SUPPLEMENT TO "THE EXANINER."

Charlottetown, March 6, 1861.

Miscellaneous.

HAVE YOU GOT ANY NAILS?—A tall, gawky-looking countryman, during the height of the business season last fall, walked into one of the largest wholesale dry goods houses in ———, and entirely disregarding the invitations of the numerous salesmen to inspect their latest patterns, he strode into the counting-room, where the firm were sitting in solemn conclave. After taking a cursory glance of the room, and surveying attentively the faces of its occupants, he asked with an unctious Yankee twang:

'Say yeo—got any nails?'

'Nails, sir! nails!' repeated the most dignified Dombey of the lot, 'no sir; what should we do with nails?'

'Wall I dunno—though may be you might. Hain't got no nails, eh?'

'No, sir,' replied Dombey again with an emphasis, and pointing to the door.

The individual in search of the nails took his time but left the counting room. In turn he asked every clerk the same question, and received the information from all that nails formed no part of the stock of the establishment.

'Well,' said he, going towards the door, 'don't keep no nails here nohow!'

The principal salesman, whose dignity was hurt by the idea that any one should suppose that an establishment where he held a prominent place should keep nails, headed the countryman off as he was proceeding towards the entrance, and asked him abruptly what he wanted there.

'Want,' said the countryman, as cool as a cucumber, 'I want to know if you've got any nails?'

'Nails, no sir. You've been told again and again that we've no nails—so you'd better go.'

'Yaas—but you really ain't got no nails?'

'No, sir, I've got no nails,' thundered the principal salesman.

'Ain't got no nails, eh? Well, then, just look a'here Mister, if you ain't got no nails, *what an awful fix you'd be in if you happened to have the itch.*'

COOL.—A little circumstance, says the Troy Arena, has just come to us through a friend of the parties, which we are tempted to make public. It is as follows:—A couple very well known in this city, are at present arranging terms for a separation, to avoid the scandal of a judicial divorce, and a friend has been employed by the husband to negotiate the matter. The latest mission was in reference to a valuable ring given to the wife before marriage by the husband. "What," said the indignant wife, "do you venture to charge yourself with such a mission to me? Can you believe that I could tear myself from a gift which alone recalls to me the dayswhen my husband loved me! No! This ring is my only souvenir of happiness forever departed! 'Tis all (and here she wept) that I now possess of a once fond husband." The friend insisted. The lady supplicated—grew obstinate—grew desperate—threatened to submit to a public divorce as a lesser evil than parting with the cherished ring—and at last confessed that—*she had sold it six months before!*

CHOOSING HUSBANDS.—When a girl marries, why do people talk of her choice? In ninety-nine cases out of a hundred, has she any choice? Does not the man, probably the last she would have chosen, select her? A lady writer says:—"I have been married many years; the match was considered a good one, suitable in every respect—age, position and fortune. Everyone said I had made a good choice. I loved my husband when I married him, because he had, by unwearied assiduity, succeeded in gaining my affections; but had choice been my privilege I certainly should not have chosen him. As I look at him in his easy-chair, sleeping before the fire, a huge dog at his feet, a pipe peeping out of his shooting-coat, I cannot but think how different he is from what I would have chosen. My first *penchant* was for a clergyman; he was a flatterer, and cared but little for me, though I have not forgotten the pang of his desertion. My next was a lawyer, a young man of immense talent, smooth, insinuating manners; but he, too, after walking talking, dancing and flirting, left me. Either of these two would have been 'my choice;' but my present husband chose me, and therefore I married him. And this, I cannot help thinking, must be the way with half the married folks of my acquaintance."

A SCENE IN THE NEWFOUNDLAND HOUSE OF ASSEMBLY.

The following report of the debate referred to in a telegraph published a few days ago, we copy from a late Newfoundland paper:

Mr. Pendergast rose to speak, but was ruled out of order, having spoken to the motion before.

Mr. Pendergast—I am not going to speak to the motion; I only want to say—

Mr. March—We want no Harbour Grace rioters here. (Three cheers for Mr. March.)

Mr. Pendergast—Mr. Speaker, if you will only hear what I am going to say you will find that I do not speak to the motion. I wish to say to the house that to-night the Rev. Dr. Mullock lectures at the College; and I think it would be in consonance with the views of this house that it be adjourned, in order that hon. members may have an opportunity of listening to his lecture.

(Voice among the audience—"Oh you hypocrite! Oh you blackguard.")

The Speaker—Do you wish to put a motion for adjournment?

Mr. Pendergast—I do, sir, for the reasons I have stated.

Mr. Hoyles—Mr. Speaker, I do object to any such course as this. We have important business before the house, which should not be postponed for any such object as this. If members wanted to leave the house it was competent for them to do so. He objected to the motion of adjournment.

The Receiver General said the house was very glad indeed to adjourn when they were invited to eat His Excellency's beef and mutton, and he didn't see why Bishop Mullock's lecture was not quite as good aliment.

The Colonial Secretary thought it strange that such proceedings should be allowed. In what country in the world would a government be assailed for inquiring into the improper expenditure of moneys? He cited the fable of the cat and the monkey; and Mr. Nowlan's position was that of the cat, compelled to take the nuts out of the fire for the benefit of the monkey. Has not Doctor Shea had the expenditure of £12,000 of poor relief money during the past year, and though repeatedly asked for a statement of the expenditure of it, has he not refused to give it.

The Hon. the Speaker—That's false. You had a statement of the expenditure of that money every week. You had it whenever you asked for it. And if you permitted any improper expenditure of the revenue, it only proves that you were unfit to carry on the Government.

The Colonial Secretary—It was expected of us that we make an Indian suttee of ourselves, in order that the toes and fingers——

The Speaker—I'll let you know that, if I come on the floor of the House.

The Colonial Secretary—The Honorable the Speaker says he'll let me know if he comes on the floor of the House. Let him resign his Speakership, then, and come down.

Here again the disorder became so extraordinary in its character that it was impossible to hear a word. The Colonial Secretary, however, made allusion to the member for Bonavista, who replied severely, but was interrupted by Mr. Casey, who came to the support of the Colonial Secretary. Mr. Warren then directed his remarks to Mr. Casey, telling him that he, Mr. Casey, was better calculated to deliver an essay on skimmed milk than on politics. This was about the closing remark of the day, for the hon. the Speaker left his seat, and thus, at six o'clock, the House was adjourned amid the wildest disorder and confusion.

SAD CASE OF HYDROPHOBIA.

About three months ago Mr. George Toppan, Jr., of No. 350, Shawmut avenue was in at the office of Whittier's coal and wood wharf, Harrison avenue, when he was bitten by a pet dog—quite a small one. The dog was on the top of a safe, or a table close to the desk, and one of Mr. Whittier's children had been caressing it but a moment before. While conversing with his friend in reference to a paper lying on the desk, Mr. Toppan laid his hand on the safe or table, and leaned over to look closer at the paper, when the little animal sprang up suddenly and bit him in the upper lip. On Thursday of last week, Mr. Toppan felt unwell in the morning. He slept that night pretty much as usual.

On Friday morning he rose, as his wife says, and went to the wash-bowl or sink in the corner of the room. As soon as his eye rested on the water he dropped down in a spasm. His alarmed wife called for help, and the moment Mr. Toppan slightly revived he exclaimed in a despairing tone, "I am a gone man." The other usual charrcteristics of hydrophobia rapidly appeared. During Friday night, at intervals, it required several men to hold Mr. Toppan during the spasms, and on Saturday morning it was found necessary to send to the police station for policemen with manacles to secure him to the bedstead.

Mr. Toppan died at about two o'clock yesterday morning. He was married, and had children. His age was not far from thirty years.

NEW ENGLAND AND THE SOUTH.—Almost every day we hear men speaking of the little consequence to the world of the South as compared with New England. Such we would invite to examine the following figures. The six New England States have 29 Representatives in Congress. We compare their exports for the year ending June 30, 1859, with the exports of *six Southern States having* 28 Representatives in Congress:—

NEW ENGLAND STATES.	Exports.
Maine,	$3,240,839
New Hampshire,	9,793
Vermont,	11,136,565
Massachusetts,	18,158,818
Rhode Island,	310,813
Connecticut,	1,141,311
Total	$24,002,130
SIX SOUTHERN STATES.	
South Carolina,	$17,972,780
Georgia,	15,562,154
Alabama,	28,933,662
Florida,	3,192362
Louisiana,	101,666,548
Texas,	3,855,909
Total	$171,184,205

Thus we see that the exports of the six Southern States are more than SEVEN times as large as the exports of New England.

The following story is told of the Rev. Dr. Morse. At an association dinner, a debate arose as to the use of the rod in bringing up children. The doctor took the affirmative, and his chief opponent was a young minister, whose reputation for veracity was not very high. He maintained that parents very often do harm to their children from unjust punishment from not knowing the facts in the case. Why, said he, the only time my father whipped me was for telling the truth. Well, retorted the doctor, it cured you of it, did'nt it?

An Indian squaw, roaming around the garrison at Fort Yuma, discovered twenty dollars worth of postage stamps in the officers' quarters, and a happy thought struck her. Shortly after she created quite a commotion by appearing on the parade ground, stuck all over with the stamps, regardless of dignity and decency. The officer found that his postage stamps, intended for the mail, had been appropriated by the female.

A new gasometer, the invention of Major Fitzmaurice, has lately been tried in the Woolwich Dockyard. A test was made of its availability for supplying the fleet and the service generally with gas. In which case one of the gasometers will be fitted in the engine-room of each vessel, to supply the burners fixed in the various compartments of the ship, in a similar manner to that on shore. The cost of the apparatus, when fitted, is trifling, when compared with its advantages, the price varying from £5. The gas is termed "olefiant" gas, being made from any kind of oil, grease, bones, cocoa-nut, fat of every description, or even shavings, peat, wood, &c.; and the apparatus may be managed with perfect safety by a mere lad. The lights were pronounced of a greater brilliancy than the common gas lights, being at the same time free from smoke; and the flame was observed to be of a thicker and stronger quality, although the heat produced was considerably less.

At a splendid dinner an atheist was denying the existence of God because he could not see Him; whereupon a gentleman said, "You will admit that there was some thought in the preparation of this dinner." "Certainly," replied the atheist. "Yet," was the crushing retort, "you have not seen the cook—are you prepared to deny his existence?" The answer is not recorded.

What strange things girls are. Offer one of them good wages to work for you, and ten chances to one if the old woman can spare any of her girls; but just propose matrimony, and see if they don't jump at the very chance of working a life time for board and clothes.

"*Healing on its Wings*," say all who have made use of *Dr. Wistar's Balsam of Wild Cherry*, and by such use cured themselves of coughs, colds and consumption. The prudent will always keep this remedy by them.

In raising the treasure of the steamer "Malabar," which was wrecked last summer on the coast of Ceylon, the divers worked under water through nine feet of sand, and then cut away large iron plates half an inch thick, forming the sides of the mail room of the steamer. Eighty thousand dollars worth of treasure were thus obtained in one day.—The steamer had over $1,500,000 in gold on board, all of which had been saved.

TORONTO, Saturday 16th.—Final decision in the Anderson case was given today. The Court of Appeal sustained the decision of the Court of Queen's Bench on the question of Law, but was unanimous in discharging the prisoner on a technicality.

A youthful member of a rifle corps in a Scottish town, on his arrival home one evening, joyfully told his father that he had got his arms. Airms, quoth the old man drily. I'm thinkin' gin the French come ye'll hae mair need o' your legs.

Catholic Young Men's Literary Institute.

Mr. Isidore McCormack delivered an excellent lecture on "Health," to a large audience at the above Institute, on last Thursday evening. The lecture abounded with many practical hints on this important subject. Without a sufficiency of pure air, moderate exercise, and a due regard to personal cleanliness, no person can long preserve health; and upon the observance of these Mr. McCormack laid particular stress. The quantity and quality of food that should be eaten were adverted to; although no specified rules were laid down for guidance. The lecture was listened to with marked attention by the audience, and called forth an animated discussion at its close, which was prolonged beyond the usual hour for adjournment.

Next Thursday evening, 7th March, Mr. James E. Kelly will deliver a lecture before the Institute. Subject, "Ancient Egypt."

March 4, 1861. E. REILLY, Sec'y.

Passengers.

In the Mail Boat from Cape Tormentine to Cape Traverse, on the 26th ultimo—John Hunter, Esqr., Messrs. George Palmer, Roach Bourke, James White, J. D. Gordon, two Messrs. Coffin.

Ship News.

GLOUCESTER, Dec. 31. — Arrived — Brig Scotland, McKinnon, from Charlottetown; oats.

LONDONDERRY, Feb. 3. — Argyle, McDonald, from Charlottetown, P. E. Island, for Bristol Channel—with loss of spars, sails, &c., had also lost her foremast above the cap.

The Bark *Thomas Hutchinson*, from Shediac for Liverpool, was abandoned on the 19th December, in lat. 43, lon. 18 — crew saved by the *Alert*, arrived at Gloucester.

Charlottetown, Feb. 25, 1861.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains*, which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in unskilful; and no one will escape the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

CRAMP AND PAIN KILLER.

THE world is astonished at the wonderful cures performed by the **Cramp and Pain Killer** prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the cure of Spinal Complaints, Cramp in the Limbs and Stomach, Rheumatism in all its forms, Bilious Colic, Chills and Fever, Burns, Sore Throats and Gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine, are on circulars in the hands of Agents.

W. R. WATSON, General Wholesale Agent for the Island and sold by Merchants everywhere.

August 21, 1860.

NOTICE.

THE Subscriber has been empowered by a power of Attorney to collect all debts due to JOHN MCPHEE, formerly of Souris, P. E. Island. Begs to notify all persons indebted to him to have their respective accounts settled on or before the 15th inst., otherwise they will be sued after that date without distinction of persons.

ARCHIBALD McPHEE.

I HEREBY notify that I have appointed Mr. Richard Hayes, of Souris, my Attorney to collect the above.

ARCHIBALD McPHEE.

Big Pond, Lot 45, January 3, 1860.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT.

Scorbutic Eruptions, as sore Heads and Scrofulous Swellings.

If this wonderful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, *but* constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with perfect success. The cures have been so remarkable, speedy, and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providin it is very effectually rubbed over the regions of the kidneys, whic it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be *rubbed into the parts affected*, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

This last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this famous Ointment, invariably results in a cure. They act with such energy in the circulati on and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers, and swellings, can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverence is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage, the Pills and Ointment should be obtained in the neibbourhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout [ings	Skin-diseases
Burns	Chapped Hands	Glandular Swell-	Scurvy
Bunions	Corns (Soft)	Lumbago	Sore-heads
Bite of Mosche-	Cancers	Piles	Tumours
toes and Sand-	Contracted and	Rheumatism	Ulcers
Flies	Stiff Joints	Scalds	Wounds
Coco-bay	Elephantiasis	Sore Nipples	Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY, 244, Strand (near Temple Bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

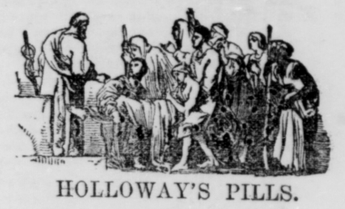
ADVICE GRATIS!



HOLLOWAY'S PILLS.

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and clensing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigour and healthful action in every organ throughout the system, by the restorative and exhilarating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble by a few doses of these Pills, taken according to printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the regions of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptably carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys, and Bowels.

These who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day—and the Pills acting in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restoed to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Dysentery	Liver complaints	toms
Asthma	Erysipelas	Lumbago	Tic-Douloureux
Bili's Complaints	Female Irregula-	Piles	Tumours
Blotches on Skin	rities	Rheumatism	Ulcers
Bow'l complaints	Fevers, all kinds	Retention of	Venereal Affec-
Colics	Fits	Urine	tions
Constipation of	Gout	Scrofula, or	Worms, all kinds
the Bowels	Head-ache	King's Evil	Weakness, from
Consumption	Indigestion	Sore Throats	whatever cause
Debility	Inflammation	Stone and Gravel	&c., &c.
Dropsy	Jaundice	Secondary Symp-
