

Gay's Seeds are the Best

Why are Gay's seeds the best? Because they are practical market gardeners and a whole life time of successes and quite often failures (for mistakes and failures lead up to success) places them in the best position possible to grow and import seeds suited to our climate. They make a specialty of vegetable seeds including mammoth, mangel, turnip, carrot, parsnip, beet, and like the great Peter Henderson, seedman of New York, their seed can only be procured directly from themselves. They are starting extensively vegetable and flower plants for June and July planting, (some hardy plants ready in May.) Their tree department includes some handsome lime, horsechestnut, elm, weeping willows, plum, apple, cherry, gooseberry, currant, and hardy shrubs. Call at the market or write for prices. Address J. J. Gay & Son, Nursery Gardens, Charlottetown. Telephone 180.

At Green Vale, May 1st, Mary McIsaac, beloved wife of Joseph McIsaac, aged 62 years, leaving 7 sons and three daughters to mourn the loss of a kind and affectionate mother. Rest in peace.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There is not anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies out.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

The Family Question of the Day is how to get Boy's Clothing that wear well.

We believe that parents cannot be too particular about the styles of clothing they put on their boys. Children are very sensitive about their appearance. Cultivate this taste; they will be better men and women. Our clothes please the boys.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.

PROF. MELVILLE B. BUCKLEY, Instructor Boston Dental College, Boston Mass

In view of the vast amount of injury done to the mouths of wearers of other or vulcanite plates, by the retention of undue heat, owing to the non-conductibility of rubber, and as aluminum is now so cheaply produced, and making as it does a rigid, light, clean, unobjectionable plate, there seems to be no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. HASKELL, D. D. S. Chicago Dental School

The above quotations are from hundreds of eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber. Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of Gold, Platinum, Aluminum.

As a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate. We have testimonials from persons for whom we have made plates—not one would wear an ordinary plate again. You see your impression taken, and a metal plate made same day, guaranteed because we make them ourselves, and know all of the material used. Call and see specimens of our work. Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.

Croup Quickly cured.

Mrs. J. Sims, Mt Pleasant, Vancouver, B. C. writes:—If there ever was a never-failing remedy for a disease, it is Griffith's Menthol Liniment for croup. We have frequently administered it to our children, even the baby, and never knew of its failure to cure in a few minutes. No home should be without it. 25 cents at drugists.

The two Matabele boys who have been brought over to London for the Greater Britain Exhibition are greatly impressed by London. They cannot understand the tall houses—how the white man manages to pile him on top of him—and they were very anxious to see the Queen's hut, and greatly impressed by the hut at Westminster where England guards her sacred dust.

PROVIDER NO. 23968.

RECORD, 2.21 1/4

By Preceptor, sire of Nalgregor, 2 1/4 at 4 years, and five others in 2.30 list, dam Lili, dam of Dot, 2.18, and grandson of Kicksap, 2.16, by Dean Swift, sire of 10 30 list.

PROVIDER is so well known to the public both as a trotter and race horse, that his little need be said of him. At the trotting meeting held at Charlottetown last September, he started the first day in the 2.25 class, and won in three straight heats, making the fast time of 2.22, 2.21, and 2.27. The next day he started in the free for all, and won in three straight heats, time 2.22, 2.23 and 2.24, trotting every heat in the two races but one, in 2.25 and better, without making a break or mistake, beating such fast ones as Arlight, 2.19, and Montrose, 2.20.

Persons who may not desire to breed trotters will please take notice that Provider has the superiorly good high knee action, so desirable in roadsters, and carriage horses. These qualities combined with his fine breeding, large size, good color, and disposition, make him a sufficient recommendation to insure patronage.

Provider will make the season at John Conner's stables opposite the Opera House—Terms \$10.00 for the season, with annual return privilege if mare is not in foal.
