MESMERISM.—"Do you believe in mesmerism?" we asked of Mrs. Partington, as she dropped alongside of us yesterday morning, like a jolly old seventy four.

"Believe what?" said she, sitting down in the other chair.

The question involved an answer from us of some fifteen minutes length, running through the whole of mesmerism, clairvoyance, and psychological phenomena, like a knitting-needle running through a ball of yarn.

"O, yes," said she, "I believe all of that, and I know a case in point, to prove it. When Miss Jeems had her silver-plated spoons extracted,—that was her mother's afore her, and she got a sight by 'em,—she comes away to Boston to see a miserly miser.—I believe you call it. Well, he told her just what her spoons was, and who stole 'em, and all about it, and the color of his hair, and all that. Well, she gin him a dollar, and when she got home she went right where the spoons was, and couldn't find a thing about 'em. No, no, that isn't the story, nuther; 'tis about Sally Sprague and her beau. You see?"

At this instant the door opened, and company came in, and Mrs. Partington, pleading an excuse that she wanted to tend one of the "adversary meetings," subsided, like a wave upon the shore.

A story is told of a soldier who, about one hundred and fifty years ago, was frozen in Siberia. The last expression he made was, "It is ex—." He then froze as stiff as marble. In the summer of 1860 some French physicians found him, after having lain frozen for one hundred and fifty years. They gradually thawed him, and upon animation being restored, he concluded his sentence with "ceedingly cold."

An Arabian having brought a blush to a maiden's cheek by the earnestness of his gaze, said to her "My looks have planted roses in your cheeks; why forbid me to gather them? The law permits him who sows to reap a harvest."

OUR CLERK'S BABY.—We have had a clerk who got married. Now, there is nothing strange in that. His wife had a baby—and there's where the funny part comes in. He was in the office yesterday, and wished us to publish, for the benefit of mourners and inquiring friends the following biog. of the chap. Says he, "We have had so many kind friends asking about that baby, that we have thought it necessary to biograph the chap briefly, and somewhat after the current style of the day.

It's a boy. He's a 'buster.' Weighs nine pounds and a quarter, and wife tells us it will grow heavier as his weight increases.

He's the first baby of which we have ever been proprietor, and of course he's the only baby in town.

The old woman before mentioned declared him 'the very image of his pa'— "A little copy of his faithful sire, in face and gesture."

But in justice to the youth we must say, we think him an improvement on the original—a world of progress, you know. This Young American is as old as could be expected, considering the time he was born, and will doubtless be too old for his father in a few years, if he has good luck.

He is quite reticent on politics, and only wants to be let alone.

We think he favors Mrs. Winslow's policy.

We haven't named it yet. We want to give him a distinguished cognomen, but the fame of our great men is at present so precarious that we don't like the risk.

It is perhaps unnecessary to say, as all biographers do of distinguished personages, 'the subject of this sketch' was born at a very early age, of poor but honest parents."

A young lady who was rebuked by her mother for kissing her intended, justified herself by quoting the passage "Whatsoever you would that men should do unto you, do you even so unto them."

What military command expresses the title of John Bright & Co.? Re-form company. WASTE OF TIME.—"Our lives are spent either in doing nothing at all, or in doing nothing to the purpose, or in doing nothing that we ought to do. We are always complaining our days are few, and acting as though there would be no end of them.—Seneca.

"TAKE THE PAPERS."—N. P. Willis winds up a poem, under this title, with the lines:—"For he who takes the paper, And pays his bills when due, Can live in peace with God and man And with the printer too."

Courage to think is infinitely more rare than courage to act.

Life is a dream of time from which it awakens to the realities of eternity.

Let us not adversity destroy the wings of hope, nor prosperity the light of prudence.

To women the active exercise of kindness can give a charm and an interest to the last portion of their life.

"Don't lay in that postur, dear," said Mrs. Partington to Ike, who was stretched upon a settle, with his heels a foot or two higher than his head. "Don't lay so; raise yourself up, and put this pillow under you. I knew a young man once who had a suggestion of the brain in consequence of laying so—his brains all run down into his head!" and with this admonition she left him, to practice soon after, the hazardous experiment of tying his legs in a bow knot round his neck, as he had seen Professor Baldwin do.

How to Judge the Character of a Horse by Outward Appearances.

I offer the following suggestions, the result of my close observation and long experience. If the color be light-sorrel or chestnut, his feet, legs and face white,—these are marks of kindness. If he is broad and full between the eyes, he may be depended on as a horse of good sense, and capable of being trained to anything; as respects such horses, the more kindly you treat them the better you will be treated in return. Nor will a horse of this description stand a whip if well fed. If you want a safe horse, avoid one that is dish faced. He may be so far gentle as not to scare, but he will have too much go-ahead in him to be safe with everybody. If you want a fool, but a horse of great bottom, get a deep bay with not a white hair about him. If his face is a little dishd so much the worse. Let no man ride such a horse that is not an expert rider; they are always tricky and unsafe. If you want one that will never give out, never buy a large overgrown one. A black horse cannot stand heat, nor a white one cold. If you want a gentle horse, get one with more or less white about the head, the more the better. Selections thus made are of great docility and gentleness.

CHAS. L. TREYER.

HINTS TO HORSE KEEPERS.—Never feed grain or give water to a horse when warm from exercise. Sweat is not always a sign of warmth; place the hand on the chest for a test. Water given after a meal is safer than to give it before.

Never drive fast or draw them hard immediately after giving food and drink.

Never drive faster than a walk with heavy loads.

Do not let horses stand long in the stable at any time of the year, without exercising.

Feed regularly, and in quantity according to the appetite of the animal and the labor it performs.

Do not drive or work long in storms.

Do not let the horses stand in the stable, cased in boots of dried mud, and coats of matted hair. Groom them.

At all times of the year make your horses comfortable when tied in the stable. They cannot help themselves there.

Teach your horses to trust and have confidence in you rather than fear.

MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her SOOTHING SYRUP, FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and Relief and Health to your Infants.

We have put up and sold this article for over thirty years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical value. We speak in this manner "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never failing success in thousands of cases. It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and safest remedy in the world, in all cases of Dysentery and Diarrhoea in Children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let any of your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None Genuine unless the face-smile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal office, No. 48 Dey Street, N. Y. Price, only 35 Cents per Bottle.

New Triumphs of Rogers' Medicines. Run your eye over them and tell your afflicted neighbour about it.

AMHERST, N.S., August 7th, 1866. MESSRS. ROGERS & Co.—

Gentlemen—Permit me to add my testimony to the great value of your preparation; and any person reading the following account of a cure effected by it upon my son, will not dispute my right to do so.

He first fell upon a fork handle in the barn, and hurt his leg a little below the knee; he subsequently took cold, when it began to swell and pain him very much. It soon ulcerated near where it was hurt, and continued to discharge freely, until the calf of the leg seemed to be one mass of corruption. His foot and knee swelled very much, and when we consulted with our medicine, was very much inflamed, and it was evident on the eye of mortification. The pain and suffering he endured, no pen can describe. He grew weaker daily. Nothing that medical skill and faithful attendance could accomplish, was omitted; still he gradually sunk, until there seemed but little hope of saving either his life or limb. As a last effort, the doctors decided to amputate the leg. This was to have been done the next day, but just at this critical point, a kind friend advised me to try your medicine. I concluded to do so; and the leg at once began to improve, and is now well. He goes to school daily.

This is, certainly, the most extraordinary cure ever made in this country. No person could duly appreciate the sad and suffering condition he was in, without seeing for themselves; to all human appearance he could not have lived a week; there did not seem to be a ray of hope left. Doubtless there are thousands dying whose lives might be spared, if they had this extraordinary medicine.

Hoping that God may prosper you in your work of humanity, I am, Gentlemen, yours affectionately, ALISON COPELAND.

We, the undersigned, inhabitants of Amherst and vicinity—some of us having been eye witnesses to the above distressing case, and all being quite familiar with the facts, from common report in this community—have no hesitation in endorsing the above statements of Mr. Copeland.

R. McLEAN, High Sheriff. THOS. LOGAN, J. P., late M. P. P. R. B. HURSTIE, Clerk of Peace. J. T. SMITH, Barrister-at-Law. W. F. CUTTEN, J. P. FRED. W. BENT, Barrister-at-Law. T. DUNLAP & Co., Merchants. ROBERT KEILOR, Farmer. ALEX. ROBB, Jr., Dealer in Stoves.

We have taken the liberty of adding their official and business position to the above names. Some of our agents write us that members of the Medical Faculty are among the largest purchasers of our medicines. We are glad they appreciate their healing qualities, and have used them successfully in treating their patients.

ROGERS &
