**CORRECT.**—A day or two ago a man in Moncton was fined \$19 and costs for selling cigarettes to juniors.

**DRIER THAN HERE.**—The mill-owners of the districts near Quebec are anxious for a few heavy showers to raise the water for their mills. At Etchemin a number of men are out of work on account of the lowness of the streams.

**VISITING WARSHIPS.**—The warships Talbot and Pallas will accompany the battleship Renown from Halifax to Quebec, leaving Halifax on September 18. The Renown, it is announced, will not go to Montreal.

**CANADA'S EXHIBIT.**—In the International hall at the Trags-Mississippi Exposition, the largest exhibit is that of the Dominion of Canada. It occupies 5,000 ft. of floor space and 6,000 feet of wall space, covered with the best the country can produce. It is an agricultural, mineral, forestry, and dairy exhibit combined.

**AN OLD AND WELL TRIED REMEDY.**—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind, colic, and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

**DULL TIMES ADVERTISING.**—In dull times the progressive business man arranges his counters more attractively, piles his goods higher than usual, decorates his windows, burns more gas, brushes up everything, puts a new coat of paint on the outside and a smile on the inside, diffuses his enthusiasm in every clerk, advertises more extensively, and gets the bulk of the trade, says Business. Dull times advertising is educational, and is of the successful sort of preliminary announcement which is sure to win, perhaps in the present, but surely in the future. In dull times everybody is looking for the man who is doing well, for his action is cheering, and people become receptive to his arguments, giving him the preference and buying of him.

**POLITICAL MEETINGS.**—Having accepted the nomination of a large and influential representation, at the convention at Bradalbane, to contest the First District of Queen's Co. in the coming election, which takes place on August 31st., Mr. Wm. Campbell, will meet the electors of said District at the following times and places: Wednesday, August 24th, at Bonshaw; Thursday, August 25th, at Crapaud; Friday, August 26th, at Hope River and Bradalbane; Saturday, August 27th, at Clifton; Monday, August 29th, at Emyvale and Irishtown Hall; Tuesday, August 30th, Granville and Kelly's Cross. All meetings will begin at 7 o'clock p.m. Prominent Conservative speakers will be present at those meetings at which Mr. Campbell cannot attend. The Liberal candidate and other Liberals are invited to attend.

Every household should have on hand a box of Dr. Chase's Ointment. The diversity of uses to which it can be put and the many doctor's bills it saves, warrant it in taking first place in the family medicine chest. All dealers sell and recommend it.

**THE PROVISION MARKET.**

Local Trade Quiet and Steady—Changes at Chicago and Liverpool.

The Montreal provision market rules firm, with no new developments to note. The demand for bacon and hams continues good and stocks all around are light. We quote: Canadian pork, in barrels, \$16 to \$16.50; pure Canadian lard, in pails, 8c to 8 1/2c per pound, and compound refined, 5 1/2c. Hams, 11c to 12c, and bacon, 11 1/2c to 12c per pound.

Provisions at Chicago were moderately steady. At the close, however, pork scored a sharp advance on the opening, but lard and short ribs, closed weak. The closing prices were: Pork; \$8.95 September and \$8.85 October; lard, \$5.00 bid September, \$5.05 October; and short ribs, \$5.05 September, and \$5.05 October.

At Liverpool bacon ruled steady, but lard was 3d down, the closing prices being pork, 51s 3d; lard 26s 6d; tallow, 19s 6d; bacon, heavy, 30s; light, 29s 6d; cheese, white, 37s 6d; colored, 38s.

**SEPTEMBER MAGAZINES.**

**HARPERS.**

In the September Harper's there are a number of timely articles on various aspects of the war, and its results. Worthington C. Ford, the late Chief of the Bureau of Statistics at Washington, writes on "The New Fiscal Policy of the United States"; James Bryce, author of "The American Commonwealth," writes on the "Future Policy of the United States, from an English Point of view"; and Albert Bushnell Hart, Professor of History at Harvard University, gives an interesting historical summary of the previous military expeditions of the United States.

Why is it that one man is old and decrepid at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he loosing weight and that his ordinary work gives him undue fatigue, he needs Dr. Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his impure—he keeps nerves and his body under a constant strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so called diseases because nearly all illness springs from the same thing, bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

**Australian Fever Cure.**

"What's that fired grave for?" asked the recruit.

"Fella all sick; weather bad and budgery no good down 'bout Womba. Plenty rain one time, fella catch cold; plenty fever this time; by'm by fetch 'im longa that place," explained Warrigul, as a litter emerged from a wurley of the camp, and the sick man was borne to the curious grave. The doctor walked in the rear.

Thrusting his hand into the long ditch, to test its warmth, the doctor signaled to lower the patient into it. He was then covered from neck to foot, feet and all. His head alone rested above the dirt. Sergeant Dalton explained:

"The blacks put fever patients in the ground like that and steam the fever out. They say the earth will draw off the evil spirit, and then fill him with life."

"Electric currents, by Jove!"  
The next day the late patient was bobbing around like a 3-year-old.—Outing.

By a simple rule the length of the day and night, any time of the year, may be ascertained by simply doubling the time of the sun's rising, which will give the length of the night, and doubling the time of setting will give the length of the day.
