Farm Prices & Market Report

From the weekly report by Mr. W. R. Shaw, Deputy Minister of Agriculture:

In the United States the potato market is very quiet with no life. In both Canada and the United States everybody seems to be saving wood and desperately holding out to the minimum price. Seed demand is not too frisky but may develop a little later. 67 million bushels have been taken off in the United States under Price Support and a lot of the action in this respect is in Maine. It is stated that the Spanish Government is in the market for another large order but I do not feel that it is worth bothering with. This country is shopping around and no doubt will place its order in Europe. A small quantity of potatoes has gone through to Israel out of Maine.

The movement of potatoes during the past week has been limited to 178 cars and has been limited, and as already stated, to make matters worse the price of bags has jumped approximately ten cents for 75's and fifteen cents for 100's. We hardly know whether the market can be raised to take care of this extraordinary cost. The whole situation is a bit cloudy this week. The Marketing Board reports that further representations on potato support will be made to Ottawa during the coming week.

The following is the detail: There is no movement of potatoes from Tignish, Wellington, Montague, Cardigan, and Murray Harbour. At O'Leary Sebago seed is 50c per bus.; tablestock 58c per 75 lb. bag. On the Borden Line a few are moving in paper packages at 60c per bag. At Colville and Wiltshire there is a fair movement in Cobbler Seed at 85c per cwt. at warehouse or car; tablestock 55c per bag. Charlottetown — tablestock 55c per bag; Cobbler Seed 50c per bus. Other varieties 44c. Turnips 40c-45c. Vernon River, Morell, Elmira 55c per bag for tablestock with seed 50c per bus. for Cobblers at Morell; 47c at Souris for Katakandis; and 44c at Elmira with Cobblers at 50c.

Eggs

The production of eggs on Prince Edward Island is increasing. Receipts last week were exceptionally heavy for the season, this being due to some holding of eggs on the part of producers. The quality of eggs is good and all available supplies are moving to Maritime consuming centers. There has been no change in prices and operators of grading stations are quoting producers for ungraded eggs Grade AL 46, AM 44, AP and B 38-9, C 29-31. Dealers are quoting station operators for the graded pack f.o.b. station AL 50, AM 48, AP and B 43, C 35, and offering this pack to retailers at AL 55, AM 51, AP and B 46. Eggs retailing to consumers at Grade AL 57-65, AM 60, AP 53-4, B 50-4. Poultry receipts are light. Prices remain unchanged.

Dairying

An increase of seven cents per pound has taken place in butter in the eastern part of Canada during the past week.

In Nova Scotia the factory price f.o.b. Halifax is quoted at 68c with local jobbing at 70c.

The Montreal market is now quoted for current receipts Quebec No. 1 solids pasteurized, fresh, delivered Montreal 70c per pound.

In New Brunswick creameries to wholesalers, one and two pound flats, 68 1-2c; wholesale to retail stores 70c. In Charlottetown the price advanced also in sympathy with that of other provinces and the wholesale price is now being quoted at 68 1/2c f.o.b. Charlottetown; local jobbing 70c.

For some time past there have been reports that creamery butter in Ontario and Quebec centres had reached 75c to 80c per pound but the Eastern Canada markets were kept consistently lower than other provinces. Finally it became essential to adjust our price with that of other Provinces as the distribution of the New Zealand butter in the Maritimes was rather disappointing. Practically all the imports of this commodity went West making it impossible to secure further supplies from this source.

It is very probable that there will be a temporary shortage of butter in the Dominion as the imports from New Zealand will not be sufficient to supply our increased demand throughout the period of low production. From now on the creameries in the Maritimes will, therefore, be obliged to depend on cream shipments to supply the trade with butter.

In addition to this there is a serious drop in production amounting to an average of 25 per cent for New Brunswick during February with some creameries running as low as 30 per cent. A 25 per cent decrease in Nova Scotia and a 21 per cent decrease in Prince Edward Island for the same month compared with a year ago. Under present circumstances it becomes essential to pay higher prices to producers for butter-fat to encourage better feeding prac-

tises and closer attention to dairy herds. Production must be increased but it will not be unless the price is increased; hence the market results of the past week.

Feeds

Feeds are still on the up and up. No. 1 feed barley is \$3.43 1/2, carlot, bulk. No. 1 feed oats is \$3.21 1/2 and No. 5 tough wheat is \$3.09 1/2. Oilm meal is very scarce at \$5.25 per hundred. Just think of it! Bran and shorts are \$56.00 per ton. 44 per cent soybean meal is \$107.00 per ton. And take a look at beet pulp that we used to buy for \$16.00 to \$17.00. It is now \$75.00 per ton. There are 6,000 cars on order at Fort William for feeds and about 120 were loaded last week. That gives you some idea of the feed situation.

Again, farm producers, look to your own farm and see if you cannot plan something this year that will give you a greater quantity of livestock feed. Again, too, watch your seed grain and do not buy feed grain for seeding purposes. Hay is ranging around \$18.00 to \$20.00 per ton.

Livestock

Livestock prices are just about the same as last week, but at both Charlottetown and Moncton some changes have taken place in hogs, which are up 25c; and sows are down 50c at Moncton and up 50c at Charlottetown.

Moncton on the 12th, was stronger with steers at \$34.00; cows 28.00-27.00; good bulls 28.00-29.00. Grade A hogs were 34.00 and sows 27.00-28.00.

The following is the detail for the Maritimes:

Hogs at Moncton: Grade A 34.00; B1 33.00. No. 1 sows 27.50; No. 2 26.50 hot dressed weight delivered.

Hogs at Charlottetown: F.o.b. country points. Grade A 33.00; B1 32.00. No. 1 sows 26.50; No. 2 25.50.

Cattle at Moncton: F.o.b. country points. Steers: Choice 29.00; good 26.00; medium 26.00; common 22.00 to 24.00. Heifers: Choice 28.50; good 27.50; medium 24.50; common 21.50 to 23.50. Cows: Good 23.25; medium 22.00; common 19.00; canners and cutters 18.00 to 18.75. Bulls: Good 23.00; medium 22.50; common 19.50.

Cattle at Charlottetown: Delivered to plant. Steers: Choice 28.50; good 27.00; medium 25.00; common 20.00 to 23.00. Heifers: Choice 27.50; good 26.50; medium 24.50; common 20.00 to 22.50. Cows: Good 23.00; medium 20.00; common 18.50; canners and cutters 16.00 to 18.00. Bulls: Good 23.00; medium 21.00; common 19.00.

Calves at Moncton: F.o.b. country points. Choice 28.00; good veal 26.00; medium 25.00; common 22.00; grassers 19.00 to 20.00.

Calves at Charlottetown: Delivered. Choice veal 27.50; medium 24.00; common 20.00; grassers 18.00.

Sheep at Moncton: F.o.b. Good 15.00; down to 8.00 for common. Rail Grade 36.00 for A grade.

Sheep at Charlottetown: Good and choice 15.00 alive. Rail Grade 36.00 Grade A up to 70 lbs.

Lambs at Moncton: F.o.b. Good and choice, alive, 27.50. Rail Grade 66.00 delivered for Grade A1.

Lambs at Charlottetown: Delivered. Good and choice alive 27.50; Rail Grade 66.00 Grade A.

"Where Old Friends Meet"

flat on one's face

"Know-how" is a popular phrase in these times — the western nations' industrial know-how is said to be their greatest hope. But it is not enough to know how to do a job. Doing it is what counts. Between knowing and doing there are usually a surprising number of opportunities for falling flat on one's face.

The textile industry in Canada, of which Dominion Textile is a part, has been practising for over a century to avoid falling flat on its face. While learning its job and doing it, the industry has become the largest employer of manufacturing labor in Canada and the payer of the largest manufacturing wage bill.
