**INFORMATION FOR FARMERS.**  
 Prof. Saunders, director of Experiment-  
 al farms, addressed the committee on  
 Agriculture a few days ago, and gave  
 a great deal of valuable information con-  
 cerning tests made in growing varieties of  
 oats, wheat, barley and peas. He said,  
 according to the returns, there was a dif-  
 ference of nearly 14 bushels per acre be-  
 tween the average yield of oats in Canada,  
 and 20 bushels when compared with  
 the yield in Holland. This was a very  
 serious question in its bearing on the  
 profits of farming, since every bushel per  
 acre increases on the average crop of Can-  
 ada a gain to the farmers of this  
 country, estimating the oats at an average  
 value of one cent per pound, of \$825,000.  
 There were two lines of advance  
 open to us in regard to the  
 improvement of this, as well  
 as of all other crops. The first is better  
 farming, and the second, and perhaps equal  
 in importance, the exercise of greater  
 care in the selection of seed, so as to  
 only the more prolific sorts. He then  
 gave the results of 44 varieties of oats, all  
 sown on the same day, at the Central Ex-  
 perimental Farm, Ottawa, and the branch  
 farms at Napan, N. S., Brandon, Man.,  
 Indian Head, N. W. T., and Agassiz, B. C.  
 Putting all the plots together, it was  
 found that the average of the whole was  
 69 bushels, 8 pounds per acre, and the  
 average difference between those varieties  
 which gave the poorest crop in each farm  
 and those which gave the best was 52  
 bushels 1 pound. The twelve varieties  
 which had averaged best at all the Ex-  
 perimental farms, and hence might be re-  
 garded as amongst the most productive  
 ones in the Dominion, were the following,  
 in the order of their average yield:

Bush.	Lb.
American Beauty.....	75 16
Golden Beauty.....	74 26
Banner.....	73 21
Abundance.....	72 12
Columbus.....	72 4
White Schonan.....	69 31
Early Golden Prolific.....	69 16
Bayaran.....	67 32
Olderbruch.....	67 32
Aysinia.....	67 20
Improved Legow.....	67
Early Archangel.....	65 4

With respect to wheat, according to the  
 returns for 1895, the average yield  
 was 14 1/2 bushels, as compared with 28 1/2  
 bushels for Great Britain and 34 1/2 for  
 Denmark. As in the case of oats, thirty-  
 five varieties of wheat had been grown in  
 each of the Experimental farms in un-  
 der the same name, and the average yield  
 of the whole was 29 bushels 48 pounds  
 per acre. The average difference between  
 those varieties which gave the  
 lowest yield on each farm, and those that  
 gave the highest was 29 bushels 18 lb.  
 The twelve varieties of spring wheat  
 which had averaged the best over the  
 whole series were as follows:

Bush.	Lb.
Preston.....	34 44
White Fife.....	32 2
Old Red River.....	32 48
Advance.....	32 18
Red Fife.....	31 49
Big Gravel.....	31 40
Herion Bearded.....	31 22
Red Fife.....	31 6
Stanley.....	30 47
Alpha.....	30 49
Admiral.....	30 32
Crown.....	30 8

The average of the barley crop of Can-  
 ada was given as 24 1/2 bushels, against  
 31 1/2 in Great Britain, and 42 1/2 in Holland.  
 The results were given of tests of the  
 different varieties of six-rowed barley, sown  
 last year on test plots on all the Experi-  
 mental farms. The average yield, taking  
 into account the returns from all the  
 farms, was 43 bushels 33 pounds per acre.  
 The six varieties of six-rowed barley  
 which had averaged best throughout, tak-  
 ing all the results into consideration,  
 were—

Bushels.	Pounds.
Odesa.....	50 30
Henry.....	45 32
Trooper.....	42 2
Royal.....	42 35
Common.....	43 36
Vanguard.....	43 28

The six varieties which had given the  
 best results throughout, taking into con-  
 sideration all the tests, were—

Bushels.	Pounds.
French Chevalier.....	47 25
Canadian Thorpe.....	44 25
Danish Chevalier.....	41 6
Newton.....	40 30
Sidney.....	40 15
Prize Prolific.....	40 11

**THE BEST is what the People  
 buy the most of. That's Why  
 Hood's Sarsaparilla has the largest  
 sale OF ALL MEDICINES.**

A hatchet bearing the name of Robert  
 La Salle, the French explorer, the motto  
 "Ad Majorem Dei Gloriam," and the date  
 1682, was found embedded in the trunk of  
 a tree which was cut down in southern  
 Cheboygan county, Mich., a few days  
 ago. The wood had grown completely  
 around the hatchet, and there was no sign  
 of its presence on the outside. The date  
 is probably that of the manufacture of the  
 hatchet. The motto is that of the Jesuit  
 order to which La Salle belonged.

**Could not get insured.**  
 Rejected by Straight Line and Mutual Companies.  
 But now insured in both.

"Should I die while I am in a position to pay my insurance premiums, my family will owe their support to Scott's Sarsaparilla. Two years ago I applied to two companies for insurance, \$1000 in each. My face was a mass of pimply blotches and my urine did not stand the test. One doctor in examining me said that he did not pass, but that my trouble was curable. He advised an alternative medicine, and I commenced taking Scott's Sarsaparilla. Both companies rejected me, but four months later, after I had taken five bottles of your remedy I am thankful to say both accepted me as a risk—one being a stock company, the other a mutual. The examiner who previously examined me, remarked "I never saw such a change in any man." This is indeed true. J. J. Godd, the popular druggist, corner Queen and Crawford Streets, Toronto.

Scott's Sarsaparilla builds up debilitated constitutions, imparts strength, vigor and vitality, clears and purifies the blood. It cures skin diseases, rheumatism, gout, indigestion and all complaints arising from impure or poisoned blood. Of all druggists, \$1 per bottle.

**DUNRAVEN'S MISTAKE.**

The expulsion of Lord Dunraven from the New York Yacht Club will probably have one satisfactory result, namely, to prevent any further challenge for the America's cup. The expulsion will likely put an end to friendly relations between the yachtsmen on either side of the Atlantic. It will be well if this be so, in view of the fact that the spirit in which United States yachtsmen have defended the cup has not been the spirit of gentlemen and sportsmen, but the spirit of hucksters grasping every possible advantage; a fact which has been at the bottom of the past unpleasantness, and would continue to cause unpleasantness in the future. Lord Dunraven made the mistake over here of thinking that what was sauce for the American goose was sauce for the British gander. He saw the New York Yacht Club sticking like leeches to their rights, and he thought he ought to have his rights too. The New York Yacht Club has shown the blooming Britisher his mistake. May the rest of the blooming Britishers see the point, and wisely leave the America's cup to the unchallenged care of the New York sharpers.—Ottawa Journal.

**BIG CLAIMS FOR A RIFLE.**  
 Dr. S. F. McClean, of Washington, Ia., who has invented an army rifle that is causing astonishment among military men wherever it is exhibited, left Chicago for New York a few days ago to enter his rifle in a competition before a committee of the state legislature which was appointed to equip the National Guard of that state with 15,000 new guns. The invention has been fully patented. A single straight movement of the hammer discharges the rifle, which has a capacity of five cartridges at present. It is filled by one movement from a case containing the cartridges. The new contrivance makes clogging of the rifle or disarrangement of the cartridges impossible. It is lighter than other rifles, and 750 rounds have been fired at one time to test its endurance and faithfulness to aim.

The Toronto Journal would like to bet a hat that England will quit Egypt—when the millennium comes.

Dr. Churehill Justice, bishop of Christ church, New Zealand, has appeared in public on a religious mission. He is very non-complacent. Some time ago he insisted on laying the last brick on the restored spire of his cathedral and was hoisted up in a chair at the end of a rope. He recently addressed a congregation he was visiting in Thomas A. Eliot has been exceedingly kind to his father—who has been all over Europe and has made frequent trips to Florida in the winter. "Tom is a good boy," said the old man on one occasion, "he sends me around to have good times." A cross suit is one that is taken across the maternal lap, the small boy being in the suit.

**THE EXAMINER PUBLISHING CO.**

**LITERARY NOTES.**

The March number of the Delineator is called the Great Spring Number, and is especially valuable and interesting because of the early forecast it contains of spring and summer styles and materials for ladies, misses and children. The first of a series of articles on current events of interest to women, by Mrs. Frederic Rhineland Jones, appears in this number. Mrs. Oliver Bell Bance contributes an instructive article on "Perfumes and other Toilet Preparations." Lucia Gilbert Runkle brings to the discussion of "Literature as a Profession for Women" the authority of acknowledged celebrity as a writer, while Tillie Krome Little has a bright and helpful description of some new and pretty tannin and German favors in silk and other materials. "Mam' Julie," an amusing and pathetic dialogue sketch of Southern life, introduces a new writer to readers of this magazine. In the domain of the kitchen the number is freighted with good things: Mrs. A. B. Longstreet writes upon the "Chemistry of Food"; Helen Combes tells about an "English High Tea," and the dishes prepared for it, and the regular article on "Seasonable Cookery" deals with the chafing dish and dishes to be prepared in it. Other features include the second paper on the "Care of the Teeth," Elina Witherpoon's Tea Table Chat, Sara Miller Kirby's Kindergarten paper, the usual notices of new books and the Novelties in lace making, knitting, tatting, crocheting, etc. Subscription price of the Delineator is \$1.00 a year, or 15 cents per single copy. Leave your subscription with the local Butterick Pattern agency, or address the Delineator Publishing Co., of Toronto, Limited, Toronto, Ont., 33 Richmond St. West.

**TO BRITAIN.**

O, Britain, famed among the nations long,  
 As arbiter of her too weak to stand  
 Against the fierce oppressor, now thy hand  
 To help Armenia 'gainst the wrong  
 That she has long been suffering from the strong  
 And cruel grasp of Ismaili,  
 Put forth without delay, Armenia's cry  
 Has risen unto Heaven. Her martyrs  
 Impatient, at the foot of God's white  
 throne,  
 And call for vengeance on the murderer.  
 Say, where's the boasted courage thou  
 hast shown  
 When oft thou hast o'erthrown the con-  
 queror?  
 Awake! for Freedom strike another blow!  
 That Christ has warriors yet, let Moslems  
 know.  
 HENRY HARVEY STUART,  
 Teacher,  
 McAdam Junction, N. B. Feb. 23, '96.

A German scientist has found very deadly bacteria in Russian wheat, and the Agrarians are agitating for the exclusion of foreign grain.

The Pall Mall Gazette says that if the tentative negotiations now in progress become tangible, France will offer to abandon her interests in Newfoundland in exchange for concessions in Egypt.

The representative of a syndicate of English capitalists has just purchased 500,000 acres of coffee land on the Isthmus of Tehuacan, Mexico. The tract will be planted in coffee trees.

About 15,000 tons of starch has been made from potatoes this season in the three States of Wisconsin, Minnesota and North Dakota. Not far from three and a half million bushels of potatoes have been used.

In New York city the cobblers are nearly all foreigners. Many of them are Italians, the rest are Germans, Hungarians, etc. Very few are native Americans.

**Catarrh in the Head**

Is a dangerous disease because it is liable to result in loss of hearing or smell, or develop into consumption. Read the following:

"My wife has been a sufferer from catarrh for the past four years and the disease had gone so far that her eyesight was affected so that for nearly a year she was unable to read for more than five minutes at a time. She suffered severe pains in the head and at times was almost distracted. About Christmas, she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has taken six bottles of Hood's Sarsaparilla and is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it."—W. H. FURNESS, Newmarket, Ontario.

**Hood's Sarsaparilla  
 Is the Only  
 True Blood Purifier**  
 Prominently in the public eye today.

**Hood's Pills cure habitual constipation. Price 50c. per box.**

The Pall Mall Gazette says that Dr. Carl Peters, the African Explorer, who was recently elected president of the German Colonial Association, is about to undertake a new exploration of Somaliland in the interests of a number of wealthy Americans.

During the recent war amenities between England and Germany, the London Shipping Exchange sent the following telegram to the German Emperor: "No need to send 5,000 Germans from your country; we can most readily spare them from here."

The youngest member of the British Parliament is Lord Milton, who is 23. There is 70 years' difference between his age and that of Charles Pelham Villiers, "the father of the House of Commons." Among other youthful members of the new parliament are A. B. Balhurst, 23; Richard Cavendish, 24 and T. B. Curran, 25.

**LOWERING THE RATE OF INTEREST.**

Mr. Mullock's bill to lower the legal rate of interest from six to four per cent., created much discussion when it came before the Committee on Banking and Commerce. In order to oppose the bill successfully, the council of the Montreal Board of Trade is sending a delegation to Ottawa, composed of Messrs. F. and W. Wolfertan, Thomas, James Crutcher, and Charles Chaput. The Ottawa Board of Trade has also considered the question, and unanimously adopted a resolution declaring that the proposed change would not only be detrimental to the commerce of Canada, but would injuriously affect the investment of foreign money in this country. During the discussion Mr. Geo. Burn expressed his sympathy with the motion, and said that in forty-eight out of the fifty States in the Union the rate was six per cent., and in the other two, Illinois and Louisiana, it was five per cent. It seemed him that if a man incurred an obligation to pay a certain amount of money at a certain time, it was putting a premium on him making a default to know that the rate of interest would be reduced. The proposition, in his opinion, would have the opposite effect of that intended, for the borrower, instead of being benefited, would only be pressed harder for payment. Toronto bankers also went to Ottawa, and expressed their opposition to the bill. The bill was thrown out on Thursday last.—Montreal Times.

**WANT CORSETS AND HAIRPICES.**

The Canadian-Australian liner Mowera, which recently arrived at Vancouver, received an interesting report from the ship Darford, which she spoke just before leaving Australian waters. The captain of the Darford stated that when passing that isolated spot in the South Atlantic, Tristan d'Acunha, on his way from London, a boat came off and hailed him. Xmas were lacking and a boat was found containing men, who brought potatoes, eggs, milk and penguin skins for trade. They wanted ship's stores, stating that they were in great need on the island. They depended upon passing ships for clothing, flour, tea, rice and sugar. When the Darford passed they had been for six months without seeing a ship. The Darford was able to let them have groceries and a few other odds and ends.

Corsets, hairpins and ribbons were then requested, as well as female apparel, but as sailing ships carry no such stores, the ladies of Tristan were left to "suffer."

The population of the island is very small, the females being three to one. They consider themselves English, though under the care of no flag. The latest addition to the colony is the second mate of a wrecked vessel, the Allan Shaw, who was seized and married almost as soon as the waves cast him ashore.
