

# If Your Feet Are Sore

You should examine the cause. Ladies often wear too light a sole. Try a heavier sole put on by the goodyear welt process, which means the same as hand made but lighter and more flexible.

We have a shoe made by J. & T. Bell, that will prove a cure-all for your tired feet.

**PRICE \$2.75**

for a goodyear welted oxford shoe, plain toe, kid tip.

## HOW THE GURKHAS FIGHT.

**They Punctuated Their Attacks on a Fortress With Football Games.**

Not two miles from Nil progress was again arrested—and this time for weeks—by the fortresses of Thol and Maium. These seemed impregnable, for where the slopes of the cliff were not inaccessible the defenders had turned the water course on the edge of them, so that they were quickly coated with ice.

In front of these strongholds the officers and Gurkhas played football every afternoon, the latter, who were very keen, kicking the ball without bending the knee. The Hunzas, however, objected to the game, and as soon as one commenced would open fire, which the players regarded not. So the Kanjutis started a game of polo on the maiden outside Thol, but the British fire was more effective, for the Gurkhas are capital marksmen, and the game was soon dropped. Finally a Dogra sepy named Nagdu discovered a gully which seemed possible and ascended this alone.

The following night, 50 Gurkhas and 50 Dogras of the imperial service troops under Lieutenant Manners-Smith, an expert cragsman, hid at the foot of the gully and remained shivering there for hours, until at early dawn the remainder of the force diverted the enemy's attention by a continuous fire.

Followed by his 50 Gurkhas, Manners-Smith commenced the perilous ascent, and behind them came Taylor and his Dogras, with the mortifying result that after two hours' climbing the gully was found to be blocked. Steps were retraced to where the gully forked, and there he again led upward in such manner that had one of the leaders missed his hold most of the party might have been swept away.

This time they were right, and the leaders were within 60 yards of the first sangar before being perceived. The alarm being given, the interchange of shots at once ceased, and all attention was directed to the daring climbers. Rocks and showers of stones were poured down, but the little band had passed the most exposed points, and only a few were destroyed. Calmly they swung themselves up from rock to rock until at length the plucky subaltern and a few of his men were seen to storm the first sangar, the defendants scattering after a short resistance.—Pall Mall Magazine.
