

Ecumenism Said Work Of Anti-Christ

CHICAGO (AP)—The president of the American Baptist Association said recently that worldwide unity through the ecumenical movement is "not the work of Christ but the work of anti-Christ."

Asserting that "ecumenism is not for us," Dr. Paul Goodwin of Little Rock, Ark., said in the opening address at the association's annual national messenger meeting.

"We must not leave the plain road of preaching the gospel of Christ to follow the devil's devious. We would have all to lose and nothing to gain in a unioning movement."

In criticizing the ecumenical movement, Dr. Goodwin, who is also pastor of the Unity Missionary Baptist Church in Little Rock, told more than 2,500 delegates and church members that history, doctrine and practice are "three good reasons" why missionary Baptists should not unite with the ecumenical movement.

He said: "We are often classed as Protestants as though we were of human origin going back only to the 15th or 16th century. This is not so. Protestants and Catholics are because their history goes back beyond the time of the Protestant Reformation."

CITY'S HERITAGE

"Baptists are not different simply because they are obstinate. They have a heritage brought with martyr's blood to preserve the truth. . . . We have been a separated people since the days of Christ and there is not a reason in heaven or on earth for us to turn from this position."

On the question of doctrine, he said missionary Baptists "believe what the Bible says is wrong, is wrong, and what the Bible says is right is right. . . . Then citing many foundational doctrines of his church, including the depravity of man, salvation by grace and immersion of believers only, he said "Missionary Baptists would compromise every one of these teachings if they joined the ecumenical movement. The majority of the members of this world church deny every one of these precious truths."

On the question of practice, he said: "The ecumenical movement is not concerned with missions as taught in the Bible, but it is dedicated to the mission of uniting all churches into a world church."

Nuclear Power Comes Of Age, Speaker Says

BANFF, Alta. (CP) — The mere fact attacks are being made about the safety of nuclear power plants is a sign that nuclear power has come of age, J. S. Foster of Toronto told the 7th annual meeting of the Canadian Electrical Association.

Mr. Foster, general manager of Power Projects, Atomic Energy of Canada Limited, told more than 500 delegates at the meeting it was significant that the coal industry had drastically reduced its prices.

It also was significant that the coal industry had representatives at hearings on the siting of nuclear power plants in the United States and has raised the safety question, he added.

Two large United States utilities who have recently purchased nuclear plants estimated that these 300,000 to 600,000-watt plants will be competitive with coal on their systems.

Text of his address was released in advance of delivery.

Mr. Foster said the world nuclear power capacity at the beginning of 1964 was 2,000,000 watts and additional construction would add another 14,000,000. Canada's share of the new construction as a 200,000-watt plant at Douglas Point B.C. scheduled to go into operation in 1965.

In Canada, he said, a large source of surplus fuel was not available, but natural uranium could be obtained in large quantities. It was logical that Canada adopted the simple and highly-efficient, though relatively expensive, heavy water moderator.

Canada is in the forefront in the development of this system, he added.

"Water reactors in large sizes appear competition with coal in many situations. Natural uranium, heavy water and enriched light water versions between them satisfy a wide range of financial, siting and trade considerations."

Suppliers of other fuels, notably coal, recognize this and are reacting to it. Nuclear power has come of age."

U.S. CARRIER VISIT

QUEBEC (CP) — The United States aircraft carrier Bannock, escorted by four destroyers and a submarine, arrived in Quebec Monday for a week-long courtesy visit. Some 5,000 men were aboard the vessels for the annual visit.

NEEDS FUNDS

OXFORD, England (CP) — The famous Bodleian Library, which has a copy of every book ever published in Britain, is becoming short of funds. The library's annual grant fell \$27,000 in 1963 and the situation is not likely to improve, says librarian N. L. Myers.

LOW PRICES

Specials are fine—and CO-OP SUPER MARKET features many of them every week. But the really BIG SAVINGS you get here come from our STOREWIDE LOW PRICES. You get TOTAL SAVINGS RIGHT DOWN THE LINE . . . because every price is a LOW PRICE on your register receipt! Add 'em up or down—our hundreds of low prices every day on the foods you like best and serve most often meant MORE CASH SAVINGS on your TOTAL FOOD BILL!
