We observe by the *Herald* that the editor of that paper has commenced an action for libel against the proprietor of the *Patriot*, on account of a certain grave charge against Mr. Reilly in the letter over the signature of "a Protestant who knows."

NOTICE TO BUILDERS.—It is a matter of no small consequence to the owners or lessees of Town Lots, whose houses were consumed by the late fire, to know that by the By-law of the city, as well as by the common law, no cellar hatches opening on the street are permissible. In all cases where the old houses have been consumed or removed, cellar hatches opening on the street have been prohibited. We understand the Recorder is serving the parties owning or leasing building lots in the burnt district with notices to that effect.

MACKEREL FISHING.—A correspondent at Bay Fortune writes us, Sept. 7:—"I have been informed by a Mr. Campbell from East Point that one of the Charlottetown fishing schooners, the *Silver Light*, owned by John Douse, Esqr., made a very successful haul of mackerel on the 4th and 5th inst., taking 143 barrels in two days."

We copy the following from McNeill's Reading Room Slate:—

OUR FISHERIES:—The Schooner, "Franklin Treat," T. Clark, Master, has already, this season, made two trips from the fishing grounds to this port, with a catch of about 300 barrels of mackerel each trip. And we are glad to learn that since leaving on her third trip her crew has caught, in the short space of five days, 265 barrels of mackerel.

FIRE AND TERRIFIC EXPLOSION NEAR BOSTON.

THREE BUILDINGS IN THE UNITED STATES ARSENAL AT WATERTOWN DESTROYED—LOSS ABOUT $130,000, &C.

BOSTON, MASS., Sept. 2, 1866.

A fire and explosion occurred early this morning in a group of three buildings in the United States Arsenal, at Watertown, which caused not a little excitement and alarm in all the towns in the vicinity, and also this city, where the sound of the explosion was plainly heard and its vibrations unpleasantly felt. The three buildings were used as storehouses. The group consisted of two wooden buildings, connected by a small brick structure, which was filled with a quantity of saltpeter, nitre, paraffine, charcoal, some tow, and a small quantity of powder. The fire originated in one of the wooden buildings, in some lumber there stored. It crept slowly and steadily into the brick building and then ignited the combustible material. The explosion was quick, sharp and terrific. The two wooden buildings were shattered into a hundred pieces, and windows and sashes broken in the buildings in the yard and in a number of buildings in Watertown and Cambridge.

Charles Gregg, Clerk in the Paymaster's Department, and three soldiers, named William Ring, John Timmons, and George Callum, were in the brick building at the time of the explosion and were all more or less injured, neither of them, however seriously. Gregg was thrown out of the windows.

But little of the property stored in these buildings was saved. A number of gun carriages were drawn out, but only one hundred and thirty of six hundred and thirty ammunition cases, valued at $40 each were saved. About one million four hundred thousand feet of pine lumber was destroyed. This was valued at $107,000. The total loss is estimated at some $130,000, $2,000 of which is on the glass broken and window sashes shattered by the jar of the explosion. The excitement was intense in the vicinity.

EXTENSIVE SEIZURE OF FENIAN AMMUNITION.

(Limerick Cor. of Irish Times)

On Wednesday evening a most important discovery took place of a very large quantity of ammunition, believed to have been made by Fenians in Limerick during the recent movement. A number of children were playing in an old cellar in Irishtown, where they had a piece of candle stuck on a wall to give them light. They discovered paper rolls, a few inches long, but did not know what they really were, believing them to be short wax candles. They brought out a few of the rolls, which they were playing with, when a respectable trader, seeing what they had, and suspecting what the rolls were, went over, took one, examined it, and found it to be a cartridge, Minnie ball attached. He at once sent the children to the George's Quay Station to apprize the police of what they had found, when the constables proceeded to the cellar pointed out by the children. They found the aperture by which the children entered extremely narrow, and they had to effect an entrance by breaking through a wall, which occupied them a short time. When the police got inside they found themselves in an immense underground chamber, with adjoining chambers, or cells, the entire occupying several acres of ground, in the centre of Irishtown. On making examination the police discovered an immense quantity of ammunition, amounting to about 10,000 rounds of ball cartridge, with bullet moulds and all the necessary apparatus for their manufacture. The bullets were perfectly cast, having the cone at one end, and the hollow, or chamber, at the other, to fit on the cartridge. The paper was neatly cut by machine, and bore the mark of Hall & Sons, London, where it is supposed the powder was purchased, and the cartridges were more neatly made up than those of the constabulary. A large party of armed police having been brought, the ammunition was placed on carts and escorted to William Street station, where it was stored. County Inspector Hill ordered a strict search of the apartment where the powder was discovered and the adjoining chambers, which was kept up by the police rigidly till eleven o'clock, but nothing else was discovered. The cartridges, with the bullets, were quite fresh, and it is supposed they were manufactured there during the Fenian movement. The place is admirably adapted for such a nefarious work, being in an out-of-the-way place, with no entrance except from a yard off John street, recently closed up, and the ammunition might have remained there for years were it not for the chance discovery of the children. The chamber is supposed to be the underground apartment, with cells, of a military prison, or of a Franciscan monastery, as the street close to it is called Francis street, after a monestary of that name, and it is believed by some that the apartments discovered were the underground stories of that ancient convent. The discovery made by the children was most fortunate, for it is surprising that where such thoughtless innocent creatures played with a lighted candle close to such a magazine, the cartridges were not ignited. Had such happened, the whole centre of Limerick would have been blown into the air, and the cause of it never discovered. We unconsciously have for sometime been living here on a volcano laid by the sanguinary Fenians. This discovery shows that Fenianism is not quenched but smouldering, and the greatest vigilance is required on the part of the authorities. A number of parties, five or six, have been arrested on suspicion.

MEETING OF CITY COUNCIL.

August 25th, 1866.

Present:—His Worship the Mayor. Councillors—Morris, Mitchell, Reddin, Bricken, Brown, Butcher, Yates, DesBrisay, and His Honor the Recorder.

Minutes of last meeting read and approved.

The Clerk read a communication from C. DesBrisay, Esq., Clerk of the Executive Council, stating that the By-law passed by the City Council, intituled "A Law to regulate and prevent the erection and continuance of Slaughter Houses within the City," had received the sanction and approval of His Excellency the Lieut. Governor and the Executive Council.

Ordered that said By-law be published.

On motion of Councillor Mitchell, it was resolved that the City Marshall be directed to visit forthwith all Slaughter Houses within the City, and report in writing to the Mayor, or Presiding Councillor, the number of those houses, and to report also the names of the proprietors, the locality and condition of each; and further resolved that the City Marshall shall on every Saturday morning, visit the said Slaughter Houses and report thereon.

Return of Slaughter Houses within the City of Charlottetown, made agreeably to Order of Council.

No. 1—Patrick Blake, Ward 1, block 11, corner Hillsboro' and King Streets—clean and free of any offal.

No. 2—John Wilson, senr., Ward 2, block 11, on Sydney Street—house cleanly; stye properly clean.

No. 3—John Wilson, junr., Ward 4, block 2, Pownal Street—house clean; keeps pigs; stye clean.

No. 4—Robert Brydges, Ward 4, block 6, Gratton Street (East)—keeps eight pigs. The offensive matter which gave rise to complaint about ten days ago has been removed. He is making use of Roach Lime through the premises. At the present time the place is cleanly.

No. 5—George McGregor, Ward 5, block 8, corner of FitzRoy and Weymouth Streets—in excellent clean condition.

ANGUS MCLEOD, Marshal.

Charlottetown, Saturday, Sept. 1, 1866.

His Honor the Recorder submitted his written opinion respecting the liability of those persons to pay City taxes whose porperties were destroyed by the recent conflagration in Charlottetown.

The Clerk read a communication from Thomas Alley, Esq., Chief Engineer of the fire Department, recommending that the three Water Tanks, authorized by the City Council on the 15th July last, be placed in the following localities, viz: One at the corner of Kent and Prince Streets, near the residence of Dr. Johnson; one in Queen Street, near the Brick building, the property of the Hon. James Duncan; one in Pownal Street, near the residence of Jas DesBrisay, Esquire; and that the said Tanks be constructed in a circular form to the depth of 18 feet, and 10 feet in diameter, to be built of brick 9 inches thick, and properly cemented.

Ordered that Tenders be forthwith called for, in compliance with the foregoing recommendation.

Ordered that £50 be granted to defray expences incurred at the late fires, upon the accounts being certified by the Chief Engineer.

Ordered that Policeman White be restored to the office of City Policeman.

His Worship directed the attention of the Board to the necessity of making provision for the payment of the third and last instalment which will be due and payable to Contractors for erecting the new Market House upon the completion of their contract.

Ordered that Debentures be sold to the amount of £900—the same to be secured upon the tolls of the Market House and upon the general revenue of the Corporation.

SEPT. 3rd.

His Worship the Mayor informed the Board that the object of that meeting was to lay before them the Invoice of Leather Hose, recently arrived from England, from J. T. Thomas, Esq. On motion, it was ordered that the amount of said Invoice be transmitted forthwith to J. T. Thomas, Esq., and that the thanks of the City Council be given to that gentleman for his valuable services in procuring and forwarding the Leather Hose for the use of the Fire Department.

The Clerk read the account of the Gas Company for Lighting the Street Lamps with gas for the quarter ending 1st Sept. inst. Ordered, that said account amounting to £73 15s. be paid. The application of Mr. Wm. Murphy, agent for the Gas Company, for Debentures payable in five years was accepted, and *Debentures ordered to be issued accordingly* to the amount of £200.

On motion it was resolved, that the thanks of the Mayor and City Council, on behalf of themselves and their fellow citizens, be communicated to Lieut. Colonel Martin, Major Paton, and the officers of the King's Own Royals, for their great kindness in *permitting* their Regimental Band to visit the City, and for the exquisite treat afforded to the inhabitants by its varied and excellent musical performances during the fortnight the City was favoured by its presence.

His Worship the Mayor having enclosed a copy of the foregoing Resolution to Major Paton, received the following reply:—

(COPY.)

BARRACKS,
CHARLOTTETOWN,
Sept. 5th, 1866.

SIR:—I have the honor to acknowledge the receipt of your letter, forwarding copy of a Resolution of the Common Council of the City, regarding the recent visit of the Band 4th K. O. Royals to P. E. Island.

It gives me much satisfaction to forward the very gratifying record of the estimation in which our Band was held by the Council and inhabitants of Charlottetown to Lieut. Colonel Martin, Commanding the King's Own Royals.

I have the honor to be, Sir,
Your most obedient servant,
J. PATON, Major Commanding
Detachment 4th K. O. Royals.

His Worship the MAYOR of Charlottetown.

STRENGTH FOR THE EXHAUSTED.

Thousands die, as it were, inch by inch, of bodily weakness; for debility will kill as certainly, though not so quickly, as a raging fever. Is it asked how the weak shall be made strong; the debilitated sustained and restored; the exhausted refilled with vital energy? We aver that of all invigorating preparations given by science to man, from the institution of the art of healing to the present hour, not one has wrought such wonders in the way of *restoration* as HOSTETTER'S CELEBRATED STOMACH BITTERS. This is indeed *the* tonic of tonics. As a revitalizing, strength-supporting, life-prolonging agent, the like of it is not to be found in the catalogue of medicines. Among the various articles used to arouse the dormant powers of nature, it stands alone—the great awakener of the paralyzed physique. It not only awakens the physical powers from a state of collapse and inanition, but it imparts permanent vigor to the muscular and nervous systems—reinforcing, as it were, both the stronghold and the outworks of vitality. The aged, the decrepid, the nervous, the broken down of both sexes, are recommended to try it. They will assuredly find it a present help in time of trouble.

HOLLOWAY'S PILLS.—Diarrhœa, Dysentery.—The medicines commonly used for the subjugation of these diseases so frequently fail of effecting that object that it should be known to all sufferers from these maladies that Holloway's Ointment, well rubbed upon the abdomen two or three times a day, with the application of warm bran poultices in the intervals, gives immediate relief, gradually soothes the irritable bowels, and assuages their most distressing pains. This treatment is applicable to all forms of diarrhœa, dysentery, and cholera, and, with attention will always be successful. *Farinaceous diet, milk, and barley water* should give subsistence during the continuance of the disease, to the utter exclusion of all solid food, which the deranged bowels are incompetent to assimilate.

WE PLEDGE OUR REPUTATION for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after MRS. WINSLOW'S SOOTHING SYRUP has been administered. Cures dysentery, and diarrhœa and wind colic. Sure to regulate the bowels. Price, Thirty-five cents a bottle.

VALUABLE AND CONVENIENT.—"*Brown's Bronchial Troches,*" are widely known as an admirable remedy for Bronchitis, Hoarseness, Coughs, and other troubles of the throat and lungs. They are of great value for the purposes for which they are designed, and it should be known that while they are usually and pleasantly efficacious they contain no hurtful ingredients, but may at all times be used with perfect safety.—*Boston Recorder.*
