# Strong Recommendation For Water Fluoridation

A strong recommendation for the fluoridation of water, the urgent necessity of increasing the ranks of dental students, and a plea for more thorough study of any scheme of national health insurance, featured the addresses of national executive members who spoke at a general meeting of the Prince Edward Island Dental Society Tuesday night.

"Fluoridation of water is one of the brightest spots on the horizon which we are assured will reduce the need for dental service in the future," said Dr. Gerald Racey, Montreal, president of the Canadian Dental Association.

Adjustment of the fluoride content of drinking water in the ratio of one part of fluorine to one million parts of water was "quite safe, free from any ill effects and has shown dramatic results in reducing dental caries by approximately 65 per cent," Dr. Racey said.

**MORE PERSONNEL**

Stressing the need for more and better equipped schools of dentistry, Dr. Racey pointed out that the ratio of dentist to patient at present was very unfavorable — approximately one to three thousand.

With this need of additional recruits, the national secretary, Dr. Don W. Gullett, Toronto, agreed, pointing out to the members of the local society the ever-widening horizons of the dental profession.

"Today positions for dental graduates remain unfilled because of the lack of qualified personnel," he said.

**HEALTH INSURANCE**

In speaking of health insurance Dr. Gullett said that the present trend indicated that a full-scale health insurance program is in the making for Canada. He advised that all dental associations should prepare for its advent.

He warned that there are certain certain dangers in the plans. They can breed conformity and stagnation which degrades services; they can divide authority and cause establishment of huge administrative staffs which become a financial burden on the scheme. And they can change the nature of professional associations into service-improvement bodies to negotiating bodies.

The meeting was presided over by the Provincial Dental Association President, Dr. J. A. Doiron, of Summerside.

# AMONG THE FARMERS

**Federation of Agriculture Newsletter**

**COUNTY MEETINGS**

Announcement will be made in the press of the three county annual meetings of the Federation to be held in Baptist Church Hall Summerside, Tuesday, December 10, Montague High School Auditorium, Wednesday, December 11, Birch Cout, Experimental Farm, Charlottetown, Thursday, December 12, all meetings at 8.00 p.m. Highlighting the program will be discussion on a resolution to name a committee whose responsibility will be to plan jointly with other counties the effective organization of the potato industry at the producer level. The provincial board of directors of the Federation is not at the moment suggesting any plan of action with respect to potato organization but is interested in giving potato growers the opportunity of making recommendations with respect to a situation which is something less than ideal. The Federation sees the necessity in the interest of the potato industry of a strong organization and is also concerned with the necessity of having in the Federation a group which will give voice to the problems and opinions of potato growers.

Directors and members are asked them acting in "a suspicious manner."

Arraigned in City Police Court the accused were remanded for one week without plea by Magistrate K.M. Martin. One of the two accused had been released from the Queen's County Jail only last Saturday after serving a sentence for the previous break at the same store.

Four other accused appearing on the docket were also remanded for one week on various charges. A young city man previously convicted of robbery with violence, appearing for sentence was further remanded at the request of the Crown.

An accused charged with mischief, damage to private property was also further remanded and released on a twenty dollar cash bail. This accused is charged with causing damage to the gasoline pumps of a local service station. The others remanded were a drunk and incapable and another facing a charge of drunk and disorderly.

# Pair Arrested In Ambrose St. Groceteria

City Police led by Deputy-Chief Sterns Webster arrested two persons in the Ambrose Street Groceteria between the hours of 1:30 and 2:00 a.m. yesterday morning.

This was the second time in a few months that this grocery, owned and operated by Fulton MacLeod, was victimized by thieves.

Entrance to the store premises was effected by breaking the glass in the front door, which enabled the intruders to release the lock.

Police said that the men arrested had been under surveillance since earlier the same night, when the officers on patrol had observ-

# Protest Bomb Carrying Planes

LONDON (Reuters) — Moscow Radio said Friday that American planes flying over Britain carrying hydrogen bombs are a "real threat" to the British people.

"Those bombs belong to American generals and politicians and can be dropped on the heads of the British by any American pilot who incorrectly interprets his orders," the radio said.

British Foreign Secretary Selwyn Lloyd defended the right of American airplanes to be fully armed and said this was a matter for the United States Strategic Air Command, the radio noted.

# QUEEN'S COUNTY LIBERAL ASSOCIATION ANNUAL MEETING

The annual meeting of the Queen's County Liberal Association will be held on Thursday, December 12, at 8 p.m. at the Canadian Legion Hall, Grafton Street, Charlottetown.

Each poll is requested to send five delegates. Premier A. W. Matheson and other prominent speakers will address the meeting. Everybody welcome.

W. R. MacNEILL,
President.

# THE RURAL COMMUNITY

On December 16 farm forum will deal with one of the most pressing problems facing rural people — the position of and future of the rural community. The forces acting on and the changes taking place in the farm community are of very real concern to all interested in rural society. Farm Forum Guide on the topic is done in fine style and contains a great deal of interesting information on the rural life.

**MEMBERSHIP**

One of the members of the 50 man trade mission now visiting Great Britain is Lloyd Jasper past-president of the Ontario Federation of Agriculture. During his term of office Mr. Jasper rendered valuable service to Ontario agriculture, he has now been succeeded by Mr. Gordon Greer, a well-known dairy farmer of Ottawa.

**BUTTER PRICE FORMULA**

Ontario Cream Producers at their recent annual meeting agreed that the floor price for butter should be established by a formula at the beginning of each dairy year — May 1. The formula suggested would have started of the 1957 year with a 60 cent floor and once in operation would take into account cost of production, the consumer's ability to pay, stocks in current year and the price of other milk products.

**ONTARIO FEDERATION**

At its recent annual meeting in Toronto on November 20 the Ontario Federation of Agriculture agreed among others on the following points.

1. Agriculture should receive the same protection against imports as is given Canadian industry.

2. Changes from standard to day-light time should be made by all municipalities on the same date.

3. The National Film Board should be asked to provide films which are pertinent to agriculture and rural conditions as they exist today.

4. The tariff on United States potatoes should be in all things the same as that paid on Canadian potatoes going into United States.

5. The Ontario government should do research work on how to preserve the freshness, attractiveness and food value of new potatoes.

**USE MACHINERY**

One-quarter of the farm forums which reported to the National Farm Forum office on the topic "A New Look in Farm Machinery", were satisfied with the machinery presently available to them. Thirteen per cent of the forums rent more moderately priced machinery. A wide variety of new types or changes in old types of machinery were suggested by the forums. One of the most common suggestion was for a combine and baler in one unit. Forty-one per cent of the forums want more standardization of machinery parts so that tires and such may be used on more than one machine. One-third of the forums thought that machinery should be of better quality and that repairs should be less expensive. Several groups suggested that there should be more testing of machinery done similar to the new set-up in Saskatchewan.
