Robinson; AS - Alan Saint; GS - Gary Schneider; JS - Jane Symmes; JuS - Julie Singleton; RS - Rod Symmes; MW - Mary Willms; PAW - Pat and Ann Wootton.

SPONSOR LECTURE SERIES

The Institute of Island Studies and the Prince Edward Island Museum and Heritage Foundation are sponsoring a series of lectures called "Plants and Animals of Prince Edward Island. The third annual Island Lecture Series has local biologists commenting on "aspects of the Natural History of the Island. Fish and wildlife, forests and landscape are examined through our changing history."

The lectures are being held in the Hon. George Coles Building, Charlottetown at 8:00 pm, Mondays from March 4 to April 22. You may still have a chance to hear one or more of the following speakers:
April 1 - Kathy Martin: Wildlife on the Dunk.
April 8 - Dan McAskill: The People's Forest.
April 15 - Ian MacQuarrie: Hedge's Sake.
April 22 - Geoff Hogan. Census for the Birds.

Perhaps members who attend any of the lectures would write down some points of interest about the talk or the lecture series on the whole for the newsletter.
