Farmer James Vaughn, of Rose Glen, Montgomery County, Pa., made arrangements on Monday to visit that city to pay his rent. Just prior to starting, one of his horses became injured, and he placed his money, amounting to \$140, in a tomato can, securing the can in the hayrack. When he was to get his money shortly afterward, it had disappeared. So had his stepson, William Cooper, whom he had harbored all winter.

Bad Luck—Several horses broke through the ice on the river today and one animal which went through off Connolly's Wharf was only rescued after a great deal of work. The ice is now quite unsafe for travelling, although numbers of teams came to town on this morning.

PROVINCIAL LEGISLATURE.

MONDAY, April 8.

House met at 3.30.

Mr. H. C. McDonald asked the Commissioner of Public Works what action the Government intended to take in the matter of the rebuilding of Vernon River Bridge; if a survey of the said locality by a competent engineer is intended to be made this year with a view to the building of an iron steel bridge, if so, is it the intention of the Government to build such iron or steel bridge on its present reconstruction.

Hon. Mr. McLean said the matter would be investigated during recess and a survey held with a view to making this structure as permanent as possible.

Mr. Blanchard asked the Commissioner of Public Works to table a copy of all tenders received for rent for wharves for the year 1894; the names of the wharves and the County in which each wharf is situated; the names of the persons having the management of each tender, and the tender accepted for each wharf separately.

Hon. Mr. McLean said the statement would be submitted as soon as possible, that wherever it is considered in the public interest to give such information such will be submitted.

Mr. Arthur Peters asked the Commissioner of Public Works whether he has received a petition from the inhabitants of Lot 42, praying for a continuation of Curtis' Road to Ashton Road, Lot 42, and what action the Government intended taking in the matter of the petition.

Hon. Mr. McLean replied that both petitions had been received. They were under the consideration of the Government, and would be submitted to the House.

Mr. McLaughlin asked the Commissioner of Public Works if he had received a petition from certain inhabitants of Lot 48, praying for the opening of a new road from Bangor to Milltown; also, if a petition had been received by the Government from certain inhabitants of Bangor for the extension of McDougall's Road, Lot 40.

Hon. Mr. McLean replied that both petitions had been received and would be considered at the hands of the Government.

On motion of Mr. Warburton, the bill in relation to the trustees of the Presbyterian Church at Stanley Bridge was read a third time and passed.

Hon. Mr. Peters moved the House into committee on the bill to amend the practice in the County Court. I reply: I have the question asked by the Leader of the Opposition, he said the main object of the bill was to reach those foreigners who incur debts here and go away without paying them. It deals more especially with the Commercial Travellers' Tax. Last year a well known millionaire match-maker came here and began selling his matches and refused to pay his tax when summoned on the ground that his right name was not in the summons. The bill before the House provides that so long as a man is designated by a name under which he is known he may be sued under that name. The first man to be sued under that bill will be the millionaire referred to, who would not fight the tax on his merits but resort to the contemptible defence that his right name was not in the summons. Such a defence as that of a wrong name can only arise under the County Court Act. It does not obtain in the other courts.

On motion of Mr. H. C. McDonald, the bill to confirm the title of Land in the hands of the Opposition was read a third time and passed.

On motion of Mr. Aitken, the bill respecting black knot was read a third time and passed.

The House resumed committee on the Land Purchase Act, 1895, with Mr. Warburton in the chair. The bill was discussed at some length, and reported agreed to and ordered to be read a third time to-morrow.

On motion of Mr. Warburton, committee was resumed on the bill respecting the summary procedure on promissory notes and bills of exchange, with Mr. McWilliams in the chair.

At the evening session committee was resumed, and the bill was discussed by Messrs. Rogers, Farquharson, Peters, Warburton and A. Peters. Progress was reported.

Mr. Warburton then resumed the debate on the motion to go into committee of supply. He began by referring to the speech of the Leader of the Opposition, which he characterized as moderate in tone and not too severe upon the Government. He differed, however, from the Leader of the Opposition on several points. In respect to the liabilities of the Province the Leader of the Opposition said that the late Government, after being in power for thirteen years, only left a debt of \$102,000, as shown by the public accounts. He thought that if the hon. member had looked into the matter more carefully—if he had examined the public accounts—he would not have made that statement. The Leader of the Opposition also said that they had not collected taxes during these thirteen years. But taxes were levied from 1875 to 1882, and a considerable sum was collected in that way, which from 1878 to 1891 deficits amounting to \$395,341 occurred. Their average deficit was \$28,333. The preceding Government had refunded for money spent by their predecessors keeping the wharves open. But the wharves and piers during their term of office were greatly neglected. That state of affairs no longer exists however. He believed that the people appreciated the generosity of the present Government in respect to this matter. The Leader of the Opposition said that when the late Government went out of power there was a debt of \$102,000 as shown by the Public Accounts. Taking that view, which he thought was erroneous, how was the debt reduced. It was by the suicidal policy of drawing from capital entailing the loss of \$10,000 a year. His \$10,000 should be charged back against that Government. He hoped that no other Government would ever be guilty of such an unbusinesslike reduction. When the debentures were being issued he said he wanted the amount increased to \$200,000. When travelling through the country he had noticed the condition of the public works, and saw that a large sum would be necessary to put them in proper repair. He believed the Government would have been justified in increasing the amount of debentures to do this work. They did not increase it, however, but large sums have nevertheless been spent in putting the public works in order. The Leader of the Opposition also complained of the debentures being held in other provinces. But he failed to see how this could prove injurious or have any effect on the credit of the Province. On the contrary he thought it spoke well for our credit that these debentures are in demand elsewhere. The Leader also
