Canada's Foreign Trade Surplus At Six-Year High, Ottawa Reports

OTTAWA, Aug. 26 — (CP) — Canada's surplus in foreign trade climbed to a six-year high of \$164,400,000 in the first half of 1952, a marked contrast to a record deficit of \$339,000,000 in the similar period last year.

Coming Events

- **Dance, Orwell Hall, September 1st.
- **Barn Dance, Morell, tonight. Burns Orchestra.
- **Dance, Howe's Hall, Brackley Beach every Friday.
- **Remember the Missionary Rally at North Wiltshire today, at 2.30.
- **Dance, South Melville School, Friday, August 29th. Good music.
- **Dance, St. Charles Hall, every Thursday, 9.30 to 1. Chaisson's Orchestra.
- **Show in Morell Hall on Tuesday, Friday and Saturday only at 8.30 P. M.
- **Ice Cream Festival and Dance, Cherry Hill School, Wednesday, August 27th.
- **Unloading car bulk wheat today, \$3.25 cwt. Bring bags, Dillon and Spillet.
- **Dance, Stella Maris Hall, every Wednesday. Munroe's Orchestra. Canteen service.
- **Dance, Elmwood School, Friday, August 29th. Good music and canteen service.
- **Sandy's Drive-In Theatre, shows Tuesdays, Wednesdays and Fridays at 9 P. M.
- **Show, Afton Hall Wednesday. "To Please a Lady", starring Clark Gable. Show time 8.30.
- **Dance, Point de Roche School, Wednesday, August 27th. Refreshments. Burke's Orchestra.
- **Ligon Dance in Waxing Plant at Canoe Cove, Friday, August 29th. Good music, refreshments.
- **Lads and Lassies Band Concert tonight, Pownall Hall, 8.15. Sponsored by the Alexander W. I.
- **Barn dance at Fenner Street, Brackley, Tuesday, August 26th. Canteen service. Bus leaving I. M. T. at 9.30.
- **Pantry Sale at Fennell and Chandler, on Saturday, August 30th, at 2.30 P. M. In aid of Birch Hill Ladies Auxiliary.
- **Weekly Thursday night Dance Mt. Stewart Canadian Legion Hall MacKenzie Orchestra. Canteen service. Admission 50 cents.
- **Official opening new St. Ignace School, Mayfield, Wednesday, August 27th. Chicken supper games and dance.
- **P. W. Small's Tinsmith Shop will be closed during September. Please call for repaired goods or orders before August 30th.
- **Will be receiving at our Kensington warehouse Timothy Seed, cleaned or uncleaned. Paying top market price. H. B. Willis Inc.
- **Come to Ice Cream, Sandwiches and Tea at Frank Wood's, Cross Roads, Thursday evening, August 28th in aid of Alexandra Church.
- **Scottish concert in Victoria Hall, Sept. 3rd, 8.30 p.m., featuring Major Wallace Roy. Highland Dancing, Scottish Songs and Readings.
- **Come to Quaker Ful-O-Pep Film Show and feeders meeting in York Hall, Wednesday, Aug. 27th, at 8.45 p.m. Everyone welcome. Admission free.
- **Will be landing hogs at the following points each Thursday, Summerside until 1.30 p.m. and Kensington until 3.00 p.m. MacEwen and Casley.
- **Come to Quaker Ful-O-Pep Film Show and Feeders Meeting, Saturday, August 30th, 8.45 P. M. at L.B. Segman's Warehouse, Breadalbane. Admission free.
- **Come to the Picnic sponsored by the O'Leary United Church on Thursday, August 28th. Lunches will be sold. There will be different kinds of games and a good time for everyone.

of \$44,600,000 in June last year, the Bureau of Statistics reported today. The 1952 surplus was the biggest since the \$104,000,000 surplus in the first half of 1946.

Completing its half-year estimates, the bureau placed total exports at a peak of \$2,114,700,000, a gain from \$1,762,600,000 in the first half of 1951 and more than five times greater than the pre-war total of \$392,400,000 in 1938.

The 1952 exports record was achieved by a 17-per-cent boost in volume and a 2.5-per-cent gain price. Volume of exports and imports was higher in the first six months than any similar period since the end of the Second World War.

The dollar value of imports slipped slightly in the half year to \$1,950,300,000 from the peak of \$2,102,400,000. But imports were higher than the \$1,453,100,000 in 1950 and about six times greater than the \$336,700,000 in pre-war 1938.

The bureau estimated that though volume of imports increased by two per cent, prices slipped by nine per cent.

The biggest single factor in shaping the surplus was a sharp boost in sales to the United Kingdom, while imports slid. Exports in the six months jumped to \$396,200,000 from \$254,000,000 in the previous year. Imports slid to \$161,400,000 from \$224,600,000.

Trade with the United States, Canada's top customer, remained almost unchanged from 1951 — and so did the deficit. Exports edged ahead slightly to \$1,113,300,000 from \$1,109,800,000 while imports eased to \$1,457,800,000 from \$1,471,100,000.

Canada's top customer, remained almost unchanged from 1951 — and so did the deficit. Exports edged ahead slightly to \$1,113,300,000 from \$1,109,800,000 while imports eased to \$1,457,800,000 from \$1,471,100,000.

Will Mean Increase In Construction

WASHINGTON, Aug. 26 — (AP) — Government officials announced today they plan to release more steel, copper and aluminum for construction by next April at the latest. This will mean:

1. Considerably larger supplies for schools, roads, office buildings, apartment houses, stores and many other types of heavy construction.

2. Lifting of the two-year ban on building race tracks, pool halls and other recreational facilities.

A general liberalizing of curbs on materials was announced by the National Production Authority at a meeting of its construction advisory committee.

Canada does not issue purchase permits for steel for use in non-essential construction such as theatres, bowling alleys and dance halls. About one-third of Canada's steel needs are filled by imports from the United States and most of what is imported goes to high-priority defence work.

New Jobs May Open In Army And Air Force

By Douglas How
OTTAWA, Aug. 26 — (CP) — Two important new faces will show up in Europe this year to take command of Canada's Atlantic Pact air and ground forces.

The R. C. A. F. expects to name this fall a commanding officer for the 12-squadron, 7,000-man air division Canada has pledged for joint defence of Western Europe by 1954.

Six of the squadrons will be overseas by the end of October and Air Vice-Marshal Hugh Campbell, 44-year-old native of Salisbury, N. B., may be the boss.

In addition, Brig. Geoffrey Walsh, 42, is scheduled to leave the command of the army's 27th Brigade in Germany before the end of the year and bring up the rear in a homeward trip of 1,900 married members of the brigade.

The army hasn't decided who will succeed him but the name of Brig. J. E. C. Pangman, 44, of Toronto, figures in headquarters speculation.

Neither has the air force decided who will get the job of commanding the air division but conjecture pivots on the name of Air Vice-Marshal Campbell.

He is an expert on the Atlantic Pact generally after a couple of years in Washington as head of Canada's military mission and as Canada's spokesman to the standing group, the No. 1 military body in the pact setup. His assignment to Washington is due to end this year, making him available for the post.

Retirement This Week Of Mr. Chester E. Shaw

Mr. Chester E. Shaw, District Fruit and Vegetable Inspector in the Dominion Department of Agriculture is retiring at the end of this week after many years of service.

Probably more than anyone else here Mr. Shaw was responsible for persuading growers and shippers of the advantages of selling by grade. Soon people learned that inspected cars were better and safer to buy. Two years after he began his work the growers and shippers were unanimously agreed on making compulsory the inspection of all potatoes leaving the Province.

When he began his work in 1926 the Province had the services of one inspector only for a three months period each year. Soon he had eight inspectors and today there is a staff of 36 inspectors as well as office personnel.

Mr. Shaw is a native of DeSable P. E. I., a son of the late Mr. and Mrs. Neil Shaw, and was born there in 1883. After receiving his early education at the local school he worked at different times as a salesman for machinery and for life insurance. He started in the inspection service here first in 1926 and was here until 1931. He returned in 1936 and has stayed ever since.

One of the biggest problems he had to handle during that time was the large wartime order for potatoes from Great Britain. Mr. Shaw had charge of the grading by inspection service and later had the pleasure of knowing that the British Ministry of Food had written his department expressing its pleasure with the excellence of the product.

Mr. Shaw, who has a small farm at DeSable, is married and has two children, Mrs. Stewart MacFarlane, Winsloe, and Victor Shaw, Belvedere.

He will be succeeded as District Inspector by Mr. W. P. MacLeod, East Royalty, who also has a long record of service. Mr. MacLeod entered the branch as inspector in 1937 remaining on that job for seven years. Since 1944 he has been attached to the office staff as senior inspector. He will assume his new duties on September 1.

Mr. Shaw, who has a small farm at DeSable, is married and has two children, Mrs. Stewart MacFarlane, Winsloe, and Victor Shaw, Belvedere.

Mr. Shaw, who has a small farm at DeSable, is married and has two children, Mrs. Stewart MacFarlane, Winsloe, and Victor Shaw, Belvedere.

One Communist Prisoner Killed, 52 Wounded

By William C. Bernard

SEOUL, Aug. 27 — (Wednesday) — (AP) — Disorders boiled anew this month on turbulent Koje Island, the United States Eighth Army belatedly reporting one Communist war prisoner killed and 52 wounded in four outbreaks.

The army in three announcements Tuesday also reported a fifth outbreak on Cheju Island. Thousands of prisoners were sent there after the reign of Red terror in Koje Prison camps was broken this year.

Unlike the Koje violence, Cheju defiance was put down without bloodshed, the army said. Both islands are off the southern coast of Korea.

The first outbreak on Koje, where presumably the army had stifled the rebellious spirit of hardcore Communists, occurred Aug. 11. The other incidents erupted over a period ending Aug. 23.

An army spokesman said there was no intent to withhold the information in the camp command for Tuesday's first announcement of rioting Aug. 11 came only after the Associated Press inquired about an alleged outbreak a year ago on Koje reported by Peiping radio.

Disclosure of the new troubles came on the eve of another meeting of Allied and Red truce delegates, in recess for a week.

The latest reported incident flared Saturday on Koje when Red prisoners became unruly, demonstrated by singing Communist songs and refused two written orders to desist.

A U. S. rifle company fired into the compound and restored order. The army said one Red was killed and 12 were wounded. The leaders were removed and placed under "maximum security precaution."

Use Tear Gas, Buckshot
The first trouble came Aug. 11. An Allied battalion suppressed rock-throwing prisoners by throwing 80 tear gas grenades and firing 12 rounds of buckshot from riot guns into their compound. The army said 38 Reds were injured.

Two days later Allied guards quelled another Koje demonstration. (Continued on Page 5 Col. 1)

Britain Claims World's Most Effective Jet Fighter Plane

LONDON, Aug. 27 — (Wednesday) — (AP) — The Gloster Javelin, Britain's new jet flying triangle, was described officially today as faster than sound and "the most effective fighter in the world."

An announcement authorized by the R.A.F. said the strange-looking plane, packed with secret radar gear for high speed combat miles above the earth, is alone in its class.

The security veil was partly lifted from the fighter, with official approval, by Percy Grabbe, managing director of the Gloster Company which developed it.

The Javelin is the world's first twin-engined fighter of the delta, or triangle, wing design. With its complicated radar equipment it can operate in any weather, day or night.

The plane is 57 feet long and has a wing span of 52 feet. The tip of its tail stands 17 feet from the ground.

Although the Javelin can fly faster than sound—660 miles an hour at sea level—it is "more manoeuvrable and docile at lower speeds than any fighter since the biplane era," Grabbe said.

It is specifically designed, he continued, to fight off jet bombers.

PRINCE ALBERT, Sask., Aug. 26 — (CP) — Divers from Vancouver are scheduled to join in the search for two missing airmen and the wreckage of their R. C. A. F. training plane at Redberry Lake, 112 miles southwest of here.

The plane made a forced landing on the lake Aug. 18 and sank in 60 to 75 feet of water.

One of the three men aboard, PO. D. A. Ernst of Orangeville, Ont., swam to safety. Drowned were FO. D. M. Hildebrand, 33 of Saskatoon and FO. W. F. Robson, 21, of Pelly, Sask.

Dredging operations have been hampered so far by wind and rough water.

KILLED IN ACCIDENT
SAINT JOHN, N. B., Aug. 26 — (CP) — Floyd Scott, 18, of Chamcook, died early today shortly after a small truck he was driving left the road at Spruce Lake. Three other occupants escaped injury. No inquest will be held.

STUDIES AIR STRENGTH — Air Marshal W. A. Curtis, 59, chief of Canada's air staff, is in Europe inspecting air fields allocated to the R. C. A. F. on the continent and studying others suggested for Canadian use. Three squadrons of jet fighters are scheduled to leave in October for Europe. It is the second of four wings Canada has promised to have in Europe by 1954. Air Marshal Curtis was born in Havlock, Ont., and as a fighter pilot in the First World War was credited with 13 German planes. Between wars he was in the reserve of the Canadian Air Force. His rise was rapid in the Second World War and in 1941 he went overseas. In 1944 he was made air member for air staff in Ottawa and in September, 1947, he became chief of the air staff. (CP Photo)

News In Brief

WASHINGTON, Aug. 26 — (AP) — The American College of Cardiology of New York announced today the founding of the world's first electron-microscopic research laboratory devoted entirely to the study of heart diseases.

LONDON, Aug. 26 — (Reuters) — Society matchmakers are linking the names of janky Billy Wallace, wealthy bachelor, and sometime suitor of Princess Margaret, Jo Kay Kendall, London showgirl. Wallace was once top favorite for the hand of Princess Margaret but nothing came of the rumored romance.

LONDON, Aug. 26 — (CP) — Canada's aircraft carrier Magnificent will make a two-week visit to Northern Ireland, the naval base here announced today. The carrier will arrive at Belfast Thursday and remain there until Sept. 3, the announcement added. She will then visit Bangor and Portrush, leaving Sept. 17.

TOKYO, Aug. 26 — (AP) — The Japanese National Police Reserve will be equipped with heavy artillery and tanks within 30 days, the newspapers Asahi and Tokyo Shimbun reported today. Asahi said the government has reached an agreement with Brig-Gen. Leroy Watson, chief U. S. military adviser to the N. P. R., to borrow heavy arms "gratis."

MAN PROPOSES AND FROM THEN ON IT'S ALL THE WOMAN'S WAY.

HALIFAX, Aug. 26 — (C.P.) — Official forecasts issued by the Dominion Public Weather Office in Halifax and valid until midnight Wednesday.

A heat wave will continue over most of the Maritimes Wednesday but cooler air surging southward over Eastern Quebec will keep the temperatures lower in Cape Breton and along the north shore of the Gulf of St. Lawrence.

Regional Forecasts: Prince Edward Island — clear and warmer. Light winds. Low and high at Charlottetown 54 and 85. High tide today at Charlottetown at 2.05 A. M. and 3.11 P. M. High tide on the North Shore at 9.57 A. M. and 9.34 P. M. Sun rises today at 5.38 A. M. and sets at 7.00 P. M.

Bush Pilot Brilliant In Crash Landing

RIVERTON, Man., Aug. 26 — (CP) — An 18-year-old bush pilot, blood-blinded one eye, crash-landed his crippled seaplane in a farmer's field last night after barely missing the residential section of Riverton, 86 miles north of Winnipeg.

Three men in the aircraft, owned by Riverton Airways, were injured. Six other occupants escaped injury.

While one passenger dabbed blood from Pilot Bob Shinnie's injured eye and others struggled to subdue a panic-stricken companion, Shinnie nursed the plane over Riverton with one pontoon dangling from an earlier mishap. The passengers tossed baggage, seats and gasoline drums overboard to lessen the weight.

Then Shinnie brought the plane in on its one good pontoon. The aircraft overturned and broke in halves when it hit.

The plane was returning to Riverton from Norway House with construction workers aboard.

Shinnie said a down draft over a lake about 60 miles from here forced the plane sharply down. A pontoon clipped the water, breaking a strut, and Shinnie was smashed against the control panel. Blood from a gash blinded his left eye as he fought to regain altitude.

He said he had been flying low because of strong head winds. Shinnie said he hadn't tried to land the crippled aircraft on water because he feared he and his passengers would be drowned.

Airmen Rescued From Stormy Gulf Of Mexico

PANAMA CITY, Fla., Aug. 26 — (AP) — Two weary airmen who twice cheated death were scooped up out of the stormy Gulf of Mexico by a Coast Guard minesweeper today and brought to hospital here.

British Jet Bomber Makes Aviation History

ALDERGROVE AIR FIELD, Northern Ireland, Aug. 26 — (AP) — A British twin-jet Canberra bomber hurtled across the Atlantic Ocean to Newfoundland and back today in the record smashing time of 10 hours, 20 minutes.

It was the first time any plane had made the round-trip in one day.

The veteran three-man crew, headed by Wing Cmdr. Roland Beaumont, had breakfast before leaving, ate a mid-morning snack during a two-hour refuelling stop at Gander, Nfld., and got back in time for tea.

"We had a very nice trip," Beaumont said as he climbed from the cockpit.

The unofficial flying time for the fantastic 4,144-mile round-trip was recorded by the plane's makers, the English Electric Company, as seven hours, 59 minutes.

The log of the Canberra in British daylight time, five hours ahead of eastern daylight time: 6:34 A.M. — Jet left Aldergrove. 11:08 A.M. — Flashed over Gander. 1:11 P.M. — Left Gander. 4:36 P.M. — Flashed over Aldergrove.

St. Laurent Returns To Desk; Prepares For Tour

OTTAWA, Aug. 26 — (CP) — Prime Minister St. Laurent, rested after a seven-week holiday, returned to his desk today, tackled a backlog of work and studied arrangements for a forthcoming visit to western Canada.

The 70-year-old Prime Minister arrived by train last night from his summer home at St. Patrick, Que.

He spent part of the day with Trade Minister Howe, who has been acting prime minister. Tomorrow he will preside at the regular weekly cabinet meeting and Thursday he will leave on a 16-day meet-the-people tour of parts of Ontario and Western Canada.

His tour, the biggest since the 1949 election campaign, calls for three brief stops in Ontario—Orillia, Midland and Penetanguishene. He will continue by train to Calgary, B. C., for a Labor Day visit Sept. 1.

Originally, he was scheduled to visit Cranbrook and Kimberley, but the visits were cancelled because of an outbreak of poliomyelitis.

He is due at Penitence, Kelowna and Vernon Sept. 2. He will spend the next two days in Vancouver at the annual meeting of the Canadian Bar Association and at ceremonies at the University of British Columbia.

He will cross to Vancouver Island Sept. 5 and visit Victoria. The next day he will move up through the island. He will go from there to Powell River and then to Prince George and Kamloops.

He will stop briefly at Edmonton and travel by train to Portage la Prairie, Man., to address a meeting Sept. 9. He has another speech scheduled in Winnipeg the next day and another in Hamilton Sept. 12.

Mr. St. Laurent is due back in Ottawa Sept. 13.

(Continued on Page 6 Col. 1)

C. A. Kitchen Dies In Fredericton

FREDERICTON, Aug. 26 — (CP) — Albert Kitchen, widely known in provincial business, fraternal and sports circles, died today after a short illness. He was 63.

He was born here but lived during his youth in Prince Edward Island and Halifax. Following graduation from Fredericton Business College, he was active in the railway construction field and later turned to the wholesale grocery business.

He is survived by his widow, four sons, and three brothers. (Mr. Kitchen lived as a young man for 2 years at Murray River during the building of the Murray Harbour branch of the P. E. Island railway. Kitchen Brothers, Willard and Hamilton were the contractors, Albert being a son of the latter.)

Child Dies After Swallowing Balloon

SYDNEY, Aug. 26 — (CP) — Sharon Nimchuk, 7, swallowed a balloon today and died of suffocation in hospital here. She was the daughter of Mr. and Mrs. Nimchuk of suburban Prince Brook. No inquest was ordered.

Injured Farmer's Condition Serious

CHATHAM, N. B., Aug. 26 — (CP) — The condition of Myles Blakely, 52, farmer who was badly injured when struck by the wing of a crashing R. C. A. F. jet plane yesterday, remained serious tonight. He regained consciousness for only a brief interval today.

The pilot, P.O. George Collingwood, 20, West Vancouver, died in the crash near the Chatham R. C. A. F. station. Blakely was on a hay mower when injured.

Urges Change In Present Income Tax Act Section

OTTAWA, Aug. 26 — (CP) — W. S. Fisher of the Income Tax Appeal Board, in a judgment made public today, urged Parliament to consider at its next session as apparent injustice against parents of children born in December, the last month of the taxation year.

Mr. Fisher said he had "every sympathy" for W. G. McMurray of Toronto, who appealed his 1950 income tax assessment. But the judge said that because of the present wording of the Income Tax Act he could do nothing else but dismiss the appeal.

Mr. McMurray claimed a \$400 exemption for a daughter "out-to-lunch" robbery of a Brink's armored car within 18 hours after the crime was committed.

The theft occurred yesterday while four truck guards left a vehicle containing \$265,000 locked but unattended and went to lunch. Police said Ray Eugene Farmer, 26, a former Brink's guard, admitted the robbery after a night-long grilling, then took them to a nearby amusement park and showed them where he had buried the \$65,000 in 13 packages of small bills.

Police said Farmer apparently passed up the other \$200,000 because it was in bills of large denomination.

The theft was committed while Farmer was making his rounds as a bakery truck driver. His present employers expressed amazement at his arrest. So did Farmer's neighbors. They described him as a quiet man who always took his children to Sunday school.

Farmer was held on charges of grand larceny and bankrobbery—much of the money taken was bank property. Police said he got into the armored car with a duplicate key which he failed to turn in when Brink's fired him three years ago.

Officials said Police Superintendent Robert Murray came up with the hunch that broke the case after detectives had questioned the four guards for hours.

Long Memory Helps In Solving Brink's Robbery

WASHINGTON, Aug. 26 — (AP) — A long memory and a quick touch today solved the \$65,000 "out-to-lunch" robbery of a Brink's armored car within 18 hours after the crime was committed.

The theft occurred yesterday while four truck guards left a vehicle containing \$265,000 locked but unattended and went to lunch. Police said Ray Eugene Farmer, 26, a former Brink's guard, admitted the robbery after a night-long grilling, then took them to a nearby amusement park and showed them where he had buried the \$65,000 in 13 packages of small bills.

Police said Farmer apparently passed up the other \$200,000 because it was in bills of large denomination.

The theft was committed while Farmer was making his rounds as a bakery truck driver. His present employers expressed amazement at his arrest. So did Farmer's neighbors. They described him as a quiet man who always took his children to Sunday school.

Farmer was held on charges of grand larceny and bankrobbery—much of the money taken was bank property. Police said he got into the armored car with a duplicate key which he failed to turn in when Brink's fired him three years ago.

Officials said Police Superintendent Robert Murray came up with the hunch that broke the case after detectives had questioned the four guards for hours.

Murray said he remembered that a Brink's employee named Farmer was fired in 1949 for lending his guard's uniform to some teen-agers known as the "Pimply Face Gang."

The incident stuck in Murray's mind because he had once worked on the "Pimply Face Gang" case. Detectives arrested Farmer at his \$56-a-month apartment.
