LEONARD EAR OIL

Improves Hearing, Relieves Head Noises

Nine out of ten cases of DEAFNESS and HEAD NOISES are caused by catarrhal mucus (matter) in the Eustachian Tube, which connects the nose and the ears. Leonard Ear Oil removes the MUCUS, OPENS UP THE TUBE and THE OTHER AIR PASSAGES OF THE HEAD, and the result is improved hearing and relief from Head Noises. It is not put in the ears, but is INJECTED IN THE NOSTRILS and RUBBED IN BACK OF THE EARS and special instructions by a notice enclosed in each package for different kinds of Deafness and Head Noises tell you exactly how to take care of your own case. Leonard Ear Oil is not an experiment but has had a sale of over a MILLION BOTTLES since 1907, and every year it has relieved thousands of people of their Ear Troubles. No matter how long you have been deaf, nor how deaf you are, or what caused your deafness, or how many things you have already tried which have failed to relieve you, Leonard Ear Oil has relieved many such cases as your own. Why not you? A bottle costs more than 30 cents if used twice a day according to directions. The price is \$1. Thus it costs you LESS THAN 3c A DAY.

Leonard Ear Oil is for sale by All Druggists
