TUESDAY, Nov. 18.—The only two British commanders whose military career led up to Dukedoms, were Marlborough and Wellington. By the side of the Chapel of Waterloo, on 17th August, 1765, the former cut off a large division of French forces. This Chapel was uninjured by shot or shell in the battle of Waterloo, gained by the latter on Sunday, June 18, 1815. We are to-day reminded of the illustrious Duke who was entombed in St. Paul's Cathedral, Nov. 18 1852. Arthur Wellesley, Duke of Wellington, Field Marshal and statesman, died at Walmer Castle. His life extended from 1769 to 1852. His military career from 1787, when he first entered the army.

The thin atmosphere at that altitude (10,200 feet) is as fatal to the vermin as to their foe, and the inhabitants are thus mercifully spared the inflictions of both.

R. K. BRACE is about publishing 4,000 copies of a Dairy House Almanac. It will be full of valuable hints on Dairying, Farming, etc., (some from members of the P. E. I. Dairymen's Association). It will be ready for distribution about the first week in December, and as they will be given away free of charge, we would advise farmers and all interested in Dairying to send their address on a postal card and they will receive a copy. A CASE of great interest to shipowners was decided in New York last week. Seven years ago sailor named John Peterson was injured on shipboard during a storm in the Indian Ocean. There was no doctor on board and the captain refused to land him. He brought suit against the captain, the case was tried last week, and he secured a verdict of \$1,000 damages. If the verdict stands, this case may be a precedent for a number of trials which will be of peculiar interest to Nova Scotia captains and shipowners.

At a meeting of the Victoria Toboggan Club, held last evening, the following officers were appointed for the ensuing year—H. H. Hurd, W. H. Stewart, R. R. Fitzgerald, Dr. J. Warburton, T. Robins, L. Brecken, W. C. Hobkirk, directors. The Club decided to add twenty feet in length to the present slide. New members are to pay three dollars in addition to the yearly subscription of three dollars, and every male member must have a ticket, which can be purchased from the Secretary, as no one will be allowed on the slide without a ticket.—W. C. Hobkirk, Act. Secy.

A WHOLE FAMILY DUNSWED.—The N'ed Harbor Grace Standard furnishes particulars of a sad drowning accident early in October, somewhere between Point Riché and Boone Bay. A man named James Rumbolt, with his family of six, went off to pay a short visit to the parents of his wife, who lived at a place called Portland Creek. After some time the party left a cabin for their home at Daniel's Harbor. While on their passage thither, the barge (which contained also a portion of their winter's provisions), was struck by a heavy squall and capsized, the whole party going down with her. The body of the father, with a child under each arm, was recovered a short time afterwards, but no trace either of the mother or of the rest of the children had been seen.

CURRENT NOTES.

Lincoln County is to have the Scott Act submitted. An earthquake shook Essex County on Thursday last. The Montreal Gas Company's methods are to be overhauled. Several northwestern Wisconsin lumber concerns are in trouble. The Government of Holland is aiding tottering financial institutions. A shock of earthquake has been felt in several places in New Hampshire. A suicide of a young girl is announced from Point St. Charles, near Montreal. Two men have been fined \$100 each in New York for selling oleomargarine for butter. A thousand tons of giant powder exploded in a powder mill, near Toledo, on Thursday. Mormon proselytes are leaving Tennessee, Georgia and Virginia for the West in considerable numbers. A Toronto hotel-keeper has been arrested for working the bogus cheque scheme at the Union Station. The number of immigrants settling in the Dominion from the 1st January to the 1st November was 97,530.

United Ireland recommends a general fiscal revolt as a means of forcing compliance with the Irish demands. The decrease in the arrivals from sea at Quebec up to date, compared with last year, is 173 vessels and 162,264 tons. The Pontiac Pacific Junction railway is nearly completed to Quio, and trains are expected to be running to that place shortly. The department of marine are to prosecute several upper lake steamers for infraction of the law regulating their loading and equipment. The Scottish Fancier states that the rough coated Collie, Rutland, has been sold for £250, the highest price ever paid for a dog of this breed.

Applications for post-masterships are already being prepared in view of the accession of the Democrats to the control of the government. The Imperial authorities have appropriated £880,000 for the manufacture of new ordnance and works of defence at the principal coasting stations. Major Jackson, President of the Enterprise Cotton Mills, Augusta, Ga., has been arrested on indictments charging him with misappropriating \$125,000.

The Philadelphia Times says that many thousand operatives are idle. The streets of Manayunk are filled with idle men. Over 6,000 persons are out of work. The cattle men on the steamship Scotland, from London, became mutinous on the voyage, broke into the store room and created a general row. Six of them were placed in irons. The fire which destroyed \$100,000 worth of property at Elfanta, Ala., Wednesday, is believed to have been started by negroes, who think the whites intend to put them back into slavery.

The New York State authorities have issued a circular to the local boards of health reminding them of their duties in face of the danger of the cholera epidemic making its way to this continent. A canoe drawn by a horse was navigated along Sparks Street, Ottawa, a few days ago, being intended as a protest against the neglect of the aldermen to keep the streets in passable condition for vehicles. The apple crop of New England is said to be one of the largest known for years. Exportation to England is very brisk, and on an immense scale, although the margin of profit is but small. Good Baldwin sell in Boston for export at \$1.50 per barrel.

In the lead production of different countries Spain still holds the first rank, the amount reaching some 120,000 tons in one year, or one-sixth more than America, which comes next on the list, while Germany follows with 90,000. Of Spain's total production, some 67,000 tons are derived from one district, that of Linares, in which more than 800 mines are registered. The total number of steam engines employed is stated to be 130, nearly one-half of this number belonging to English companies; in fact, most of the mining machinery and pumping engines in all the mines are of English make.

The Boston Commercial List says: The week opens with a more favorable outlook for business. The election excitement has subsided, and the regular current of trade, which was interrupted last week, will resume its ordinary channels. All that is now wanted is the official announcement of the vote of New York to restore complete quietude. A change in the administration of the government will have no particular influence on business one way or the other. The depression which has existed for over a year was brought about by causes outside of politics, and no party is to blame for it. A radical revision of the tariff would no doubt delay the restoration of confidence, but as congress is now constituted no such change could be made. All admit the necessity of some reform in the tariff and internal revenue laws, and to the accomplishment of this the best thought of the nation's legislators should be given.

The following is the text of the late Duke of Brunswick's will as published in the North German Gazette—'I, William, Duke of Brunswick, etc., bequeath (1) to His Royal Highness the Duke of Cumberland my castles in the Duchy of Brunswick and at Hietzing, together with all my ready and money; (2) to His Majesty King Albert of Silesia; (3) Saxony my allodial property in Silesia; (4) to Frau von Stodenberg 50,000 thalers to her son—here the first sheet of paper is finished, and on the third sheet is continued—(4) to President of the Chamber von Hantelmann I leave 20,000 thalers; (5) to each of my two grooms of the chamber, Hanke and Voitrud, 10,000 thalers. I leave the Duke of Cumberland to judge of the gratuity to be given to the officials of my court.' The above was written on an ordinary octavo sheet of letter paper and the Gazette says it has good reason to believe it genuine.
