SONG SERVICE at the Gospel Meeting in Wright's Hall tomorrow afternoon at 3.45. Strangers always welcome. Delegates will give a report of the Campbellton Convention.

ADVENTISTS IN ST. JOHN.—The Seventh Day Adventists have purchased for \$400, a piece of land on Spring Street, St. John, N. B., on which to build their new church.

GOSPEL MEETING.—Railway men's Gospel meeting in Wright's Hall, Sunday afternoon at 4 o'clock. Strangers always welcome. Lesson, Luke 10-25, "The Great Samaritan."

PICNIC.—The annual Picnic of the Hazelbrook Baptist Sunday School which was advertised to take place on last Wednesday, will be held on Monday, Aug. 29th. If weather should be unfavorable first fine day following.

MORAL: ADVERTISE.—Business is not a lottery. It is a simple process of demand and supply. Supplies in a thousand lines are demanded continually. If one man does not answer these demands another will. It is the man who insists that he has these supplies who will be heard. If his stock answers his own descriptions of it, and if within hailing distance of what is demanded, the bargain is easily made, and that is mercantile business.—Bates.

DOWN ON LAGER BEER.—For the past three years Chief David Legault, of the Revenue Police of Montreal, has been quietly at work in the endeavor to obtain judgement against the sale of the so-called non-alcoholic temperance beer. He has at last succeeded, as by the decision of Judge Desnoyers, in the case of Philip Murphy, who was fined for selling this kind of lager, many other seizures have been made. During last week over 100 shops were raided, and the harvest was fruitful, barrels on barrels were carted away, and stored in the revenue office, corner of St. Gabriel and St. James streets. Yesterday, Verdun, Lachine and St. Lambert were visited, but in the latter place nothing was found; in Verdun about 100 bottles were taken.

A FINE BLOCK.—The new Prowse Block on the north side of Queen Square, is nearly completed, in fact one of the stores is already occupied by W. P. Colwill. This building, the first brick of which was laid only a little over two months ago, has been erected with surprising rapidity, considering the number of men employed—eight masons and four carpenters, besides the contractors for the work, Messrs. Parkman and Crabbe. The store is 90x70 feet and 41 feet high. The front is of grey sandstone and makes a fine appearance. On the ground floor are four stores—the three at present untenanted will be occupied later on by Messrs. Johnson & Johnson, Druggists, G. G. Jury, Jeweller, and R. H. Ramsay, dry goods, etc. On the second story there are a number of large, and well arranged offices, and the top story is to be divided into two halls, suitable for assemblies or lodge rooms.

Every household should have on hand a box of Dr. Chase's Ointment. The diversity of uses to which it can be put and the many doctor's bills it saves, warrant it in taking first place in the family medicine chest. All dealers sell and recommend it.

Pronounced Incurable by Doctors But Made Strong and Well by Paine's Celery Compound.

WELLS & RICHARDSON CO.
GENTLEMEN:—Having been given up to die some time ago by some of the best doctors of the United States, I came to Canada last autumn terribly ill, and had lost all hope. Suffering agonies from inflammatory rheumatism, I was strongly urged to use Paine's Celery Compound. I gave it a trial as recommended, and the first bottle did me so much good I continued with the medicine until I had used seven bottles, when I found myself perfectly cured; indeed, I never felt better in all my life than at present. I use every possible means to tell others of Paine's Celery Compound, and will always recommend it to those troubled with rheumatism. Yours very truly,
WM. MORRISSETTE,
Boxton Pond, P. C.

Extravagance.
"Here's a case," she exclaimed indignantly, looking up from her paper, "of a man who actually had the nerve to put his wife on an allowance of 10 cents a day."
"What did she do with it all?" he asked absentmindedly.
It was several hours before she felt that she was calm enough to discuss matters with him dispassionately.

The Hindoo Dead.
The Hindoos consider their dead sacred and do not allow them to be handled by alien hands, the nearest male relative—son, father or brother—preparing the body for burial, and if there be none of these relatives a son is adopted by the family for the purpose.

Why is it that one man is old and decrepid at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he loses weight and that his ordinary work gives him undue fatigue, he needs Dr. Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his impure—he keeps nerves and his body under a constant strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing, bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

THE EL DORADO MYTH.

How the Term Came to Be Applied to Sources of Uncommon Riches.

El Dorado is the term now heard on every side in connection with the placer mines of Alaska and the Northwest Territories of Canada. Its derivation is of interest. In the fifteenth century it was rumored that there existed in the northern part of South America a city of great wealth called Manza, whose king, El Dorado by name, was periodically smeared with oil or balsam and was then powdered with gold dust until his whole body had a gilded appearance. It was said that on these occasions he threw gold, emeralds and other precious metals and gems into a sacred lake, in which he afterward bathed.

Beginning in 1529 the Spaniards sent many large expeditions to search for this phantom city, and most of them ended disastrously, hundreds of lives being lost. One explorer, Orellano, avowed that he found El Dorado in his voyage down the Amazon in 1540. This was disproved, but the search was continued down to the eighteenth century. Some of the results were the conquest and settlement of New Granada, the making known to the world of the mountain region of Venezuela, the discovery of the noble rivers the Orinoco and the Amazon and the exploration of the vast forests west of the Andes. About the end of the sixteenth century an English expedition either sent out by or under the personal leadership of Raleigh penetrated into Guiana, thereby obtaining a claim on that country which has resulted in the acquirement of the modern British colony of that name.

It has been supposed that the origin of this fable arose from the yearly celebration of a tribe of Indians near Bogota, whose chief was on these occasions gilded with gold dust, but this ceremony was never witnessed by the Spaniards, and the story may simply be another version of the El Dorado myth.

The name El Dorado was commonly used to describe the city or country which was the object of the search, but a later usage of the term has been its figurative application with regard to any region of more than common richness. El Dorado county, in California, was the scene of the famous gold finds of 1849, and since then the expression has been used to describe many gold camps.—Pittsburg Commercial Gazette.

Pain in the Back

Being troubled off and on with pains in my back, caused by constipation, I tried several kinds of pills I had seen advertised, and to put the truth in a nut shell, Dr. Chase's Kidney Liver Pills are the only pills that have proved effectual in my case. I can heartily recommend them.
