(Continued on page 14)

For 1963, Rambler leaps years ahead with 'Uniside' construction to bring striking new beauty to the Rambler Classic

For 1963, Rambler brings you the most revolutionary automotive engineering advance in years—new "Uniside" construction. Twenty-three years ago, Rambler pioneered Single-Unit construction (we welded the entire car into a solid structure). This method gave Ramblers added strength and put an end to body-bolt squeaks and rattles. It made all other assembly methods old fashioned. Remember this was twenty-three years ago, yet the rest of the industry is just beginning to catch up.

Now, Rambler again leaps years ahead! Exclusive new "Uniside" construction is an entirely new way of building cars. This year, we're stamping the complete side out of single sheets of steel! It gives you even greater body strength, longer car life, perfect and uniform door openings with vastly superior weather-sealing. In addition, "Uniside's" outer layer is completely galvanized for increased rust protection. This feature, together with our exclusive Deep Dip process, makes Rambler the world's most completely rustproofed car.

"Uniside" brings yet another bonus to the Rambler Classic Six—striking new beauty! This year, the car is lower, with the same generous interior dimensions. Side windows are new curved to give added spaciousness (a touch of beautiful luxury found on few other cars in the world). Chair-high seats, in a new variety of colours and quality fabrics, are still a major comfort feature. Mounted, one-piece floor coverings have been added while the Cushioned-Acoustical ceiling remains a Rambler exclusive.

Other new Rambler features include an alternator which charges even while the engine is idling to keep your battery at full-strength for better performance. A new three-point engine mounting eliminates vibration and noise. A longer wheelbase gives an exceptionally smooth and quiet ride. Standard Rambler features that are still exclusive are the improved Ceramic-Armoured muffler (guaranteed for as long as you own the car), a two-year guarantee on both the battery and coolant, and the Double-Safety brake system.

For those who are looking for great-tasting luxury and performance, the new 1963 Rambler Ambassador V8 is an unusual value. With all the features of the Classic Six it has one of the best weight to horsepower ratios in the industry for outstanding performance. And you'll be surprised at its new low price.

Once again we've produced a car designed primarily for maximum usefulness to the user—with Rambler's proven performance, dependability and economy. Take a test drive in a new Rambler Classic Six or Ambassador V8 at your Dealer's soon. Prove to yourself that they are the most beautiful, most practical cars ever designed for the Canadian motoring public. And if you're in the market for a compact car, see the new 1963 Rambler American Six—the lowest priced Canadian car you can own.

AN INVITATION

TO THE
PEOPLE OF PRINCE EDWARD ISLAND
WOMEN'S INSTITUTES, ALL OTHER
WOMEN'S GROUPS OF THE ISLAND

to attend a

HOME INDUSTRY AND HANDCRAFT DEMONSTRATION

on
Wednesday and Thursday, October 10th and 11th
at
Birchwood High School, Charlottetown
Hours 2.00 to 5.00 P.M. each day
7.30 to 10.00 P.M. each evening

This demonstration is for people who have an interest in learning a handicraft in order that they may supplement their incomes by making gift items at home for sale during the tourist season.

YOU WILL SEE actual demonstrations of skilled work being done in weaving, wood-turning, textile painting, craft jewellery and leather tooling.

YOU WILL ALSO SEE displays of drapery materials, floor rugs, tapestries, dress and blouse materials, correspondence cards, handicraft furniture and pottery.

YOU WILL HAVE A CHANCE to indicate if you would like to be trained by a skilled craftsman in one of these fields.

ALL DEMONSTRATIONS WILL BE given by persons associated with the Arts and Crafts Division of the Department of Industry, Province of New Brunswick.

ALL ARE WELCOME

This program is under the auspices of the Department of Tourist Development and the Resources Development Program with the kind co-operation of the Department of Industry of New Brunswick.
