FUGITIVES SINCE 1920 CAPTURED

SYDNEY, May 27.—After being fugitives from justice for over eighteen months three brothers, Alf. John and Murdock McLellan were arrested Thursday afternoon by Sergeant J. P. Blakeney, and Constable A. Cook of the Royal Mounted Police and were today lodged in the county jail here charged with assaulting passengers and raising a general roughhouse on the Coastal Steamer Aspy in November, 1920. A man named McEachern is wanted on the same charge but is still at large.

BELFAST, May 27.—The Ulster Association sent a message to Mr. Winston Spencer Churchill, Secretary for the Colonies, remarking that the Catholic Protection Committee in its telegram to the Secretary early in the week, telling the number of Catholics murdered, did not refer to the Protestants murdered.

Between May 22 and 26, the message says, ten Protestants were killed and several others threatened with death. The premises of eighteen Protestant farmers were also set fire to.

DECIDES TO LIVE NOW

PARIS, May 26—Crazy with the heat, a young workman called Helmer threw himself into a canal. Saved by a boatman, Helmer went home, changed his clothes, and straightway went and jumped into the River Moselle. He was again pulled out. Helmer's parents thereupon locked him in his bedroom but he jumped from the second storey window to the street, went into a nearby wood and hanged himself to a tree. A special providence, however, must have been watching over Helmer for just in the nick of time a passer-by saw him and cut him down. Perseverance then seemed to abandon him and Helmer announced his intention to give it up, at least for the time being.

AN AERIAL AMBULANCE

PARIS, May 26—Two French military airmen, Lieutenants D'Oysan and Heurtier, engaged in a reconaisance of Southern Tunis, landed at Bengardine, a small station, where they found the wife of a local French official dangerously ill, the only hope being an immediate surgical operation. The officers at once transformed one of their airplanes, improvising a couch therein. The invalid was thus hurried to the city of Tunis, where they landed her safely in a hospital after a five hours' flight. The operation was performed successfully on the same day.

Washington Studying The Dom. Budget

WASHINGTON, May 27.—The fact that the budget brought into parlament at Ottawa ncreases the British preference on a large number of articles, ostensibly imported into Canada has not escaped the notice of members of Congress, and officials in Washngton, who are following tariff bill developments in Congress closing. Opponents of the high rates in the pending United States tariff declare increase of British preference is the inevitable effect of the tariff policy which is being shaped by the higher protectionists of the United States, and that it is in fulfillment of their predictions that the proposed tariff law here will drive trade away from the United States and hurt United States industry instead of helping it. Furthermore, they regard this as merely a forerunner of other retaliatory moves not alone in Canada, but in other countries. Latin-American countries, for instance, are already aroused. The Canadian budget proposals will evidently not have sufficient effect here to force Finance Committee leaders to reduce their rates and liberalize the tariff bill. The proposals will, however, materially, enhance opposition to the bill and enforce the adverse reaction which many public, men, including many Republicans, believe will follow enactment of the proposed tariff law.

QUEBEC TO GET BEST OF WINES

NEW YORK, May 26—Bringing word that "official tasters" are needed in Montreal by the Quebec Liquor Commission, G. A. Simard president of that body, returned to New York yesterday after buying "none but the best" French wines and hard liquor for the province.

"I made this trip as the first official from Quebec to visit France on a mission," he said on the deck of the French liner, Paris, "and I found that growers there are willing to co-operate with us to the best of their ability. We are going to supply Quebec with the very best of wines, at prices cheaper than we can supply beer."

Mr. Simard said that at the port of entry, Montreal, the commission runs a control station, where every bottle of wine is examined before it is accepted, "and," he continued, "we find it difficult to keep men working there. Those who taste the wines soon get a hardened taste, which makes them useless for the job."

Slight Hopes That House Will Close Middle of Jnne

OTTAWA, May 26—Hopes were being expressed in Parliamentary circles today that next week will see the conclusion of the budget debate as well as the end of the deliberations of the Committee investigating the question of freight rates. If this were possible it is figured that the session may conclude by the middle of June though the prospect is slight indeed.

Babe Ruth Declared Ineligible

CHICAGO, May 26—Babe Ruth, of the New York Yankees today was declared by President Ban Johnston of the American league to be ineligibleto play until a complete investigation has been made of the argument with Umpire Hilderbrand which resulted in the Home Run King being put out of the game yesterday and then climbing into the stands when he became offended at the booing of fans. Mr. Johnson said an investigation would be made at once and that a final decision would be made by tomorrow.

VEGETATON LEAPS UP

TORONTO, May 26—The weekly crop report issued by the Department of Agriculture says that the much-needed rains which extended more or less over the last two days of the past week have caused vegetables to leap ahead wonderfully. Newly seeded fields are already showing the benefit, while fall wheat and clover have also picked up well. May has begun its fourth week full of promise for the Ontario farmer.

Especially encouraging are the reports on the condition of alfalfa, particularly in Huron, Waterloo and York counties. Gray and Bruce counties report that more attention than formerly is being given to orchards, and that the outlook is good, especially for early apples. Milk prices are downward, with prices under the $1 per cwt. This is less than half the figure prevailing a year ago.
