VARIETIES.

A REASONING FOX.—A certain Jagare, who was one morning keeping watch in the forest, observed a fox cautiously making his approach towards the stump of an old tree. When sufficiently near, he took a high and determined jump on to the top of it; and after looking around awhile, hopped to the ground again. After Reynard had repeated this knightly exercise several times, he went his way; but presently he returned to the spot, bearing a pretty large and heavy piece of dry oak in his mouth; and thus burdened, and as it would seem for the purpose of testing his vaulting powers, he renewed his leaps on to the stump. After a time, however, and when he found that, weighted as he was, he could make the ascent with facility, he desisted from further efforts, dropped the piece of wood from his mouth, and coiling himself upon the top of the stump, remained motionless as if dead. At the approach of evening, an old sow and her progeny, five or six in number, issued from a neighbouring thicket, and, pursuing their usual track, passed near to the stump in question. Two of her sucklings followed somewhat behind the rest, and just as they neared his ambush, Michel, with the rapidity of thought, darted down from his perch upon one of them, and in the twinkling of an eye bore it in triumph on to the fastness he had so providently prepared beforehand. Confounded at the shrieks of her offspring, the old sow returned in fury to the spot, and untill late in the night, made repeated desperate attempts to storm the murderer's stronghold; but the fox took the matter very coolly, and devoured the pig under the very nose of its mother; which at length, with the greatest reluctance, and without being able to revenge herself on her crafty adversary, was forced to beat a retreat.

CHINESE SHOPS.—Passing into some genuine Chinese streets, I came to the conclusion that, altogether, Canton presented the most extraordinary sight I ever behold. The streets are very narrow, and hung about in all directions with signs and advertisements. Every shop has a large upright board on each side of the door, usually painted white, and on it, in red or black letters, is inscribed a list of all the articles sold. Other signs are hung out over the street, and some are fixed to poles reaching from one side of the street to the other. Many bore puffing advertisements, such as, 'This Old and Established Shop,' &c.; 'The Refulgent Sign. Original Maker of the finest Quality of Caps, '&c.; Canton Security Banking Establishment;' and 'No Two Prices at this Shop' was a very common notification. The Chinese writing looks very well in this way; and being generally red letters upon white, black upon red or yellow, and blue upon white, the array of signs had a most gaudy and extraordinary effect. In addition to this, the shops are all open in front, and a large ornamented paper lantern is hung over the door. The best street, the Regent Street of Canton, was called Curiosity or Physic Street, from the number of curiosity and druggists' shops in it. The former are very attractive, and have some curious collections of old bronzes and old china, which is always very highly prized by the Chinese, who value anything that is very old and strange, and will give higher prices for old china than we should give in England. Jade stones, which look like green opaque glass, carvings in bamboo, and innumerable other things, are among their wares. The carved rhinoceros horns are very handsome, and look, when fixed in a carved wood stand, like cornucopias. They are rather expensive, fetching L.8 or L.10; but it is difficult for a stranger to buy anything really good. The best carvings are done in the cities of the interior, and residents pick them up at the death of mandarins and rich men, when their effects are generally sold.—(Elwes's Sketcher's Tour.)

CAN SUCH "THINGS" BE? —(*Shakespeare*).—Breathes there a man with soul so dead, who never to himself hath said, I will the Country paper take, both for my own and family's sake? If such there be, let him repent, and have the paper to him sent; and if he'd pass a happy winter, he in advance should pay the printer.

R. R. R.

What do the Sick Require?

To these who think.—If sick, if suffering the tortures of pain, or afflicted with long illness, the invaild's constant hope and most frevent desire is to be relieved and cured of the distressing ailment, that time. On this principle the R.R.R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R.R.R. Theory is predicated.

The R.R.R. REMIDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

The R.R.R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S RENOVATING RESOLVENT, and RADWAY'S REGULATORS.

RADWAY'S READY RELIEF is for the instant relief of the sufferer from pain, and to check and arrest the progress of diseases; to disinfect animal, malarious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagion, and from sudden attacks of Cholera, Pneumonia, Ship Fever, Fever and Ague, &c. Likewise for the effectual and radical removal of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to remove the pain, (hence its usefulness in Neuralgic cases;) its second, to repair and heal, as in the case of a cut, or wound. If the Relief be applied after the first little smarting is over the pain is extinguished, and the work of reparation now commences. But if the Relief is not applied, there are many chances to one that the pain will continue, and an inflamation be set up, and instead of a simple incised wound we have inflamation—disease to contend with. Beside, its direct power over pain, the Ready Relief is the most effectual and convenient "counter irritant" that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, occasioning pain and threatning inflamation or disease, as Sore Throat, Lumbago, or pains in the loins, Pleuratic congestion &c. the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated and the pain removed at once. Let any one who may doubt this but make the trial. Now, these two properties, its power over pain and its "counter irritant" render it the most valuable remedy for Diarrhœa; and although not an astringent in the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhœa or Cholera in a short time.

DISINFECTANT.

RADWAY'S READY RELIEF is the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative of

FEVER AND AGUE.

So with other fevers and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA.

whether Typhoid or Bilious, RADWAY'S READY RELIEF, given internally, and applied over the surface of the body, and the bowels regulated and kept soluble with RADWAY'S REGULATOR, the patent will soon be out of danger, and speedily restored to health. If the R.R.R. Remedies are given, they will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT is the second of the R.R.R. Remedies. It is for the cure of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideraion of the RESOLVENT, the second of the three R.R.R. Medicines.

RADWAY'S RENOVATING RESOLVENT is for the cure of Chronic Diseases, of inflammation that is kept alight on fire by some sustaining cause: for the Chemists tell us that inflammiation is a slow concealed combustion. And this cause is a deposit resulting from the inflammation whilst it is in an active or acute condition, for all disease is at one time acute before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous tissue surrounding joints; if a person is Scrofulous, these deposits often show themselves in small lumps under the chin and along the neck; if he have a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs; if Bronchitis, it takes place in the Bronchial tubes: if Syphilis, it occurs in every tissue and organ in the whole system, for that disease spares nothing. Now to cure these diseases, these Chronic inflammations, (for it is this in every case.) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and the blood be purified. We therefore want a medicine that will act on the absorbents and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure Chronic diseases: to ensure success they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action; of the RESOLVENT is directed first to the absorbents, stimulating them into action, and second to the blood which it depurates by its action over the glands, the liver, pancreas, kidneys &c., which are the sewers that nature has established for purifying the blood. You will, after this description, we hope, appreciate the name we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT, It resolves away diseased deposits; it purifies the blood and renovates the system. Tumors are removed and discussed by its operation: Chronic Swellings are dissipated; Nodes are softened and melted away. The most loathsome Skin diseases disappear under its action; Scrofulous constitutions are soon amended, and the disease checked when ever it has attacted the system. Syphilis, with all its horrible train of concomitants, here finds a certain and infalible cure; and Consumption too, oftimes finds its master—Consumption, that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal and almost helpless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race. creeping over our vitals with an insidious yet awful certainty, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake: it is but one of the forms of Scrofula—it is a Scrofula deposit, an inflamation of the lung structure, and could be as readily cured as any other Scrofulous disease—such as Rickets, Hip Complaint, or White Swelling—if it was not for the peculiar structure and action of the lungs in which it takes place.

The lungs expand and contract during every respiration: and from the moment the first breath of life is drawn, until the last guttural sigh passes from the dying invalid, a never-ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be for an Ulcer of the lungs to heal, where it is continualy kept irritated by the act of breathing.

Understand, then, we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of the lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case, this complaint—except in its first stages—is oftentimes incurable; but we can recommend it as the most certain remedy (when taken as directed in our pamphlets) that we posess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT What the Relief is to Acute diseases the RESOLVENT is to Chronic; it resolves away the foreign and diseased deposit; it purifies the blood and it renovates the system

NO. 3

We now request the reader's attention to the third of the R.R.R. REMEDIES.

RADWAY'S REGULATORS.

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pills," will find RADWAY'S REGULATORS the most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use

We have hitherto been treating of diseases or inflammation in its acute or chronic state, and its remedies; the RELIEF in one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately proceeding disease or inflammation, viz: IRRITATION. To allay irritation of the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS

But how is nervous irritation the cause of diseases? Because the glands of the system are controled by the brain and nervous centers, and what irritates the brain causes irregularities of the glands; and when the glands refuse to do their work, the foreign matter which it is their duty to remove, is left in the blood, and increases already existing irritations. The glands are sewers of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and those of the skin and intestinal canal. Now, a regular and honest action of these organs are indispensable to keeping the blood in a pure and natural state. If we give you poison instead of food to eat you can easily understand that the blood will be corrupted by it, and diseased action will follow; and it will be just as surely corrupted if the glands do not abstract the worn out materials from it

Again if the kidneys be interfered with in their action, from any irritation whatsoever, why then we have the salts of the urine, the poisonous urea, circulating in the blood, producing headaches, coma, drowsiness. &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great laboratory the Liver, behold the disastrous effects! The bile, instead of passing into the intestines to aid them in their movements, (for the bile is Nature's purgative) is left to circulate in the blood: the bowels, therefore become inactive and the carbuniferous bile (for carbon or charcoal is the chief component of bile) circulating in the blood is the cause of the fevers of the system. The superabundance of the carbon in the blood meeting with the oxygen as it passes through the lungs is slowly consumed, and gives out a superabundance of heat, and this is fever.

RADWAY'S REGULATORS induce a healthy regularity of glandlular action No. Costiveness or Dyspepsia or Indigestion, or Pains in the Side, or Liver, Complaint or Pains in the Kidneys will trouble you if RADWAY'S REGULATORS are taken: and we positively assure all who are afflicted with these distressing complaints that RADWAY'S REGULATORS will cure them

R.R.R. REMEDIES are suited to the treatment and unaided will cure most of "the ills that flesh is heir to." The sanguinary practice of the lance, the cupping glass, and leeches, they entirely dispense with,,and banish forever the pernicious use of that baneful drug, calomel

If you be sick, we advise you to resort at once to the R.R.R. REMEDIES, as the most prompt in their action, the most sure and effectual of remedies.

Instance of diseases prevented, of rapid cures, and almost miraculous recoveries we can furnish you the certificates and credentials without number.

But these may be obtained without merit as well as with it, and, without knowing the circumstance prove nothing to your mind.

The R.R.R. Remedies are for sale by druggists everywhere. Persons desirous of learning more of our REMEDIES, are referred to our FAMILY FRIEND a Monthly paper. A copy will be sent free of charge, to all who will send in their names and address.

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, 1853.

J. C. AYER. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the winter of 1850, for a severe attack of Bronchitis, with entire succes, I was induced to try it on my little boy. I gave him a tea-spoon-ful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,
J. D. POWELL, Supt. Trans., L. R.R.

Rock Hill, (Somerset Co.,) N. J., July 21, 1852.

Dr. J. C. AYER,—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done, I take pleasure in selling it, because I know that I am giving my customers the worth of their money. and I feel gratified in seeing the benefit it confers.m Please send me a further supply, and believe

Yours, with respect,
JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1852.

J. C. AYER. Sir; This may certify that I have used your CHERRY PECTORAL for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,
D. A. McCULLIN, Attorney at Law.

Wilksbarre, Pa., September 28, 1850.

DR. J. C. AYER, My dear Sir,—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Invariably recommend it for pulmonary affections, as do many of our principal physicians.

I am your friend,
