TOOTHACHE
Don't suffer agony. In seconds get relief that lasts with ORA-JEL. Speed-release formula puts medications to work instantly to stop throbbing pain. Recommended by many dentists as "first-aid" for toothaches yet so safe doctors recommend it for teething, too. Say ORA-JEL

Pickersgill's Remark Brings Commons Storm

OTTAWA (CP) — Storm signals flew in the Commons over a remark Transport Minister Pickersgill made at North Sydney, N.S., which he contended was in jest and which a Conservative member said was taken seriously.

Donald MacInnis (PC—Cape Breton South) and Robert Muir (PC—Cape Breton North and Victoria) tangled with Mr. Pickersgill over his remarks in a meeting of the North Sydney Board of Trade that in problems between Newfoundland and Nova Scotia he intended to favor Newfoundland.

It was not said "in any serious sense at all," said Mr. Pickersgill, who represents the Newfoundland riding of Bonavista-Twillingate. "I think everybody who heard that understood it in precisely the sense in which it was made."

Any statement by a transport minister should be considered serious, argued Mr. MacInnis. "I would point out to him that his statement in North Sydney was taken quite seriously by the whole of that area."

HEARD STATEMENT

Mr. Muir said he heard Mr. Pickersgill make the statement—he didn't say whether he regarded it as serious—but he did say the statement was correct. "Now he has made a decision in favor of Newfoundland to the detriment of the port of North Sydney, one which will put everybody out of work."

At the root of the issue was Mr. Pickersgill's announcement in the Commons Monday that cargo going on a new ferry to Newfoundland will be transferred from the wide-gauge mainland railway cars to the narrow - guage Newfoundland cars at Port aux Basques, Nfld. This will be started in 1967.

Mr. MacInnis opened the subject in the Commons Tuesday by asking Prime Minister Pearson whether he considered it proper that a minister of the Crown should align himself behind one province and against another.

"A very hypothetical question," said Mr. Pearson.

Mr. Pickersgill rose to explain his remark and protested that Mr. MacInnis's statement was "harmful and malicious." There is no thought about discriminating against Cape Breton, he said, and in the last year the government has taken action on a heavy water plant, assistance to the airport and establishment of a coast guard college.

Mr. MacInnis then rose again to protest against the prime minister referring to a question as hypothetical when it had been proven to be fact.

"It seems to me we are making a mountain out of a mole hill," interjected Speaker Alan Macnaughton.

Mr. MacInnis persisted in trying to be recognized but the Speaker said: "I do not propose to recognize the honorable member for Cape Breton South if he persists along this line because he is enticing the House into an argument which is certainly not needed at this time."

When Mr. Muir said Mr. Pickersgill's decision will put everyone out of work, the transport minister said the matter was not easy to decide. But every consideration had been given to the question.

"So the stevedores at the port of North Sydney are to be sacrificial lambs," said Mr. Muir.

"Would the honorable gentleman prefer to sacrifice those at Port aux Basques?" asked the minister.

Farm Machinery Fund Planned

OTTAWA (CP) — Agriculture Minister Hays has introduced new legislation in the Commons creating a $25,000,000 fund to finance government loans to farm machinery syndicates.

The farm Credit Corporation would extend the loans to groups of farmers who wish to purchase farm machinery on a co - operative basis to reduce their capital outlays. The loans would cover up to 80 per cent of the purchase price of each machine.

Mr. Hays said in a brief statement that more and more farmers are sharing the ownership and use of farm implements. At present government loans were made to individual farmers only, not to syndicates.

The syndicate system was sensible at a time when machinery was expensive and so efficient that an individual farmer used it for very limited periods of time.

Preventive Medicine Needs Study

INGONISH, N.S. (CP)—The field of preventive medicine needs thoughtful study and a new point of view and this could involve a changed role for the doctor in private practice, Dr. Frank Turnbull of Vancouver said here.

Unless these doctors perceive a new responsibility towards their patients as a group some other authority would usurp that role, the president of the Canadian Medical Association told the annual meeting of the Nova Scotia Medical society here.

There had been an assumption that the whole field of preventive medicine falls naturally into the realm of public authority and can be distinguished clearly from curative medicine.

"When prevention is considered as an activity of private practice, the discussion usually concerns the merits of periodic health examinations."

Dr. Turnbull also said doctors must be prepared to seek and justify adequate pay.

He said doctors must be prepared to recognize a measure of responsibility for the rising costs of medical care.

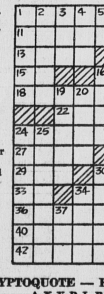
Yesterday's Answer



9-19

DAILY CRYPTOQUOTE — Here's how to work it:
A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

J P U K S I J P U S C Y I F N F D S W F

W S K F Z S S C J Q V — L P Y W S K F I J Q F

— C L K S D V F Z S A D L A C Y

♣7

The bidding:

West	North	East	South
1♣	Pass	Pass	4♥

The bidding:

Opening lead — king of clubs.

Let's assume that in a particular hand you have a 70 per cent chance of making the contract by following a certain course of play. Although this makes you a decided favorite on the hand, you should not be willing to settle for that if there is another method of play available which gives you a 75 per cent chance to make the contract.

It is true that in choosing the more promising method of play you will gain in only 5 deals out of 100, but, even so, this improved chance is not one to be taken lightly. In the long run, the closer you come to 100 per cent, the better off you are.

Getting down to cases, let's examine this hand. West leads the king of clubs and continues with the ace. You ruff it and lead the king of hearts. West takes the ace and plays another club, which you also ruff.

When you then cash the queen of hearts, West shows out and you must lose two more trump tricks and go down one.

It is of course unlucky to find the trumps divided 4-1. The normal expectancy is a 3-2 division, which occurs in about 68 per cent of deals. Nevertheless, these odds can be improved on (by about 6 per cent) by playing a low heart at trick three instead of the king.

In the actual case, this would be the winning play and the contract would be made. But at the same time it should be noted that no harm can come from the low heart lead instead of the king, if it turns out that the hearts are divided 3-3. You would lose two trump tricks whether you started out by playing a low heart or the king.

The advantage of the low heart play is that, if the hearts are divided 4-1, it does not cost a trick to lead low, but the same play gains a trick whenever the singleton heart happens to be the ace.
