

ONE OF THE J. L. Rayner construction homes in a new Summerside housing development, is seen above nearing completion on Highland Avenue. These modern, low-cost homes contain kitchen, living room, bath, and three bedrooms, and are designed so that hallways are entirely eliminated, resulting in more space within the rooms. Two houses are already occupied, two, including the one above, are nearing completion, and four others are being constructed, and many more will be built in P. E. I. and N. B. To mill the lumber for these new homes, Mr. Rayner plans to construct a new plant for this purpose in the Summerside area.

Low-Cost Housing Project Now Underway In S' Side

Reflecting the steady growth of Summerside, a modern low-cost housing project is presently underway in the north part of the town, where J. Loring Rayner, of J. L. Rayner construction, is building several homes in the Highland Avenue area.

He will be starting construction of a similar project at Moncton, N. B., next month, and plans to build a lumber mill plant in the Summerside area to cut and mill the lumber used in these new homes which he will build anywhere in Prince Edward Island or New Brunswick.

Two Prairie Air Training Stations Will Be Closed

OTTAWA (CP) — Defence Minister Peckers Friday announced shifts of two RCAF commands and the closing of two Prairie air training stations.

He said reduced air training requirements will result in a cut of 2,750 personnel from RCAF training command's present strength of 15,144.

Reduced requirements resulted from near completion of the RCAF's program to train NATO aircrew and completion of the RCAF's own aircrew buildup.

Mr. Peckers also said in the Commons estimates committee that it is logical that Canada should adopt ground-to-air anti-aircraft missiles in the near future although there would be a continuing need "for many years" for a manned interceptor.

Worthy Couple Honoured On Wedding Anniversary

Mr. and Mrs. Lorne Dunning were honored in celebration of their 25th wedding anniversary when members of various organizations of the Presbyterian Church waited upon them at their home in Kensington on Friday evening, July 27th. Bouquets of weigelia and bowls of pansies adorned the rooms.

Mr. Edson Rayner as chairman spoke briefly and called on Mr. Fred Semple who read an address of congratulations and good wishes to the highly esteemed couple.

Mr. Roy MacArthur and Mr. Horace Paynter, representing session and Management made the presentation of a hostess chair and a wrought iron magazine rack on behalf of the Sunday School. An all wool Ayers blanket was presented by Mrs. Elmer Bernard on behalf of the choir.

A silver serving dish, the gift of the Ladies Aid was presented by Mrs. Ervin Champion.

A beautifully decorated wedding cake was made and presented by Mrs. Horace Paynter. Both responded adequately and Rev. E.H. Bean also spoke briefly. A social hour was enjoyed and refreshments served.

On the following evening a family party was held for the celebrants, with a buffet supper at their home. On this occasion the bride of 25 years ago was presented with a big bouquet of mixed flowers by her winsome two-year old niece, Danielle Buell of Charlottetown.

Two beautifully decorated wedding cakes were presented, one made by their daughter-in-law, Mrs. Earle Dunning and one made by a sister-in-law, Mrs. Carr.

Deny Allegation P. E. I. Fur Farm Has Outlived Usefulness

Contending that the experimental fur farm at Summerside has "outlived its usefulness", Mr. Percy Noble, Conservative member for Gray North, and a mink rancher, urged in the House of Commons Thursday that the institution be transferred to Ontario where, he said, it could work in close collaboration with the Hull, Que., laboratory and the Ontario Veterinary College.

The statement brought immediate denial from Island fur authorities who cited the important work presently in progress, particularly that of assessing the value of a new feed for mink.

It is thought that feeding procedures on all ranches in the Atlantic Provinces may be greatly affected by the new feeding experiments underway at Summerside.

In all there are between 300 and 400 mink ranches in the three Maritime Provinces and an additional number in Newfoundland, all of which, together with those in other provinces, are receiving the benefits of the experiments being carried on in the Summerside fur farm.

The district is fortunate in having Miss A. Bernard of Senior Dept. for a second term. Miss Marguerite Bernard will teach in her home district in St. Philip Pulpis of her class are sorry to learn she is leaving.
