

**THE ATLANTIC** Provinces Inter-University Committee on the Sciences held a meeting in the Kelly Memorial Library at St. Dunstan's University Saturday. Two committee members shown here comparing notes are: Dr. W.E. Jones, Halifax, co-ordinator of APICS (left) and Rev. Dr. Charles Cheverie, St. Dunstan's University, member of the APICS executive and central committee. Saturday marked the first time this association held a meeting on the Island.

# Atlantic University Needs To Be Probed By Seminar

Dean W. R. Trost, chairman of the Central Committee of the Atlantic Provinces Inter-University Committee on the Sciences, announced at the close of the Central Committee meeting held at St. Dunstan's University, Charlottetown, on Saturday, that APICS would hold its third Science Planning Seminar about May 26 and 27, 1966, at the University of Moncton.

At this Seminar, statistics covering actual expenses on research for the last 10 years will be studied to give a basis for forecasts of the needs for the future in each of the Sciences at each of the universities in the Atlantic Provinces for each of the next 10 years. These forecasts will be drawn together to give a comprehensive overview of the needs and method of providing the necessary facilities for research and training of graduate students in the Atlantic Provinces.

During the past few months, much discussion has arisen regarding the position of University education in society. Of major interest is the report of the Bladen Commission on Higher Education in Canada, which has pointed out that monumental sums of money will be necessary in order to provide the necessary facilities for education in Canadian universities in the future.

The Atlantic Provinces Inter-University Committee on the Sciences is particularly interested in this situation in the Atlantic Provinces since part of its program of inter-university co-operation concerns planning for the needs of scientific education in these Provinces. One means by which it encourages inter-university cooperation is through the promotion of these science planning seminars.

It has been stated that a healthy economy needs an output of 100 Ph.D.'s per 1,000,000 of population per year. However, the output in the Atlantic Provinces is only five Ph.D.'s per 1,000,000 of population per year. This situation creates great problems for the universities, since the production of the necessary scientists to support the economy rests entirely upon their shoulders.

As has been stated in the report of the Association of the Atlantic Universities to the Bladen Commission, entitled "Education in the Atlantic Provinces", when speaking about the need for new faculty members for the universities of the Atlantic region—"It is our conviction that the great majority of the 1,500 to 2,000 new faculty members needed must be prepared from the graduate schools in the Atlantic area."

"To put the matter in another way, the Atlantic area cannot expect to recruit from the rest of Canada critically needed personnel and make little effort to assist in increasing the supply. Accordingly, the problem of increasing graduating facilities in the Atlantic area is most urgent and critical."

They go on to state that if the present rate of production of Ph.D.'s in the Atlantic region continues, "by 1975 we would be providing less than 6 percent of the Ph.D.'s needed to staff the universities of the region."

**COST FORECAST**  
Recently, the Canadian Association of Graduate Schools submitted a brief to the Bladen Commission regarding the forecast of the cost of research and graduate studies in Canadian universities. They found that the annual total cost for all of Canada for research and graduate studies in the sciences and engineering at present amounted to \$65,075,000. By 1970-71 the total would be \$230,325,000, and by 1975-76 the total amount needed would be \$331,400,000.

In addition to these annual

costs, they found that there would be total capital costs of \$280,325,000 required during the period 1964-65 to 1970-71, and \$232,500,000 during the period 1970-71 to 1975-76.

**SPECIFIC PROPOSALS**  
It is proposed, at the APICS seminar planned for May, to study similar costs in the Atlantic region. This will be done by studying past expenditures on facilities for research and graduate studies in each of the universities in the Atlantic region, and by studying their forecasts for the future. These forecasts will be related to the needs of scientists with the Ph.D. degree necessary in the Atlantic region. Once these forecasts have been drawn together, it will be possible to make specific proposals regarding the future of graduate studies and research in the Atlantic region.

## Receives Word Of Kin's Death

Word has been received by Mrs. Edna Graham, Commercial Cross, of the death in the Mount Auburn hospital, Cambridge, Mass., of Elizabeth MacInnis in her 91st year.

She was born at Kilmuir, a daughter of Mr. and Mrs. Martin MacInnis. Although most of her life was spent in the U.S.A.,

Quebec	15 27
Fredericton	14 30
Saint John	16 34
Moncton	17 32
Halifax	26 37
Charlottetown	30 30
Sydney	26 32
Yarmouth	27 30
St. John's	30 37
Boston	37 51

**HALIFAX (CP) —** The weather office says skies were mostly cloudy throughout the Maritimes late Sunday evening, and in New Brunswick many localities were reporting light snow.

The disturbance causing the light snow over New Brunswick will continue to weaken and by today the snow should have ended at most localities. The air over the district is moist enough so that all three provinces will have a mainly cloudy day today.

**Regional forecasts:**  
Prince Edward Island: Overcast. Intermittent snow ending near noon. Mild. Winds light. Low-high at Charlottetown 28 and 35.  
High tide today at Charlottetown 10.22 a.m. and 10.02 a.m. At Rustico at 6.06 a.m. and 5.06 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 7.05 a.m. and sets at 4.52 p.m.

**SOMETIMES**  
(Continued from page 1)

azine article which, interpreting the Warren report on the assassination of Kennedy, said the Russian-born Marina appeared shallow, adaptable, materialistic and self-centred.

"It is pretty close to the truth, I guess," she said casually. "It made me angry at first—about the story when I cooled off I decided he (the author) has analysed as best he could."

"He did a good job, I think. He was not against me nor was he for me. I think he came pretty close. But I am not materialistic."

Of her new marriage, Marina said: "We are doing quite well. We would like to start a new life—just start all over. And forget. You understand me?"

Marina and her mother-in-law have not seen each other since Nov. 28, 1963.

"Tell Marguerite hello," Marina said icily when the name was mentioned. "I hear she intends to go to Russia. Well, they'll never let her go."

**SEES SON'S WAX FIGURE**  
A few days earlier, Marguerite Oswald, a plump grandmotherly woman of 58, had driven to Dallas from Fort Worth to see her son's image at

the Southwestern Historical Wax Museum.

"I must know everything there is, to know of the assassination," she said. "It is something I must do."

Time has not slackened the mother's personal investigation of the assassination. Her income apparently comes from her lectures and writing efforts. The sale of her son's letters provided the down payment for her new brick house in Fort Worth.

Jack Ruby disagrees with those who would label him a mental case.

"Do I look insane?" he asked reporters at one of his recent courtrooms a p-o-s-rances. "If I'm a person who sounds insane at this moment, then the whole world is crazy."

**RULING DELAYED**  
Former operator of a strip-tease club in Dallas, Ruby has been under a death sentence since March 14, 1964. The verdict was appealed but numerous legal actions have delayed a ruling by the Texas Court of Criminal Appeals.

This month, District Attorney Henry Wade, who prosecuted Ruby, proposed that the death sentence be reduced to life imprisonment.

The two years Ruby has spent in jail apparently have not caused much physical deterioration.

He has made no attempt to harm himself since three crude suicide efforts failed more than a year ago.

**SHOT IN STREET**  
J. D. Tippit was shot to death Nov. 22, 1963, when he stopped Oswald on a Dallas street shortly after the assassination.

Donations poured in for the family. But instant and substantial wealth—nearly \$650,000—apparently has had little effect on Marie Tippit, sons Curtis, 6, and Allan, 15, and daughter Brenda, 9. The only tangible evidence of wealth is a new car and a color television set.

**IF YOU ARE NOW TAKING A LAXATIVE ONCE, TWICE OR THREE TIMES A WEEK... THEN YOU SHOULD BUY MR. TONIGHT**  
The Laxative Tablet with the GENTLE DIFFERENCE  
Take gentle-acting Mr. Tonight's Remedy! There is no liddown, no uncomfortable after-feeling. Mr. Tonight is an all-vegetable laxative. For over 70 years, Mr. Tonight has been giving folks pleasant, effective relief overnight.

## LOCAL BRIEFS

**RETURNS HOME**  
Alice Pigott, Mt. Stewart and 181 Kent St., Charlottetown, who was a patient in Victoria General Hospital, Halifax, for two weeks, returned home by air last Saturday.

**PLEASED WITH SUPPORT**  
Officials of the P.E.I. Handicraft Council have expressed pleasure over the support shown by the public towards the Council's handicraft fair which was held Friday and Saturday in the Confederation Centre in Charlottetown. Officials suggest that such a fair will become an annual event.

**APPOINTMENT EXPECTED**  
Charlottetown Board of Trade officials are expected to make an announcement on Tuesday or Wednesday of this week regarding the appointment of a general manager for the board. This position has been filled by Eric Kipping who resigned some time ago.

**BREAK PROBED**  
City Police reported a break at Canadian Tire Corporation, Charlottetown early yesterday afternoon, but a spokesman for the police department said he didn't think there was anything involved. The break is being investigated by the local police force.

**APPOINTMENT MADE**  
Lorne D. MacDonald, formerly of Newton Cross and Charlottetown, Prince Edward Island, has recently been appointed to head office of the department of national revenue and taxation in Ottawa as acting officer under the new Canada Pension Plan. Mr. MacDougall was employed for the past 18 years in Calgary with the national revenue department.

**SLIGHT DAMAGE**  
Fire broke out at Len Connolly's house on 8 Haviland St., city, Saturday at approximately 1.30 p.m. A spokesman for the Charlottetown Fire Department stated: "He was burning rubbish in the back-yard and sparks blew under the back portion of the house and caused a slight damage. Another 10 minutes and it could have been a serious fire."
