LETTER FROM DAWSON CITY.

Unfair Administration of Mining Laws—High Prices.

The following extracts are from a letter dated at Dawson City on January 1st, 1900, written by Daniel McKenzie, son of Murdoch McKenzie, of Elliott's Station. They will be read with interest by his many friends on the Island. Mr. McKenzie is a much-travelled young man having spent a number of years in the Western States and Massachusetts. He also lived for three years in the Transvaal and bore arms during the Jameson raid. From the standpoint of a man who has had experience in both, his reference to the mining laws of the Yukon and those who administer them throws a strong light on the manner in which the Department of the Interior has abused the trust committed to their keeping. He says:—

"I think Bastera Canada must now be rid of a large number of their political thieves judging by the number they sent out here to run this Territory. The fact of the matter is the government that sent them cannot be much better than themselves. I do wish that when the British are through fighting the Boers they will come out and settle some of the rascals we have here. The mining laws of the Transvaal were never worse, nor British subjects more unfairly treated there than they are here under this purist government of ours.

"Unless you have a pull with the officials, and the pull usually means money, you are not in it at all. If you stake a claim that is thought to be promising some of the officials friends are sure to be after it and you are sure to be humbugged at the recording office until eventually you are told your claim has been recorded by some other party. So you see the poor miner is often made the victim of those who ought to be his protectors.

"Even the rivers are leased to pets of the government, and in many cases the driftwood has to be bought at extortionate prices from men who have no more legal right to it than those they sell it to.

"If you had your cattle out here there would be money in them. I saw one milk cow sold here last spring for eleven hundred dollars. I know you will find this hard to believe, but it is true. The first eggs that came in here last spring sold for eighteen dollars per dozen, and potatoes one dollar per pound. So you see it costs something to get fat here.

BRITAIN IS AT WAR.

British Subjects Warned Against Trading With the Enemy.

OTTAWA, Feb. 2.—A dispatch has been received from the Colonial Secretary, dated January 17th, containing a formal proclamation that Britain is at war with the South African Republic and the Orange Free State and warning British subjects against siding with either of the republics or trading with them or with any persons resident therein, while hostilities are in progress.

The proclamation is of general application to British subjects all the world over, and to foreigners residing or engaged in commercial transaction in the Queen's dominions, hence the Colonial Secretary requests due publicity be given to the proclamation in Canada. It will, therefore, appear in the Canada Gazette tomorrow.

HOMERULE FOR FILIPINOS.

The Philippines Commission Recommends Self-Government.

NEW YORK, Feb. 2.—A survey of the first half of the report of the Philippines commission, as submitted to the president, is published here. The committee believes it would be safe and expedient and desirable to grant to the inhabitants of the Archipelago home rule in local affairs. The towns should enjoy the rights and privileges of towns in territories of the United States. The provinces should be turned into counties with the same functions as counties in the United States.

ESTEEMED EXCHANGES.

Ottawa Journal: British Columbia's contingent, which is to travel to South Africa on the hay steamships, is in some danger of being christened the mounted hayseeds.

Mail and Empire: It is not Ladysmith alone that is waiting to be relieved by Buller's troops, but the whole British world. Once the gallant garrison is freed, the outcry against the chief officer commanding in Natal will cease, and everybody will feel better.

Hamilton Herald: The vice of drunkenness is checked by the growing tendency of employers to refuse employment to men who drink. Perhaps the vice of gambling can test be checked in the same way.

DIED.

At French River, after an illness of two months which she bore with true Christian patience and resignation to the Divine Will, Mary, widow of the late Thomas Feehan. Deceased had led a most Christian life, and consoled by the last sacraments of the holy church she passed to her reward on the 26th of January, 1900, at the advanced age of 72 years, leaving a large family of sons and daughters, and acquaintances to mourn the loss of a good mother and friend. May her soul rest in peace.

Local and Other Items.

TRICKS IN ALL TRADES.—An elderly woman from the country recently played a pretty sharp trick on one of our storekeepers by bringing her late husband's darned socks to town and palming them off as new ones.—Bridgewater Enterprise.

A NEW IDEA.—Centralia, Mo., has a flourishing organization known as the "Backbone Club." It has neither sign, grip nor password, a local paper says, but every member must sign a pledge that he will not use tobacco during 1900. The rules provide that if any member shall break his pledge he must wear on the lapel of his coat a badge bearing in large letters the words: "I Have No Backbone."

FOR WHOOPING COUGH.—To six quarts of cold water add one ounce of aqua ammonia, and immerse in this a brick heated quite hot. Use a wide tin pan. Do this at bed time in the sleeping room, which should be previously well ventilated. Let the sick inhale the ammonia vapor by nose and mouth, holding the face close over the pan, and continue to breathe the charged air of the room through the night. Several repetitions of this will cure the most distressing case.

WILL SPEAK NO EVIL.—In Springfield, Mo., there has recently been organized a woman's society, every member of which has to sign the following agreement: "I do hereby solemnly pledge my word to speak no evil of any woman, whether such report be true or not. Any violation of this pledge, however, does not release me from its subsequent obligations, which are to continue for all time to come." The touching admission of a probable lapse from the pledge is amusing, but it is respectable because it is honest.

A JOURNALISTIC MISHAP.—Editors have their troubles. One of these men who presides over the destinies of a Western newspaper is mourning the loss of two subscribers. One wrote asking how to raise his twins safely, while the other wanted to know how he might rid his orchard of grasshoppers. The answers went forward by mail, but by accident the editor put them into the wrong envelopes, so that the man with the twins received the answer:—"Cover them carefully with straw and set fire to it, and then the little pests, after jumping in the flames for a few minutes, will be speedily settled." And the man with the grasshoppers was told to "give castor oil and rub their gums with a bone."

RAILROAD KIDNEY

A Disease Peculiar to Railroad Men, which is readily Cured by
Dr. Chase's Kidney-Liver Pills.

Did it ever occur to you that most railroad men die of kidney disease?

Such is the fact, however, and the disease is known among railroaders as "railroad kidney."

The first and most marked symptom is a weak, lame and aching back. You may think at first that you are only tired; but as this trouble increases day by day, kidney disease, with all its terrors, is fast claiming you as a victim.

Mr. Geo. Cummings, for over 20 years engineer on the Grand Trunk running between Toronto and Allandale, says: "The constant duty with my work gave me excessive pains in my back, racking my kidneys. I tried several remedies until I was recommended by my friend, Mr. Dave Conley, to try Dr. Chase's Kidney-Liver Pills. Two boxes have completely cured me and I feel to-day a better man than ever. I recommend them to all my friends."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c. a box, at all dealers, or Edmanson, Bates & Co., Toronto.

THE DEATH BADGE.

Is Spared to Many a Home. Because Dr. Agnew's Cure for the Heart Never Fails to Cure Heart Disease—Relief in 30 Minutes.

The pall of death has hovered over many a diseased heart, looking for the last flicker of the candle, and Dr. Agnew's Cure for the heart has stepped between the patient and the grim hand, and nursed the sufferer back to perfect and permanent health. Thos. Petre, of Aylmer, Que., had heart disease for five years, was unable to work. The doctors gave him up to die many a time. Dr. Agnew's Cure for the Heart gave him relief in thirty minutes, and four bottles cured him. For sale by Dr. S. W. Dodd and Geo E Hughes

Simplicity is one of the first laws of greatness, and another like unto it is humility.

Startling Confessions

Show that 25 per cent. of men and women suffer the tortures of itching piles. Investigation proves that Dr. A. W. Chase's Ointment has never yet failed to cure itching piles, and all of these men and women could end the sufferings at once by using it. Scores of thousands have been cured by this treatment. Everybody can be cured in the same way.

Love should give wings to the feet of service, and strength to the arms of labor.

Minard's Liniment Cures Burns & scald

The best way of evenging thyself is not to become like the wrong-doer.
