MEETING IN THE LYCEUM.

The Farquharson Government Severely Arraigned.

ABLE SPEECHES DELIVERED.

False Promises Exposed, Extravagance Shown Up and Inefficiency Laid Bare.

There was a large attendance of electors at the meeting in the Lyceum last night, notwithstanding the unfavorable weather. Great enthusiasm was manifested, and as point after point was made against the Farquharson Administration round after round of applause went up.

Upon the platform, besides Mr. P. Blake, President of the Liberal-Conservative Association, who presided, and Mr. Charles R. Smallwood, who acted as secretary, there were the candidates for the city, Mr. James Paton and Dr. S. R. Jenkins, the candidates for the Second District of Queen's, Messrs. Mellish and Gallant, Alex. Martin, ex-M. P., Senator Ferguson, ex-Councillor Nicholson, Mr. W. H. Aitken, Mr. W. S. Stewart, Mr. Alexander Horne, Mr. J. P. Tanton and Mr. P. J. Trainor.

Mr. Blake, in opening the meeting, pointed out that the Farquharson Government had done nothing for the people of Charlottetown, but on the contrary had done everything possible against the city. He felt sure that none of the members from the country would be opposed to Charlottetown getting a fair share of the expenditure. He regretted that since the present Government came into power revenue and expenditure had not, according to promise, been made to meet. He pointed out that the people had been taxed in the face of the promise that taxes would not be imposed, and showed that the Government had actually been kept in power by one infortunate man who had been turned down as soon as his work was done. He thought there was no reason to be afraid of the contest. The people of Charlottetown might be depended upon to give a substantial support to the Opposition candidates.

Mr. James Paton, the candidate for Councillor, was first called upon and as he came forward was greeted with cheers and applause. After thanking the electors for the honor done him, and

soliciting their support for himself and colleague, Mr. Paton took up the manifesto of Premier Farquharson. Calling attention to the statement therein regarding the expenditure he pointed out that soon after the Conservative Government went out of power the debt was \$53,000, and it was ten times that amount now. The Premier also says they are going to get something from Ottawa. It is true the Premier recently visited Ottawa. He left here on Friday morning. It would take him until late on Saturday evening to get to the capital, and he was back in Charlottetown on Monday night. He failed to see what time the Premier had to make arrangements with the Government at Ottawa. Premier Farquharson says the Conservatives left a debt of \$171,000 on which they had to pay interest to this day. Is this a fact? Have they been paying interest on this sum up to the present? The Government had borrowed money on bonds, and the sinking fund in connection with the same was actually on call at the bank. This was grossly unfair to the holders of those debentures and should not be tolerated. Premier Farquharson says he has done his best. If what he has done is all he can do it is time he was sent about his business. The Premier tells us he has paid every demand upon his government. But what are the facts? According to his own letters he paid Mr. Geo. H. Stewart, of Southport, 85 cents on the dollar, and did not pay Mr. Walter Lowe anything. He (Mr. Paton) thought it was high time some improvement were made in the road system, as well as in the system of book-keeping in the different departments of the Provincial Government. He would also favor the issuing of a sheet every six months showing the financial position of the province. If elected, said Mr. Paton in conclusion, we will do all we can for the country in general and will make a special effort to do something for the city. In the last parliament we had men who did not look after our rights.

Dr. S. R. Jenkins, the candidate for assemblyman, was the next speaker and received an ovation on coming forward. Like his colleague he thanked the electors for the honor done him, and solicited their votes on election day. He regretted that he had not more time to canvass, but his professional duties kept him very busy. He would not say much tonight regarding the political situation, as his colleague had gone over the ground pretty thoroughly. The public debt has gone beyond all bounds, notwithstanding the large amount of taxes collected. The situation calls for the exercise of the greatest economy, and he pledged himself if elected to do all in his power to husband the resources of the province and economy in the various departments.

Mr. P. J. Trainor, in the course of an eloquent speech, expressed himself as being in hearty accord with the principles advocated by Messrs. Paton and Jenkins. If there ever was a time in the history of the province when a change was necessary that time is the present. In the Premier's manifesto, said Mr. Trainor, it is claimed as one of the reasons for dissolution that there are several vacancies in the Legislature. But the same conditions existed when they met the House last spring, and they were obliged to tide over the session by the aid of a political traitor. The arbitration schemes of Mr. Peters had failed, and there was no sign of the two million dollars. Premier Farquharson claims a surplus of \$5,888.96 when analysis of his own accounts shows an actual deficit of \$36,915.03. Reference is also made in the manifesto to the withdrawal of \$200,000 from capital, but nothing is said of the \$500,000 the Conservatives added to capital. Where have the Liberals added a cent to the capital? They were forced to build the bridge and railway by the Conservatives. The debt when the Conservatives went out was \$53,000 although it was claimed to be \$171,000, and debentures for \$185,000 were actually issued to pay this latter amount. Although it was promised that revenue and expenditure would be made to meet there was a deficit each year, the deficit in 1893, an election year, being \$119,000. Large sums had been paid in interest, and the most extravagant expenditures indulged in. The Conservatives sought to reduce the cost of legislation, but their efforts to abolish the Legislative Council were always thwarted by the Liberal majority in the Upper House. The expenditure for the administration of justice was uncontrollable, and no credit could therefore be taken for a reduction. The actual debt today was about \$600,000. The misappropriation of the debenture sinking fund was a serious matter, especially for the young people who would have to pay the debentures. He hoped to see Paton and Jenkins
