II to his sister in 1660: "Tell me, I beg of you, how you spend your time, for if you stayed long at Chaillot in this miserable weather, you must have been not a little bored."

The committee laughed—and went ahead with its word battles.

Mt. Pleasant Bombers Defeat S'side 7-3

The Mount Pleasant Bombers defeated the Summerside Muskies at the Mount Pleasant Arena last night by the score of 7 to 3. Sandy MacCaull was the mainstay of the Bombers scoring three goals and assisting in others. Joe Perry in the Summerside nets was nothing short of sensational and but for his stellar net minding the game would have been much more lopsided. Leroy Clow, Reg. Phillips and Ronald McCarthy scored the goals for the Summerside boys. Tiddy Phillips was referee.
