Charge Of Cheap Politics Made Against Diefenbaker

OTTAWA (CP) — Prime Minister Diefenbaker was accused here of "cheap politics" in making a speech a few weeks ago designed to "cast a slur on the public service of Canada."

The accusation came from Mitchell Sharp, former deputy minister of trade and commerce and Liberal candidate in the Toronto Eglinton riding now held by Finance Minister Fleming.

Mr. Sharp's criticism of the Diefenbaker government covered several subjects, but was concentrated on a recent speech in the House when the prime minister referred to Mr. Sharp and other Liberals as the "people who in the days of war and from 1945 on paralyzed Parliament and interfered with the rights of the provinces."

Mr. Diefenbaker was also quoted as referring to the Liberals as "those who treated Parliament with patent and unconcealed contempt and deprived it of its rights."

Said Mr. Sharp: "The names he mentioned . . . were Walter Gordon, Maurice Lamontagne, C. M. Drury, Tom Kent and myself. When I contemplated this last . . . I was a bit baffled by Mr. Diefenbaker's general description of us.

"During the war, Bud Drury was serving Canada with great distinction on the battlefields of Europe . . . He became deputy minister of defence in 1949; Tom Kent was living in England and did not come to Canada until 1954; Maurice Lamontagne joined the public service in 1954; Walter Gordon had a brief stay in Ottawa as a special adviser to the minister of finance but he returned to Toronto just as I arrived in Ottawa at the beginning of 1942.

"I am the only one of this group who could remotely fit Mr. Diefenbaker's description. At least, I was in Ottawa during the period to which Mr. Diefenbaker referred.

"It is really pretty cheap politics for Mr. Diefenbaker to cast a slur on the public service of Canada just because I and a few of my friends have come to the conclusion that Canada would be better governed by the Liberals than by the Tories and are prepared to do something about it."

Work of Space Scientists Goes On Display At Ottawa

By DAVE McINTOSH

OTTAWA (CP) — The Defence Research Telecommunications Establishment is demonstrating various aspects strated Monday various aspects of its work in detection of intercontinental rockets and improved communications.

This is a sort of homecoming week for the 10-year-old establishment at nearby Shirley Bay and the laboratories have been thrown open for visits by families of the 440 staff members and by invited scientists and technicians. Some 60 displays are on view in the labs.

Much of the establishment's research is concerned with the ionosphere, an electrically-charged layer 60 to 300 miles above the earth which, when pepped up by solar flares, plays hob with radar and radio communications.

Canada's first satellite will probe the ionosphere from its orbit 640 miles in space. Canada had hoped to be the third country with a satellite in space but it appears now Britain will be third by a few months.

PROJECT IS LATE

Officials in charge of the program said Monday launching of the Canadian satellite by the United States space agency will take place about mid-September, some 3½ months after the original target date.

They explain that construction of the satellite took longer than originally planned and one or two critical components have not yet been supplied by the private contractors. The satellite now is under advanced electronic testing.

One display showed the instruments carried by the Canadian Black Brant research rocket into the ionosphere. Another included a tape recording of an actual rocket firing at Fort Churchill, Man. The rocket reached a speed of 4,400 miles an hour on a trip 155 miles into space.

Another showed how the moon has been used as a reflector of radio signals between Canada and England.

Probably the flashiest display was of actual meteor burst communications between Goose Bay, Labrador, and Ottawa.

Goose Bay aims a radio signal into space. Every few seconds the signal runs into the ionized trail of a meteor and it is reflected to Ottawa. The display board lit up with a simulated pink meteor trail on each such reflection.

Antibiotics Used On Cows Pose Threat

OTTAWA (CP) — The health department is warning farmers of a health hazard to humans from the growing use of antibiotics to treat disease in cows.

The solution: Don't sell for human consumption milk taken from cows during four days after such treatment.

Dr. C. A. Morrell, director of the food and drug division of the health department, said the use of antibiotics in treating mastitis—inflammation of the udder—has become fairly common.

Persons drinking such milk could develop bacteria that were resistant to antibiotic treatment, so that antibiotics might not help them if they got an infection in future.

ANCIENT CONGRESS

Iceland claims the oldest continuous legislative body in its Althing, founded in 930 AD

Easy Money Views Given Bank Probe

EDMONTON (CP)—The royal commission on banking and finance got its first sprinkling of Social Credit ideas here when Premier Manning proposed a form of "easy money" for governmental purposes, offset by a tightening of bank credit to guard against inflation.

He said the essential "social capital" requirements of provincial and municipal governments should be met with low-interest loans from the Bank of Canada, thus leaving the existing money market for industry and commerce.

Mr. Manning said this would mean a large credit expansion but suggested that inflationary pressure could be met in part by increasing the chartered banks' reserves, thus limiting to a greater extent their ability to lend money.

He also contended that the inflationary potential would be offset by a production increase, made possible when industry and commerce no longer would have to compete in the money market with governments and thus would benefit from lower interest rates.

These and other points developed in about an hour's questioning of the Alberta premier by the commission. However, Mr. Manning did not submit a formal brief to the commission and its members did not pursue their line of questioning to any great length.

He was the first premier to appear before the commission, now in the second week of public hearings that will continue across Canada for the rest of the year. Premier Bennett of British Columbia failed to show up at a Victoria sitting last week.

SNOW FORCE

BRANDON, Man. (CP) —Snow removal in this city of 25,000 cost $18,288 to the end of February. A labor force of 55 men and a fleet of 24 vehicles is used to keep streets clear.

RIPLEY'S BELIEVE IT OR NOT

CONTRACT BRIDGE

By B. JAY BECKER

South dealer.
Both sides vulnerable.

NORTH
♠ 7 4 3
♥ A Q 6
♦ A J 2
♣ Q J 8 5

WEST
♠ —
♥ J 10 9 5
♦ 9 8 5 4
♣ 10 6 4 3

EAST
♠ J 9 6
♥ 8 7 4 2
♦ Q 10 7 3
♣ 7 2

SOUTH
♠ A Q 10 8 5 2
♥ K 3
♦ K 6
♣ A K 9

The bidding:

South	West	North	East
1 ♠	Pass	2 NT	Pass
3 ♠	Pass	4 ♠	Pass
4 NT	Pass	5 ♥	Pass
6 NT	Pass	6 ♠	Pass
6 ♠			

Opening lead—Jack of hearts.

The Blackwood convention is valuable chiefly because it permits the discovery of specific rather than general values.

For example, in this hand, when North responds two no-trump (13 to 15 points), South is desirous of knowing whether North's hand includes two aces and a king. South intends to bid a grand slam in this case.

After he learns from the five heart response that North has the necessary two aces, South then discovers that North has no kings. So he settles for a small slam, since it would be poor policy to bid a grand slam knowing that the king of spades is missing.

West leads a heart and South sees that even the small slam is in some kind of danger. It is possible for West to have two trump tricks (he may have the K-J-x or K-J-x-x of spades).

But declarer cannot play the hand on the supposition that this is the case. He must play on the basis that the contract can be made and devote his efforts to dealing only with those hands the defenders might have that render the contract makable.

Accordingly, he wins the heart and plays the ace of spades. Fortunately, in this hand, he catches the king, and this then permits him to enter dummy to lead a spade and finesse the ten to make all the tricks.

The play of the ace is by no means just a lucky shot. It is a safety play that guarantees the contract if it is possible to make it. It protects against East's having been dealt K-J-x-x, K-J-x, K-x-x, J-x-x, K-J, K-x, J-x, x-x, or the singleton king or jack.

If declarer were to start by finessing the queen and lost to the king, he might run into a difficult guess later when he led another spade from dummy and East followed low. South would then, have to decide whether West had started with the K-J alone or the singleton king.

This unpleasant situation is avoided by using the safety play.

Yesterday's Answer

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X E
L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
