N. Y. Stocks

NEW YORK (AP) — A huge wave of selling burst over the stock market Tuesday just before the close and pounded prices down relentlessly. Losses were in the range of 1 to 6 points in just about every major division of the list.

The Associated Press average of 60 stocks fell $3.10. The average closed at $158.60, not too far away from the historic peak of $162.60 established last Friday. Volume was 3,160,000 shares.

Brokers had a variety of explanations for the sudden burst of selling, many leaned to the belief that the selloff was a natural dveelopment inasmuch as the market has been advancing steadily and attaining repeated high marks in recent days.

The "trigger" for the sudden rush to sell, these brokers contended, could be found in Washington. Whether the Washington events forced the selling or merely provided an excuse for selling was a moot point.

In any event, it was pointed out that the Senate banking committee under Senator J. William Fulbright (Dem.-Ark.) had asked the defence department for full information on companies heavily engaged in defence work. Stocks of these companies have been highly favored by buyers at steadily advancing prices.

Tuesday the committee heard a Harvard economist — John K. Gallraith — say that the United States may be in the early stages of a boom-and-bust cycle that could end with a 1929-style crash.

Every one of the 10 most active issues was lower. Top five were Pennsylvania Railroad off 2, Curtiss-Wright off 1, Glenn Martin off 2, Boeing off 3, and Royal Dutch Petroleum off 2⅛.

Canadian stocks dipped lower along with the rest of the market. Canadian Pacific fell 1¼, Dome Mines dropped ⅝ and International Nickel was off 1⅜.

On the American exchange, Royalite Oil declined ⅜ and Lake Shore ⅛.

Montreal Stocks

MONTREAL (CP) — The stock market slipped lower Tuesday at the close of active trading. Losses ranged to more than three points.

General Dynamics fell four points to 49, Aluminium declined 3¼ to 81¾ and Vickers dropped two to 44. Other losses included Hudson Bay off 1¾ at 56, Algoma and Quebec Telephone each off 1½ at 51 and 48, respectively, International off 1¼ at 62½ and Canadian Bank of Commerce off 1¼ at 42.

Macmillan A rose 5⅛ at 31⅞, Southern Canada Power advanced 2½ to 47 and Montreal Locomotive increased 1½ to 21.

Sharpest losses were in base metals and miscellaneous industrials sections, in a generally weaker industrial market.

Mines were thoroughly mixed. Price changes ranged to 30 cents. Western oils improved narrowly.

Industrial volume was 91,000 shares and mines 1,052,100.

Of the 281 issues traded, 60 were up, 107 down and 114 unchanged with 29 highs and 19 lows established.

The exchange's closing averages show banks off 0.13 at 49.18, utilities up 0.7 at 123.1, industrials off 1.4 at 253.2, combined off 0.7 at 200.3, papers off 7.40 at 1196.39 and golds up 0.7 at 70.01.

Toronto Stocks

TORONTO (CP)— Stock market trading Tuesday roared along at the fastest pace in more than two years with steady, heavy buying in speculative mines.

Buy orders poured onto the trading floor at market opening. Within 10 minutes the tape was lagging behind floor sales and caught up only two hours later.

Officials called in extra help to record the heavy morning sales, but got a breather when the pace slackened in early afternoon. Renewed buying in the final half-hour made the tape run nine minutes after market close.

Final volume was 9,935,000 shares heaviest since Feb. 23, 1953, when 10,653,000 were exchanged.

Brokers said activity was sparked by a report Monday of a good drilling by Consolidated Denison in northern Ontario's Blind River uranium area. Denison climbed 40 cents to $6.60 and touched $7.10.

Major market sections eased, following New York stocks down in a move brokers attributed to statements of Harvard economist J. K. Galbraith that the United States may be in the early stages of a boom- and- bust cycle that could end in a 1929-style crash.

The industrial index dropped 1½ points to 384.81. The base metal index dropped two points with Hudson Bay off $1.25 and Steep Rock 40 cents. In western oils Calgary and Edmonton fell 75 cents to $15.75 and losses up to 25 cents went to a long list including Canadian Atlantic and Peace River Gas.

Among golds Preston fell 60 cents to $8.80.

Index losses: Industrials 1.56 to 384.81, golds .91 to 84.04, base metals 1.99 to 166.70 and western oils 1.52 to 105.79.

Reviews Transaction In Provincial Borrowings

The circumstance leading to the burrowing of funds in the United States by this Province and the ultimate result of the subsequent conversion to the Canadian market was thus explained in the Legislature by Hon. Keir Clark, Provincial Treasurer, in the course of his Budget speech:

"On December 12, 1951, the Government received tenders from four Canadian syndicates, comprising some twenty-seven investment dealers, bidding for the purchase of $2,000,000. — 4 per cent—ten or thirteen years non-callable debentures, payable in Canada only. The highest tender was $96.08 per hundred for the ten year term. At the same time we considered taking advantage of the U. S. A. exchange which, at that time, was hovering between two and three per cent above par. They offered $96.20 U. S. funds, plus a guaranteed rate of exchange of not less than 2¼ per cent.

The Government accepted the offer for $2,500,000. with a provison that the province have the option to redeem in whole or in part on any coupon maturity date at 101, if redeemed on or prior to December 15, 1956; at 100.50 if redeemed on or prior to December 15, 1958; and at par if redeemed thereafter. This short-term callable feature was unprecendented and very favourable comments were made by financial houses on our securing such a contract.

"For the information of this House, the day the tranaction was finally completed and the Province paid at the rate of 98.37375, Canadian funds, the United States market had dropped to par and since that date the exchange on Canadian funds has risen to over 3 per cent. By taking advantage of the American market at this time, instead of selling the issue on the domestic market, the taxpayers of this Province saved $57,343.75.

"Subsequently, in May of 1954, the Province decided to take advantage of the premium on the Canadian dollar by recalling the aforementioned debentures.

"An issue for a like amount, for ten years, at the same rate of interest, was sold in June on the domestic market at $98.30, the proceeds of which, when converted to United States currency at 2¾ per cent premium, were transferred to our credit with the Bank of Montreal Agency in the City of New York. Thus, on June 15, 1954, the Province had sufficient funds available from the new Canadian issue to redeem the entire American issue at 101 with $5,634.98 remaining to our credit. This, plus the $57,343.75 previously mentioned, meant a total saving to the Province of $62,978.73 by this series of careful and skilful financial transactions carried out by the government."

Italian Premier To Make Two-Day Visit To Ottawa

By PATRICK CROSSE

ROME (Reuters)—A tough Sicilian who smashed Communist riots and widespread banditry in Italy's dark post-war days is preparing for his first visit to Canada and the United States later this month.

Premier Mario Scelba, bald, 55-year-old son of a Sicilian farmer, will arrive in Ottawa March 26 for a two-day visit to the Canadian capital. He will travel to Washington March 28 to spend two days as President Eisenhower's guest at the White House. Later he will visit New York and other American cities.

Scelba's post-war career—even his name itself—is synonomous with Italy's fight to crush communism. For eight years, as interior minister under the late ex-premier Alcide de Gasperi, he commanded the police battles against Communist demonstrations.

The stocky, broad-shouldered Sicilian also crossed swords with communism in the political arena.

MIDDLE OF ROAD

He was among the first Christian Democrats after the war to recognize left-wing Socialist Pietro Nenni as a close follower of the Moscow line and blocked Nenni's path to the premiership. At that time, Nenni, a Socialist, was highly regarded by many British Laborites.

Now, after a year as prime minister, Scelba has established himself as a middle-of-the-road statesman who is trying to lead his nation into a gently progressive, liberal democracy.

His government will be obliged to resign in May after the election of a new president to succeed Luigi Einaudi whose term will have expired. This May, in effect, marks the end of the long post-war period governed by the liberal ideals of de Gasperi.

If Scelba's government falls, at least he will have won credit for breaking the back of Communist terrorism and for containing a resurgence of fascism.

WIDELY RESPECTED

The doughty ex-lawyer, reputed to be the ugliest politician in Europe, has never courted popularity. Yet he has won respect from all sides as a strong man and a modest, patient leader.

His small, lizard-like eyes may look sleepy but he is wide awake and alert to the tortuous turns of Italy's parliamentary democracy. He knows when to speak up and when to hold his tongue.

Scelba was born in the town of Caltagirone. Like most Sicilians, he favors heavily-striped suits and loud ties. He speaks Italian with a strong Sicilian accent, and a little French with an even stronger accent.

In private, he leads a quiet, retiring life with his wife and 22-year-old daughter. In public, he was identified with screaming police sirens, bloody demonstrations and mass arrests.

SWASHBUCKLERS FOE

His courageous stand against Communist rioters was matched by his relentless campaign against heavily-armed bandits scourging Italy. He succeeded in ridding the nation of such swashbuckling villains as Salvatore Giuliano in Sicily and Pasquale Tanteddu in Sardinia.

Scelba was as surprised as most other Italians at his elevation to the premiership. He was the only Christian democrat leader whom the Social Democrats and the Liberals, partners in the coalition government, would accept.

A mark of the premier's courage was his agreement to a settlement of the Trieste dispute with Yugoslavia. No previous Italian government had faced up to a settlement for fear of a public outcry against granting any part of the free territory to Yugoslavia.

Scelba's visit to Britain last month was considered a great success—mainly because he spoke frankly and made no attempt to disguise his true personality. Italian reporters who followed him to all the receptions said the British were especially pleased because Scelba did not try to adapt himself to British tastes.

This frankness in public and personal life will go with him to North America. There is much he wants to talk about. He can be counted on to say it frankly.

Soviet Scientists Have More Leeway

By TOM WHITNEY

Associated Press Staff Writer

Have you noticed the Russians haven't laid claim to any inventions lately?

Foreigners who read the Soviet press believe this is just one phase of what seems to be a new attitude toward Western science, put into effect gradually since Stalin's death.

This change affects biology and genetics in particular. The grip which academician Trofin D. Lysenko, with Stalin's assistance, maintained on these sciences has apparently been broken. Authoritative Soviet scientific periodicals have exposed certain findings by the Lysenko school of biologists as in some cases outright fakes. They are familiarizing Soviet scientists with Western accomplishments in biology and genetics.

ON DEFENSIVE

Western European and American works which from 1948 through 1952 were ridiculed now are admitted to be important. Lysenko himself is under fairly continuous fire and on the defensive.

A major article which appeared last month over the signatures of two important Soviet scientists demanded broad freedom of different schools of thought in various branches of science to carry on their work.

It condemned monopoly or dictation in science. It attacked Lysenko for precisely this while at the same time defending Lysenko's own right to have his own school of work in biology.

CHANGE OF HEART

The trend indicated by this article seems to be something fundamental.

It's symbolized by Communist party boss Nikita Khruschev's January eulogies to American corn growers and his exhortations to his Russian cohorts to go out and do likewise— to imitate the American techniques. A few years ago Khrushchev would have been expelled from the Communist party as being "sycophantic in the face of Western things"—a sin often associated with treason.

From the end of the Second World War till Stalin's death Russian scientists and publicists were encouraged to "find" materials—even if this meant forging them—which showed that Russians and only Russians had made the great scientific discoveries including penicillin, the airplane, the radio, the automobile, the steam engine and the balloon. They were encouraged at the same time to condemn outstanding Western scientists and Western science.

PLAN RED DEFENCE

BERLIN (Reuters)—The premiers of East Germany, Poland and Czechoslovakia are to meet early next month to discuss joint-defence measures, the anti-Communist Information Bureau West said here Monday. It said sources in the East German foreign ministry said this conference was decided on at meetings in Warsaw last week between the East German foreign minister, Lothar Bolz, and the Polish premier, Josef Cyrankiewicz.

OSLO (CP) — The Methodist Church in Norway celebrated the centenary of its first Sunday school opened at Sarpsborg in eastern Norway. About 70 Sunday schools are operated by the 11,600 Methodists in Norway.
