**You Can
Pin Your
Faith**

To any representation we make. The Watches we sell are the best money can buy. And the plain truth is strong enough to sell them. In these days of sham and misrepresentation, take time to think before buying a watch. We have some exceptionally good movements in plain nickel and silver cases. They make good, sensible, everyday watches. If a single one proves less true-worth than we promise we'll take it back willingly.

Local and Other Items.

GOLD FEVER—A gold fever seems to have struck Nova Scotia. On last Saturday week 160 areas were taken out for land at little Bras d'Or.

NOVEL TEA—This is the original and refreshing title of the Tea to take place at Kinkora full particulars regarding which will be learned on reference to the adv. in another column.

GOOD MILK CANS.—The J. D. Bell Manufacturing Co., of Montague, advertise 250 fifteen to twenty gallon cans for sale, made of the best material. All who desire to have good cans should address Mr. Bell.

AT ST. JOHN'S—The schooner Carmena, Capt. Deagle, ten days from P E Island, arrived yesterday to J & W Patis with 20 head of cattle, 13 sheep and 5 pigs. The schooner's owner, Mr N Nicholson, came by her. —St John's, Nfld., News.

ST. DUNSTON'S COLLEGE.—The Lawn Party to be held on St. Dunstan's College grounds next Monday, promises to be the event of the season. In connection with the outing there will be an excursion from Nova Scotia in the Jacques Cartier. All who wish to enjoy themselves should participate in the gathering.

THE PLEBISCITE.—At the Good Templars' meeting at Peterboro, Duncan Marshall, organizer for the Dominion Alliance, said, in a speech, that the plebiscite had not been asked for but had been "freely given." In other words, says an exchange, that moral coward, Sir Wilfrid Laurier, to escape the necessity of giving a plain answer to a plain question, volunteered to order a plebiscite at a cost of \$250,000 to the people.

MANGANESE MINE.—The Lunenburg, N S, Progress says: Chas Kelly and W Rafuse last fall discovered a manganese mine at New Ross, on the property of Peter Benjamin. They immediately secured 100 acres of land, and if the find turns out good, will start into work. M T Foster has a third interest in it. Three barrels of the mineral taken from the surface were sent to New York during the winter to be tested, and returns from that city value the manganese at from \$20 to \$80 a ton.

STARVING TO DEATH.—Last Tuesday the little four year old daughter of Mr. Arthur Gagne, St. George street, Levis, while eating some soup, had the misfortune to swallow a bone, which became fixed in the stomach in such a manner as to render her incapable of taking any nourishment, beyond a little milk, which is given her by artificial means. She suffers great agony and unless the bone should be soon dissolved by the gastric juices, must die of inanition, as a surgical operation to remove it is practically impossible. —Quebec Telegraph.

Coal Formation.
It will be remarked that the deposits of anthracite are found in very mountainous regions. The difference between this hard and what are called the soft coals was explained to me by the late Professor William B. Rogers. When the contraction of the earth's surface took place by which the mountain regions of Pennsylvania and a few other parts of the carboniferous series were formed, these mountains were thrown up, turned over and twisted in such a manner as to cause the materials of vegetable origin of which coal is formed to become coked, or partly coked, under extreme pressure. It is due to that pressure and accompanying heat that the anthracite coals are hard and virtually free from bitumen; while, under other conditions, the bituminous or semibituminous coals are soft and more friable, containing more bituminous element. In some other parts of the earth's surface where coal is found the so called brown coals and lignites have not been subjected to the measure of heat under pressure sufficient to convert them into true coal.—Edward Atkinson in Century.

Where the Ticket Went.
In an elevated station on a rainy day, just before reaching the ticket chopper's box, a woman dropped her ticket. It disappeared as completely as though she had never had it. She looked around on the floor, but it was nowhere to be seen. It was very strange.
"Look in your umbrella," said the ticket chopper. She carried an umbrella, which was closed, but not rolled up. She turned it with the handle end down and the ticket dropped out on the floor. She smiled as she picked it up and put it in the box. The ticket chopper said nothing. He had seen this happen before.—New York Sun.

A business man is one of the most patient creatures in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula, or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Buy your tweeds from us. All wool tweed selling at 45 to 65c. Blue serge selling at 35c per yard.—W D MacKay

Our Childrens Clothing

Department is rushing this spring, we are showing all the best & newest in little suits which are all marked low to sell quickly

PROWSE BROTHERS

I have been frequently told that "Dry Goodmen" try to persuade buyers from inspecting my goods. It is easy to guess why they do this—and I sincerely hope they will continue in that course, for it only tends to make the shrewd buyer so much eager to know what I am selling at low prices. I employ no salesmen, sell only to gift edge buyers, and my only terms are cash. Housekeepers will find it to their advantage to inspect my wrappers and skirts. See the widely known "King Diamond Skirts" at such a low figure. Buyers will save shoe walking and money by trading with me.
