

Notes and Comments.

The Government of the Dominion is making a commendable effort to have all parts of the country well represented at the Jamaica exhibition.

According to a paper lately laid before the German parliament, the full strength of the armies of the five great powers of Europe is as follows:

Table with 2 columns: Country and Army Strength. Includes France (3,000,000), Russia (2,679,000), Germany (2,900,000), Austro-Hungary (1,150,000), Italy (1,090,000).

The Czar has declared that he does not maintain the military establishment of Russia for purposes of aggression, but that it is necessary for him to have a strong and formidable army in order to secure the continued brooding over his empire of white-winged peace.

An expedition of gold miners is on the way to the gold mines of Mashonaland, in the rear of the Matabele country, South Africa. The expedition has penetrated the wilds as far as the southern border, but is denied admission by King Lobengula, who had promised a British company the mining rights in return for a valuable consideration, but dare not fulfil the bargain on account of the opposition of his people.

Sir John Macdonald's visit to this Province was, to his friends and supporters here, a pleasing surprise. All were pleased to see the veteran Premier in robust health and to know that he retains a personal interest in this gem of the Northern Sea.

Much importance is attached to the political utterances of Lord Roseberry, because of his position as an ex-Liberal Foreign English Secretary, and the probability of his being the next Liberal Premier in England. At the recent meeting of the Canada Club in London, in referring to the feeling of regret generally prevalent at the necessity of parting with Heligoland, even though the consideration received were of infinitely greater value than the little island could ever possibly be, he uttered some memorable words which should long ring in the ears of those who are forever dwelling upon the willingness of Great Britain to part with the slender silk thread of political union which now connects Canada with the imperial power.

The CYPHON AGAIN.—A Quebec despatch of the 7th says: News received from St. Giles Lotbiniere, says a cyclone passed over that vicinity yesterday at 4-30 p.m. It commenced within a few acres of the Roman Catholic church and continued in a southerly direction. It did immense damage to the growing crops for the space of about an eighth of a mile wide cutting the growing grass off close to the ground. Rootcrops shared the same fate. Half fell of the weight of an ounce each, accompanied by a perfect tornado. Many squares of glass were broken by the hail, and several small hot-houses were carried distances of 30 to 40 feet. Numerous trees, the growth of centuries were broken.

FROM BOSTON.—The Steamer Worcester, Captain Nickerson, arrived here from Boston, on Saturday evening, with a cargo and the following passengers: Mr J H Gill, Grace Small, Mrs D N Blake, Mrs M McArthur, Miss Timms, Thos Caldwell, Mrs Thos Caldwell, Mrs Doherty, Edgar Doherty, Miss E E Owen, Mrs McArthur, Mrs Doyle, Margaret McDonald, Maggie McKinnon, Minnie Connor, Mrs A K Loftus, Miss A Earle, Mary McQuarrie, Miss Douse, Florence A Stroker, Donald McCormack, Mr M Driscoll, Mr M McKenzie, Mr M Doyle, Mr J Parson, Mr M McCarthy, Miss O'Connell, Miss McQuaid, Miss Chisholm, Miss Brynan, Mr A McGregor, Rev Mr McAulay and Rev Mr Penney.

Russia's review of a hundred thousand soldiers on the occasion of the German Emperor's visit will be one of the finest military pageants Europe has seen for a long time. It will also be an object lesson to the Czar's guest that will need but little explanation.

The Enterprise of New Glasgow has just celebrated its third anniversary.

Rankin, Mr. C. D. Unsworth, Mr. and Mrs. Joseph. Young, Mr. Justice.

The Premier and Lady Macdonald attended St. Peter's Church yesterday forenoon and the Methodist Brick Church in the evening. They left this forenoon by special train for Summerside, accompanied by Mr. E. J. Hodgson, Q. C., Mr. Unsworth, Superintendent of the P. E. Island Railway, and others. The Premier received a warm welcome at the Capital of Prince County.

Sir John arrived at the Town Hall at half-past two o'clock. The Hall was crowded with people, and the platform was beautifully decorated with flowers.

Many of the principal people of the town occupied seats upon the platform. David Rogers, Esq., M. P., read the following ADDRESS:—

To the Right Honorable Sir John Alexander Macdonald, P. C., K. C. B., &c, Dominion of Canada.

Sir,—We, the undersigned, inhabitants of Summerside and other parts of Prince County, embracing members of the Young Men's Liberal-Conservative Association, members of the Corporation of the town of Summerside, and Liberal-Conservatives in general, having learned of your presence in Prince Edward Island, now desire most respectfully to extend to you and to Lady Macdonald a cordial welcome to the Western Capital of the Province.

In common with Canadians throughout the Dominion, we have had the privilege of becoming familiar with the principal events in your long and distinguished public career; while since the epoch of Confederation especially, your parliamentary and official records have been deeply interesting to us.

Your devotion to the duties of the many exalted positions to which you have been called through the suffrages of an enlightened electorate; your ascendancy amongst men of every class, and your successful adjustment of apparently irreconcilable sentiments that, for the time, found expression in and out of parliament, have been acknowledged alike by honorable opponents as by hosts of admiring friends. Here, as elsewhere, the hand of genius, when guided by the dictates of conscience, has been equal to every emergency.

We regret that pressing demands upon your time will deprive you of the advantages of a more extended visit to our shores. We trust, however, that the portions of the Province through which you have passed will impress you not unfavorably with the fertility of the soil and the substantial prosperity of its inhabitants.

It must be a source of satisfaction and pride to all your political supporters and personal friends, as it is to us, to perceive that, notwithstanding your venerable years, you still enjoy the blessing of robust health, and it goes without question that your popularity as First Minister and leading Statesman of Canada continues undiminished and unimpaired.

That your valuable life may be prolonged for many more years to direct the public affairs of the Dominion and to maintain its honor and prestige, is our earnest hope. We have also implicit confidence that small though our Province is, it will receive from your impartial administration full and practical recognition of its reasonable demands.

Wishing you and Lady Macdonald a pleasant sojourn in the Eastern Provinces, with renewed strength and health to enable you to further promote the best interest of the country, and to add to the lustre of your name,

We remain, Yours respectfully, Signed, Summerside, P. E. I., 11th August, 1890.

The address was signed by all the members of the Town Council, the Liberal-Conservatives, and a large number of citizens.

Sir John, in reply, after thanking them for their address, said that this was his first visit to Summerside. It had given him great pleasure to observe the signs of progress between Charlottetown and here. The cultivation of the fields and the well kept farm houses are evidences of comfort which convinced him that the people of P. E. Island can hold their own with the people of any other part of the country. He must confess that our farms are greatly in advance of the agricultural improvements of the other Provinces; and he would be glad if some of the other Canadian farmers would come down and see the advance which has been made in P. E. Island.

People who travelled throughout Canada must be convinced of the fact that she has become a great country since 1867. We have become a nationality. The Mother Country has become proud of us. Our "friendly foes" across the southern boundary, instead of sneering at Canada and calling it a frozen-up country, have now not the slightest objection to annexation. Everyone will admit that the rapid advance of the Northwest is a credit to us. If he had made mistakes they were of the heart. The Canadian Pacific Railway has opened up a great trade between Canada and the other parts of the world. But the Government is not yet satisfied. The C. P. R. is only a means to an end. The real terminus of this great line are Liverpool, Hong Kong and Japan. He trusted in a few more years to see the fulfilment of the work. He hoped also that P. E. Island would, at the next general election, strengthen his hands. He would like, just for the name of the thing, to have one or two of his supporters come from P. E. Island. He addressed some remarks to the ladies, and concluded by again thanking them for their kind address. He spoke at considerable length, with great animation, and was frequently applauded. The distinguished visitors were entertained by Richard Hunt, Esq. They leave by steamer St. Lawrence this evening at about five o'clock.
