### A Big Mistake.

The moulting season, or the season when hens shed their feathers will soon be at an end. The process is one that in certain respects debilitates and prevents hens from laying. The reason of this is that the growing of new feathers requires all the nitrogen and phosphates contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the lime contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells. The formation of new feathers does not require any carbonaceous or fat producing food, consequently well fed hens get very fat during the moulting. Many farmers and poultry raisers not understanding all about these things kill off their old hens because they think they have stopped laying and are fat. This is a great mistake, because if the proper material be furnished them with their food to supply the increased demand for nitrogen and phosphates before mentioned the old hens will be through shedding feathers much sooner and will begin laying on the approach of cold weather and they will continue to lay vigorously all winter, while the young pullets, reserved to take the place of the old hens may not begin to lay until much later in the season. Very many people have learned from experience that Sheridan's Condition Powder mixed once daily with their food will supply the extra material needed to strengthen and invigorate their hens, enabling them to grow new plumage quickly and commence laying early. Those who commence now to use Sheridan Powder, will find that their young pullets will commence to lay at from 4 to 6 months old, and will lay continuously through the winter. The Farmers' Poultry Raising Guide, published by I S. Johnson & Co., at 22 Custom House St., Boston, at 25 cents, contains a vast amount of information on this subject, Johnson & Co., will send postpaid, two 25 cent packs of powder and one Guide for 60 cents, or a 2½ lb can of the powder, postage or express prepaid for $1.20 and a guide free.

The assessed value of ecclesiastical real estate in Montreal is $3,412,000, but The Canada Revue claims the real value of these exempted properties is $8,211,000.

England's egg-bill grows yearly greater. Last year the people of the United Kingdom paid outsiders £3,520,918 for eggs, against £2,200,000 in 1880 and £1,200,000 in 1880. Into this capacious maw Canada poured in 1889 821,930 dozens, in 1890 1,545,260 dozens, and in 1891 4,807,806 dozens, the value being given in the British statistics for each year as respectively £29,862, £58,107 and £160,496. The Canadian producer may rest assured that he has struck the right market for his wares.

### Summerside Exports.

SUMMERSIDE, Sept. 9.

Per str Northumberland, Cameron master, for Point Duchene :

GRATIFYING TO ALL.—The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrates the value of the qualities on which its success is based, and are abundantly gratifying to the California Fig Syrup Company.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1yr

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat, in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores.

## The Telephone Company
—OF—
## P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.

ROB ANGUS, Manager.
