THE Moncton Transcript of the 21st says: Several young men from different parts of Prince Edward Island, crossed in the Empress yesterday and spent the afternoon in the city, and left for the Canadian West via the Maritime Express last night. In the whole crowd of ten there was not one who was not a land owner in the garden of the spring. At present, however, they claim that there is nothing doing on the island and it is better for them to go West, see the country and if possible, save some earnings and return in the spring in time to seed and look after their farms at home. They were nice-looking, sober, self-reliant young fellows who could 'hew out an existence anywhere.

## Charcoal Kills Bad Breath

Bad Odor of Indigestion, Smoking, Drinking or Eating Can Be Instantly Stopped.

Sample Package Mailed Free.

Other people notice your bad breath when you would not notice it at all. It is nauseating to other people to stand before them and while you are talking, give them a whiff or two of your bad stomach. It usually comes from food fermenting on your stomach. Sometimes you have it in the morning,—that awful sour, bilious, bad breath. You can stop that at once by swallowing one or two Stuart's Charcoal Lozenges, the most powerful gas and odor absorbers ever prepared.

Sometimes your meals will reveal themselves in your breath to those who talk with you. "You've had onions," or "You've been eating cabbage," and all of a sudden you belch in the face of your friend. Charcoal is a wonderful absorber of odors, as every one knows. That is why Stuart's Charcoal Lozenges are so quick to stop all gases and odors of odorous foods, or gas from indigestion.

Don't use breath perfumes. They never conceal the odor, and never absorb the gas that causes the odor. Besides, the very fact of using them reveals the reason for their use. Stuart's Charcoal Lozenges in the first place stop for good all sour brash and belching of gas, and make your breath pure, fresh and sweet, just after you've eaten. Then no one will turn his face away from you when you breathe or talk; your breath will be pure and fresh, and besides your food will taste so much better to you at your next meal. Just try it!

Charcoal does other wonderful things too. It carries away from your stomach and intestines, all the impurities there massed together and which causes the bad breath. Charcoal is a purifier as well as an absorber.

Charcoal is now by far the best, most easy and mild laxative known. A whole boxful will do no harm; in fact, the more you take the better. Stuart's Charcoal Lozenges are made of pure willow charcoal and mixed with just a faint flavor of honey to make them palatable for you, but not too sweet. You just chew them like candy. They are absolutely harmless.

Get a new, pure, sweet breath, freshen your stomach for your next meal, and keep the intestines in good working order. These two things are the secret of good health and long life. You can get all the charcoal necessary to do these wonderful but simple things by getting Stuart's Charcoal Lozenges. We want you to test these little wonder workers yourself before you buy them. So send us your full name and address for a free sample of Stuart's Charcoal Lozenges. Then after you have tried the sample, and been convinced, go to your druggist and get a 25c box of them. You'll feel better all over, more comfortable, and "cleaner" inside.

Send us your name and address today and we will at once send you by mail a sample package, free. Address: F. A. Stuart Co., 50 Stuart Bldg., Marshall, Mich.
