such as never before was dreamed of there, and ever and anon the crash of falling timbers and the fierce roar of the conflagration mingled with the hissing water poured on from the steam-engines and the cries of the firemen as they struggled to obtain an entrance. The cross on the wall fronting Mulberry street seemed like the cross that beaconed Constantine on to victory, or that of St. Peter's during Holy Week. The flames played around it, beneath it and above it, wreathing it with a fiery halo and revealing distinctly every line and carving on it.

The wooden towers on Mott street soon fell in; the flames caught new life from their wreck, and leaped higher than ever. Showers of sparks filled the air, and drifted along the streets like falling stars, making the vast crowd shrink back as the blazing fragments fell at their feet. Writhing like serpents between the pipes of the organ, playing along its keys in mockery of the tate to which they were subjected, the flames reduced to a mass of cinders one of the noblest institutions in New York. Again they danced above the grand high altar and it crumbled beneath them. So unusual was the origin and so sudden the destruction that but few people but those in the immediate vicinity knew of the fire.

A few individuals connected with the church, observing the fire, climbed up a narrow stairway in the belfry, which allowed the ascent of but one at a time upon the roof, and at the risk of their lives, attempted to extinguish the incipient conflagration with buckets of water. Their efforts were of no avail. Half an hour afterwards a portion of the Fire Department arrived upon the scene, but the roof was then a mass of flame, and it was apparent that the destruction of the old Cathedral of the Province of New York was inevitable.

Great efforts were made by the clergy, teachers and officers of the church, aided by the parishioners, to save the sacred vessels and vestments. These were of considerable value, being worth not less than $20,000. One set of vestments saved were brought from Paris by the Archbishop, and were worth about $3,000. To the Catholics of this city, this old church is endeared by many sacred memories, not the least of which is the circumstance of its containing the remains of the late lamented Archbishop Hughes. Besides this, it contained the remains of the Right Rev. Drs. Concanen, Conolly and Dubois. Great efforts were made by the department to preserve the tombs of these departed prelates, and it was hoped their efforts would be successful. Many fine frescoes, works of American and foreign artists, were necessarily destroyed, and a very fine painting of the Crucifixion, by an American artist. The pulpit is said to have been one of the finest in America, and the sacristy it is said would hold more clergymen than that of any church in the United States. The church itself, it is estimated, would seat about three thousand people.

HISTORY OF THE CHURCH.

St. Patrick's Cathedral was built in the year 1811 by Bishop Dubois, being the second church erected in this city. Archbishop Hughes made considerable additions to it in 1838. It was one of the old landmarks of New York, and endeared by many recollections.—Besides containing the remains of three bishops and one archbishop, in it has been witnessed the consecration of many others.—There were very many splendid frescoes and paintings by American and foreign artists, the archiepiscopal throne, valued at $500, and other invaluable works completely destroyed. Fortunately the archives of the church, not being kept in it, were thus saved.

Archbishop McCloskey and Father Starrs were both absent from the city, having left for Baltimore to attend the Plenary Council.—They were at once telegraphed to about the sad event. At two o'clock this morning the fire had considerably lessened in fury, and now nothing remains of the venerable, stately and revered Cathedral but blackened walls and smouldering ruins. The insurance on the Church amounts to $75,000, mostly in the Bowery Insurance Company.—*New York Herald.*

IMPERIAL GUARANTEES.

We understand that Her Majesty's government have agreed to give the Imperial guarantee for a sum of £4,000,000, to be raised on the security of the revenues of the confederated colonies of British North America. Of the sum to be thus raised, £3,000,000 is to be applied to the long-talked of Intercolonial Railway between Halifax and Quebec, or rather with the junction of the line with the Grand Trunk at Riviere du Loup. The remaining £1,000,000 is to be applied by the confederated government to the purchase of the territorial rights of the Hudson Bay Company, leaving to that company still the right of trading over the territory, and holding the trading posts which are necessary for carrying on its trade. The delegates from Canada are expected in England daily to complete the arrangements with Her Majesty's government. The governors of the Hudson's Bay Company are, we believe, prepared to recommend to the proprietors the acceptance of the £1,000,000 as the purchase money of the territorial or sovereign rights which they hold under their charter. We are also informed that the claim of the company against the United States government, arising out of the Oregon question, is likely to be settled, and that the amount to be received under this head will be somewhere about £250,000.—*Railway News.*

GREAT FIRE IN QUEBEC.

This year will be notable for the number and destructive nature of the fires which have occured during its reign. To say that families, as in ordinary cases, have been thrown homeless and destitute upon the tender mercies of the world, would not be saying enough, as, this year, the sufferers are not to be numbered by units, but by hundreds, yea even thousands. Some of these calamities have occurred outside of our dominions, and, creditable to relate, have commanded no small amount of sympathy among our fellow lieges. Some have occurred in our midst, but not of quite such a substantial nature. Nova Scotia and Prince Edward Island have both been hitherto subjected to the lash of the destroyer, and Lower Canada has been visited by one of the most destructive conflagrations within the records of recent years. On Sunday night a fire broke out in the suburbs of Quebec known by the name of St. Roch and St. Sauveur, which continued its ravages till the whole district west of Crown Street to St. Sauveur Toll Gate, a distance of nearly a mile, including 17 churches and convents, and somewhere about 2,500 houses, have been utterly destroyed. The number of persons rendered homeless by this fearful scourge, and at this inclement season, has been estimated at upwards of 20,000; and the loss of property at nearly $3,000,000.

The loss of the steamer *Evening Star* has caused great excitement in New York, New Orleans, and Savannah. Seven additional passengers had been picked up, making in all seventeen saved, out of three hundred. The ship was valued at $500,000, but not insured. Her cargo is estimated to have been worth half a million of dollars, or more; that was insured. Although there is no apparent hope that the *Evening Star* will ever be heard from again, a few in New York express confidence that it will be otherwise. Experienced seamen, however, are not among this class.

Mr. A. T. Stewart, of New York, is about to do something in the Peabody style. He proposes to devote a million of dollars to the erection of cheaply rented commodious dwelling-houses for the working classes, the rents to be applied to the extension of the enterprise, and he asks the Corporation of New York for a site. If the site is not granted he will purchase it and go on with the enterprise, deducting the purchase money from the million of dollars, and thus leaving him so much less for this noble project. Mr. Stewart is a native of the county Tyrone, Ireland.

WILLIAM DODD, Sec'y and Treas.

Charlottetown, Oct. 19, 1866.

SUDDEN DEATHS.—A man named James Whyte, belonging to Johnston's River, and who left home for Southport to sell sheep, on Thursday, the 4th inst., was picked up in a dying state on Lot 48 Road, near the residence of Mr. Robinson, on Friday, the 5th. Shortly after being removed to Mr. Robinson's house he died. He was insensible from the time of being discovered until he expired. He left Coady's Public House—where he had been all night—about 10 o'clock on that morning, in a gig, in company with one William Lord, of Harbor's Mouth. Lord was on his way to Rasa on business, and as Whyte was to take that route on his way home, Lord agreed to give him a ride that far. From the evidence before the Coroner's Court, it appears that both had taken two glasses of liquor previous to leaving Coady's; but whether they drank any considerable quantity between that and the place where Whyte was found—a distance of about two miles—is not known. However, it seems strange that in so short a time both could have become so drunk—as Lord would have the Court believe—that Whyte could fall out of the gig without the knowledge of Lord. The latter proceeded on to Rasa, transacted his busidess, and on returning, a girl who was with him discovered Whyte lying on the road with his back broken. The case is a mysterious one, and ought to be fully investigated.

A young man named Sheehan, belonging to Rollo Bay, was killed at Moore's Shingle Mill, on Friday last. He was in the act of oiling a portion of the machinery, when, unfortunately, the sleeve of his coat caught in the cogs, which dragged him in among the wheels, and so injured him that he died shortly afterwards.—*Herald.*

TEN REASONS WHY.

Hostetter's Stomach Bitters.

SHOULD HAVE A PLACE IN EVERY HOME.

BECAUSE, by invigorating the constitution and the frame, they *avert sickness*.

BECAUSE (*especially*) their use prevents the atmospheric poison which produces *epidemics* from taking effect upon the system.

BECAUSE they cure *indigestion*, and impart unwonted vigor to the *stomach*.

BECAUSE they are the best *appetizing medicine* at present known.

BECAUSE they are the only preparation upon which persons of a *bilious habit* can safely rely to *keep the liver in good order*.

BECAUSE they *tone* and *regulate* the bowels, and invariably relieve them when constipated, without causing undue relaxation.

BECAUSE they *strengthen the nerves*, clear the brain, and cheer the animal spirits

BECAUSE in case of an attack of spasms or bilious colic they are the best thing that can be administered on the instant.

BECAUSE they combine the three properties of a tonic, an alterative, and a nervine in their utmost purity and perfection.

BECAUSE they are a specific against Ague and Fever, and all intermittents, and with all their potency as a preservative and a remedy, are as *harmless as water from the mountain spring!* —Oct. 22. 2m

HOLLOWAY'S PILLS.—Successful Results.—After persons have been suffering for years under the direst diseases, these wonderful remedies have often come to their rescue. Cures of ulcers, sores, inflammations, abscesses, and scrofulous disfigurements, derived from the use of Holloway's noble curatives may be cited by thousands, and many volunteered testimonials of their efficacy abound in the home, colonial, and foreign newspapers. A little faith only is wanted to give these medicaments a trial, which will suffice to prove their salutary powers and lead to their future adoption. Holloway's Pills overcome disease and restore strength by purifying and improving the quality of the blood. Holloway's Ointment heals ulcers and fills up abscesses, by forming firm and healthy granulations.

WE REGARD MRS. WINSLOW'S SOOTHING SYRUP as invaluable for the purposes for which it is designed, and would have it if its price were double what it now is. We shall do all in our power to introduce it among our friends and acquaintances.—[Henry A. Hitchcock, Sturbridge, Mass.] It relieves the child from pain, softens the gums, reduces inflammation, cures wind colic, and sure to regulate the bowels; gives rest and health to the child and comforts the mother.

MOTHERS TAKE HEED.

Thousands of children perish annually from one cause, and that is from worms. Why will you neglect the first symptoms of these pests of humanity, and wait until it is too late before you administer the remedy? JUDSON'S WORM CANDY is the only *PURELY VEGETABLE* Remedy in existence. If there are no worms, it only acts as a gentle purgative, and cannot harm an infant. IF WORMS EXIST it kills them. Every family should have a package of JUDSON'S DEAD SHOT WORM CANDY in the house. Sold by all Dealers. *Get our Almanac.*

PORCELAIN PICTURES

ARE now taken at our Gallery, the only place in the Colony where they are taken. These are the Portraits that of late have caused such excitement all over Europe and America; and no wonder, for they are truly wonderful specimens of art, and are destined to supersede every other style of Portraiture. For beauty of tint, and harmony of light and shade, there is nothing in the world to equal it. They are done on Porcelain, and are indestructible, rivalling gems of the first water.

I respectfully invite all who can appreciate to see specimens now on view at my studio.

COTTON WARPS!

WE would request the attention of those who use COTTON WARPS to the kind of which we are now Manufacturing at the

New Brunswick Cotton Mills.

We spin Nos 7's, 8's and 9's and they are warped and sized by Machinery, thus saving much labour, and being better done than by hand.

They have been extensively used through the Province during the last year, and have been proved to be both better and cheaper than any imported from either England or the United States.

We intend to manufacture them largely for the next few months, and would wish parties in want of such Goods to give them a trial.

They can be obtained from the principal Dry Goods Houses in the City and throughout the Province.
