MoSport Club Holds Gathering

A regular meeting of the P.E.I. MoSport Club was held recently at the Y.M.C.A. A record turnout marked this meeting. The program was highlighted by two racing films (not racy).

It was decided that to foster and retain interest and participation it would be advisable to hold meetings every second Monday rather than once a month. The next meeting is scheduled for February 21 at 8:00 p.m. at the Y.M.C.A., the usual time and place. At this time the club makes a plea and an invitation to all people, young and old, male and female, car owners or not, whose interests can be peaked as to what Motor Sport and Rallies are all about. Beginning Monday night, February 21, the club will embark on a three-part course on rallying dealing chiefly with navigation. The title of the rally school is "Keeping on the Road, the Route, and Time." This rally school is identical to the one given in Montreal in April of 1965. The material has been prepared by a host of rallying experts in co-operation with the BP Rally and Racing Drivers Club. The club asks that interested inquiries be directed to Alan Rod at 894-5007 in the evenings, 894-3752 during the day, or to P.E.I. MoSport Club, P.O. Box 172, Charlottetown.

Nickel stainless steel sinks are manufactured by American-Standard, KIL, Ronfrew Aircraft and Wescon Plumbing.

If your sink is all washed up

Because it stains easily, or has cracked or chipped, or is hard to clean, consider one made of nickel stainless steel. A nickel stainless steel sink won't stain, chip or crack; and it's easy to clean and keep sparkling clean. Sinks are just one of the many modern products made of nickel stainless steel. And in all of them, nickel's contribution is quality.

The International Nickel Company of Canada, Limited, 55 Yonge Street, Toronto

NICKEL is the hallmark of quality in stainless steel.

Look for products carrying this 18-8 seal which indicates a nickel content of approximately 9%.
