THEY ALL FLED IRON CURTAIN — The mass of people pictured above, some 20,000 strong, are all happy to be where they are — on the "right" side of the Iron Curtain. They are refugees who escaped from East Prussia, Silesia and other German territory under Soviet domination, gathered at a mass meeting in Waldhuhne open-air theater in the British sector of Berlin.

Ellen's Diary

she proceeded to make a leisurely toilet in a sunny corner close by.

And we made a tryst with granddaughter to keep in the dusk of this evening so that she might become acquainted with these queer creatures, part bird-part beast. Twilight was flooding into the valley then. Presently it hid the mill's gables from us, and where had been poplars minutes before was now only silvery sheen in the dimness. Lights twinkled from the houses about but this one was in darkness. Night flowers spilled their heady fragrance about. Not a leaf rustled, nothing stirred. "Do you suppose we'll have to wait long?" she breathed, slipping a warm hand into ours, as we waited on the old stone doorstep. "Long? No, here! did you see that?" we queried as a small body

Ambitious Schedule For Provincial Blood Donor Clinics

Plans for the most ambitious schedule of Red Cross Blood Donor Clinics ever undertaken in this Province are now being finalized. Clinics will be conducted during the period between August 27th, and September 5th, and will be held in thirteen different centres throughout the Province—all the way from Tignish to Souris—with an objective of 1,700 donors.

The Mobile Team from Halifax will arrive in Borden on August 27th and will hold a Clinic there that same evening. On Tuesday, they will move on to O'Leary in the afternoon and Alberton in the evening and the following day will have a Clinic at Tignish in the morning, and at Summerside in the evening. On Thursday afternoon they will be in action at the R.C.A.F. Station and that evening in Kensington. Mt. Stewart and Souris will be visited on Friday, while Murray River and North Rustico are on the schedule for Saturday morning and evening respectively. The team will then have a well-earned rest on Labor Day and will resume Clinics on Tuesday and Wednesday in Charlottetown.

Prince Edward Islanders are daily becoming more conscious of the tremendous importance of the free Red Cross Blood Transfusion Service. This is now the only means of supplying the blood required by so many of the patients in our local hospitals and, in addition, the Department of National Defence depends solely upon the Red Cross to provide blood for the armed services overseas and to stockpile for civilian defence.

It is safe to say that there is hardly a district throughout the length and breadth of the Province in which someone has not benefitted as the result of this free transfusion service. This is all the more reason why more and more of our people should volunteer as donors when the opportunity presents itself between August 27th and September 5th in so many centres throughout the Province. It takes only a short time to make a donation of this kind and no one should use the excuse of being "too busy" when lives are at stake. Everyone who is in good health and between the ages of 18-65 should be a donor at one of the Red Cross Clinics at least twice a year—although the team does visit the Province about four times a year.

Church Repaired At Canoe Cove

The Presbyterian Church, Canoe Cove, is to hold a re-opening service on Sunday evening, August 19, after having been closed since early in April. During the intervening months extensive repairs were made including a cement entrance, while the exterior and interior have been fully redecorated.

The church with its sparkling white coat and high black topped spire is situated in one of the Island's beauty spots overlooking Canoe Cove Bay, and is among the finest country churches in the Province.

It was built in the year 1872, when it was first decided to build a church in the then Church of Scotland parish in this area. The plans were made for its erection at St. Catherine's in the vicinity of the Shaw cemetery. It was not until the framework had been delivered to the site that these plans were changed. The lumber was then placed on a vessel and brought down the West River and around to its present site where it was erected.

Rev. James MacCall was the first minister to become the pastor of the congregation. Other ministers who served as pastors were Rev. John Goodwill, Rev. James MacDougall, Rev. Daniel MacLean, Rev. Donald Lamont, Rev. J. W. Lowery and Rev. T. W. Goodwill. The present pastor, Rev. Donald Nicholson, was inducted into the charge a little over a year ago.

Butter Stocks

OTTAWA, Aug. 15—(CP)—Canada's butter stocks at Aug. 10 were down drastically from the corresponding date a year ago, but there still was 28,000,000 pounds around.

The Bureau of Statistics said today stocks of creamery butter in nine Canadian cities totalled 28,779,000 pounds compared with 45,477,000.

Holdings were smaller in all centres except Saskatoon and Vancouver. The holdings by cities with Aug. 10, 1950, totals in brackets:
