TABLET UNVEILED AT FORT EDWARD MUSEUM

Mr. L.H. Nicholson, M.C.E.P., Commissioner of the R.C.M.P., yesterday unveiled a tablet placed on the old stone magazine at Victoria Park which has been fitted up as a museum and designated used for many years. Officials present at the unveiling were, left to right, His Worship Mayor J.D. Stewart, D.S.O., His Honour Lieut. Governor T.W.L. Prowse, Lieut. Col. A.W. Rogers, E.D., Aide to His Honour Judge H.L. Palmer, President P.E. Island Historical Society, Commissioner Nicholson, Brigadier G.G.K. Peake, Major O.R. Simons, W.H. Nevin, Inspector R. C. M. P., Major T.E. McNutt.

Veteran N. S. Seadog Dies

LIVERPOOL, N. S. (CP)—The 83-year-old veteran seadog who could lay claim to having been the first to greet the late King George VI and Queen Elizabeth on their 1939 visit to Canada died Thursday at his home here. Capt. Newman Wharton, a seafarer under canvas for 57 years, met the royal flotilla inbound with his ship, the Jean and Shirley, in the North Atlantic. His radio signal was the first welcome extended the royal visitors. Capt. Wharton went to sea as a deckhand when he was 12. At 23 he had his master's ticket. He commanded more than a dozen vessels in his lifetime and could boast of never having lost a man or ship.

Police Elect Officers

Verdun W. Mitchell of Halifax was elected president of the Charlottetown Association of Chiefs of Police at the concluding session of a four day conference which concluded at the Charlottetown Hotel yesterday. Other officers elected were: 1st vice pres., C. E. Bagnall, Charlottetown; 2nd vice pres., Ben Bouzan, Chief of C.P.R. Police, Montreal; 3rd vice pres., John Trausch, Kingston, Ont. The secretary-treasurer is past president George A. Shea, with 18 years of service as Director C.N.R. Police, Montreal. His father was a former resident of Charlottetown. Pictured above President Mitchell, left, taking over from retiring president Robert Alexander, York Township, Toronto, following his election. (Barter's Film Lab.)

Nfld. Storm Reports Continue To Trickle In

By GERALD FREEMAN, Canadian Press Staff Writer ST. JOHN'S, Nfld. (CP)—While reports from other parts of the province continued to trickle into St. John's Thursday night hurricane force winds were reported from more of a major nuisance than a disaster. The struck Newfoundland and 90-mile-an-hour fury Wednesday and knocked out communications all over the island. Reports were still scarce Thursday night from the northeast coast and south shore which bears the brunt of most storms. The hurricane was centred off Labrador all day and strong winds with gusts to 50 miles an hour continued to belt the province. Their destructive power, however, was spent the night before. Funnel-shaped convection by a few miles from St. John's usually takes a heavy battering from hurricanes but an eyewitness trip 70 miles around the shore of the bay Thursday showed no exceptional damage.

Former Islander Comments On Trip

EDMONTON, (CP)—The Maritime provinces are in the throes of massive construction and development, E.E. Poole, president of Poole Construction Co. Ltd., said Thursday upon his return from a four-week trip in the Atlantic provinces. Mr. Poole visited his native Prince Edward Island* for the first time in 10 years and also toured Nova Scotia. He said Nova Scotia, with a considerable mileage of paved highways, is attracting a large tourist trade.

Birth Registrations Reach Record Peak

OTTAWA, (CP)—Birth registrations reached a record high of 41,598 during August compared with 37,337 in August, 1954, the bureau of statistics reported Thursday. The previous record was 39,668 in March, 1954. Births during the first eight months of the year rose 3.7 per cent to 298,356 from 287,846 in the corresponding period last year.

Dulles Says Cold War May Be Ending

UNITED NATIONS, N.Y. (AP)—State Secretary Dulles predicted Thursday the cold war may be ending because of the Geneva "summit" conference and other recent developments. He called for an era of peaceful change during which governments will renounce the use of war and subversion. In his annual policy address to the UN assembly, Dulles stood firm on the broad lines of U.S. policy such as the unification of Germany and resistance by the free world to international communism. But his tone was moderate and he said a new spirit prevails in the world as a consequence of the meeting at Geneva. Soviet Foreign Minister Molotov joined applause for Dulles, Molotov, who speaks today, will team with Dulles and the foreign ministers of Britain and France in Geneva Oct. 27 in a conference which will discuss in some degree how far the Geneva spirit extends.

Canada Would Take Cut For New World Pact

OTTAWA, (CP)—Canada is prepared to compromise on prices if she can get a new International Wheat Agreement, federal authorities disclosed Thursday. The 47 member countries and others who may wish to join will meet in Geneva possibly Oct. 26 to begin preliminary bargaining on a new pact to replace the current three-year IWA which expires next July.

Officials here anticipate the importers will stage conference manoeuvres to chop prices and get more wheat for less money. They said Canada may not be willing to go as far as importers would like in price reductions, but that the Canadian government would be prepared to compromise on prices if it means a new long-term pact. Britain, the world's biggest wheat buyer, walked out of negotiations for the current pact in 1953 because of a five-cent-a-bushel price difference. The government is looking toward a new and larger international wheat pact as a possible channel for boosting Canada's wheat exports. Supplies now are estimated at a near-record of about 982,000 bushels, including the surplus carried over from last year. The annual export quota under the IWA for all exports is 396,000 bushels, of which Canada's share is 153,000,000. Last year Canada's exports totalled only about 72 per cent of what importers said they might take.

Key Presentation At War Veterans' Function To President Anderson

More than 200 veterans of World Wars I and II and the Korean conflict attended the annual dinner of the Canadian Legion Provincial Command Convention held at the Clover Club last evening. F. A. R. U.S.H. President, Charlottetown Branch was toastmaster. Guest speaker was Dominion President, Ver. Rev. John Anderson, M.C., D.D., who was presented with the Key of the City as a Centennial memento of his visit here, by His Worship Mayor J. David Stewart, D.S.O. The presentation followed the traditional pattern of announcement by the Town Crier and the admission of the City Clerk, Mr. J. A. Fullerton carrying the key preceded by Barry MacGillivray the official Centennial pipe with an escort of two City Constables, Lloyd Archibald and Russell Downie. In making the presentation Mayor Stewart touched briefly on his friendship with the President while overseas and stressed the importance of the work he was now engaged in as head of an organization which was doing worthwhile work all across Canada. President Anderson acknowledged the gift with pleasure on behalf of himself and his comrades. "I shall always cherish it as a memento of this occasion on which it is my privilege to meet so many comrades on this beautiful island, an event which I had long looked forward to."

Plane Crashes In Desert 15 Dead But 32 Survive

TRIPOLI, Libya (AP)—A British airliner, caught in a desert sand storm, swept across North Africa, hurtling into the trees tops just outside palm-fringed Idri airport early Thursday, killing 15 persons. Thirty-two others survived, but most of them were injured. Many owed their lives to the fact that they were thrown clear of the wreckage. The four-engine plane whinnied and caught fire. Several of the 13 passengers and two crew members killed were trapped in the burning wreckage.

South Alberta Recovers Slowly After Snow Storm

CALGARY (CP)—Winter's first attack on the southern half of Alberta eased Thursday but transportation and farm operations recovered slowly. Air traffic in and out of Calgary was back on schedule after being practically non-existent Tuesday and Wednesday. But road travel was still a struggle. Provincial agricultural officials expected harvest operations to rebound quickly to normal if given a minimum of four days of bright weather. The storm dumped 6.6 inches of snow on the Calgary area in the 37½ hours before the fall ended early Thursday. Sunny weather was predicted for today. POSTPONE OPERATIONS The storm forced postponement of the big civil defence "Operation Lifesaver" one week until next Wednesday, however, and caused major traffic tieups. Dozens of cars were locked in snow drifts as roads filled in after snowplows passed, with an estimated 100 persons stranded. Some plows were still working Thursday from Calgary to Carstairs, 35 miles north of the city. Two hotels in Strathmore, 20 miles east of here, could not handle all the persons stormbound. Fred Hilton, civil defence coordinator for the district, found shelter for about 25 with an appeal to homeowners. In Edmonton, A. M. Wilson, Alberta government field crops commissioner, said a "good Chinook wind across the Calgary area and they won't know it was even here." However, it would take a minimum of four days of bright dry weather to restore good harvest conditions. PICTURE BRIGHT Rain and snow will delay harvest.

Janet Reaches Hurricane Size; Hits Windward Is.

MIAMI, Fla., (AP)—Hurricane Janet, 10th big tropical storm of the year, thundered across the Windward Islands into the Caribbean sea Thursday and caused a hurricane alert as far away as Puerto Rico. She had smashed across the British island of Barbados, and ominous silence enveloped that outpost. The last word came at 10 a.m. when the weather office reported Janet was expected to swing slowly around to a more northerly course which would spell out D-A-N-G-E-R to hundreds of cities and towns where her wanderings might possibly take her. Hurricane warnings flew over all the Windward Islands. This is an island chain which begins with Martinique, a French outpost. It is renowned as the birthplace of Napoleon's Empress Josephine and as the site of Mt. Pelee, a volcano which exploded in 1902, killing 40,000 inhabitants of the former capital city of St. Pierre. Only one man survived in this Pompeii of the new world.

Barbados Suffers Damage

BRIDGETOWN, Barbados (AP)—Hurricane Janet slashed across this Caribbean island Thursday, spreading destruction throughout its 166 square miles. Thousands of persons were left homeless. The first hurricane to hit this British outpost in 87 years, Janet blew apart the flimsy wooden structures in which the poorer of the island's people live. No accurate estimate of the damage was possible Thursday night because all the island's major highways were blocked by uprooted trees or smashed buildings. From Martinique, the Windwards stretch down to the northern coast of South America. INTENSE STORM Dominica, a British island at the south end of the Leeward chain, also was under hurricane warnings. This island is not to be confused with the Dominican Republic on the island of Hispaniola, one of the Greater Antilles. The Leeward and Windward islands form the Lesser Antilles, and with Jamaica are known as Britain's sugar and spice islands. The entire string of islands, large and small—Windward, Leeward and Greater Antilles—separate the Atlantic ocean from the Caribbean sea. Gordon Dunn, chief storm forecaster in the Miami weather bureau, said Janet is a tightly wound up intense storm. Her winds already may have increased beyond the 115-mile reported velocity, he said.

Street Fights Flare In Buenos Aires; Lonardi Edict Dissolves Congress

By SAM SUMMERLIN BUENOS AIRES (AP)—Angry street fights between opponents and supporters of revolt-deposed president Peron flared throughout Buenos Aires Thursday. Several Peronista party centres were smashed. Scores of scattered outbreaks were reported in the provincial government dissolved the Peronista party national congress. It also annulled the naming of two provinces for the deposed president and his late wife, Eva. Although armed troops, tanks and police carrying sub-machine-guns cruised through the streets warning crowds to disperse, they were unable to prevent sudden flareups of violence in this city of nearly 4,000,000. A typical incident came when a group of students smashed into a branch headquarters of the women's Peronista party. They wrecked the place. Pictures of the Perons were ripped from the walls. START BONFIRE Employees of the newspaper La Prensa also stripped their office walls of Peron pictures and busts and made a street bonfire of the debris. La Prensa, once one of South America's most respected independent dailies, was confiscated by the Peron government in 1951 and turned over to the General Confederation of Labor. Its editor, Albert Gainza Paz, fled into exile and now is living in New York. But his son, Maximo Gainza, flew back to Buenos Aires Thursday morning, entering his homeland without any trouble from immigration authorities. A dispatch from Asuncion, Paraguay, meanwhile, said the Paraguayan gunboat Humanita has sailed for Buenos Aires to escort Peron into exile. The fallen president has been given asylum aboard the Humanita's sister ship, the Paraguay, in Buenos Aires harbor.

Canadians May Remain In Viet Nam Some Time

By DAVE MCINTOSH Canadian Press Staff Writer OTTAWA, (CP)—Recent events in Viet Nam raise the possibility that Canada may have to keep troops stationed in that country longer than originally planned. But, officials emphasize, this is only one of myriad possibilities in the developing Indochina situation. Nobody here pretends to know what will happen in the future. There are more than 160 Canadians on the three commissions in the three associated states of Indochina—Viet Nam, Laos and Cambodia. About half this number are in the Viet Nam, where by far the most problems have arisen. SAILOR INJURED NORTH SYDNEY, N. S. (CP)—George White, 54, of Newfound-land, suffered two broken legs and other injuries in that country when struck by an automobile here Wednesday. The victim, who commands the motor vessel L. A. Dumtan, had left a store and was about to cross the street during a storm.
