Medical Plan For Alberta Is Forecast

EDMONTON (CP)—Legislation which will enable Alberta to introduce a voluntary, prepaid medical services program was forecast Thursday in the speech from the throne.

The speech, read by Lieutenant-Governor J. Percy Page at the opening of the fifth session of Alberta's 14th legislature, said the enabling legislation will be introduced by way of amendments of the treatment services act.

Amendments to the statute "will enable my government to introduce a program of medical services, to be financed by the medical profession, to develop and implement a program of voluntary prepaid medical services," the speech said.

The program would be designed to bring the costs of such services within the reach of those "with limited financial resources, while at the same time preserving the doctor-patient relationship necessary for the high standard of medical services."

The speech gave a bare outline of the program. Premier E. C. Manning's Social Credit government will place before the session.
