Makes Successful

Continued from page 1 again descended and made a successful landing. Shutting back the door for the remainder of the day he successfully brought in all the patients to the Charlottetown Hospital for treatment. It is expected that Mr. Woodside will make further trips and bring in more patients from North Rustico today. He operates from his own airfield located at Oyster Bed which is now employed by Paul's Flying Service here.

Plow At Work

The government plow which was dispatched to open a road into North Rustico via Portage Road was expected to arrive at night, it was stated by officials of the Government Garage yesterday.

Oyster Bed Bridge is still some eight miles short of the goal, and as when it will arrive in the small fishing village is still a matter of conjecture.

The community of North Rustico has been virtually isolated from the rest of the Province during the past three weeks as a result of the series of bad snowstorms. The disruption of transportation facilities has occasioned a shortage of both fuel and foodstuffs. At present the villagers are entirely dependent on the horse and sleigh for bringing in their supplies from Hunter River which is some nine miles distant.

Six horses and sleigh teams left yesterday morning for Hunter River where it is expected they will pick up enough food and necessities to supply the villagers until the road is opened for travel.

Rev. Father Eric Robin, Parish Priest, of the community said, although the situation is not as critical as previously stated there is still a serious depletion in the food, coal and wood supplies of the village, but this condition will soon be alleviated when the road is opened by the plow. He added that a carload of coal is expected to arrive at Hunter River Station the early part of next week which will relieve the fuel shortage.

had not reached Elmsdale last night but is expected to work through to Alberton today if no breakdown occurs. The Alberton plow has not yet been repaired and remains ditched near Elmsdale where it has been since last Thursday's storm.

Today Will Be "Girls Day" In Education Week

Today might well be termed "girls day" of Education Week at Summerside High School as the spotlight tonight at 8 p.m. centres on the sewing achievements of the home economics classes, when 42 girls will model the clothing they have made under the direction of the teacher of home economics, Mrs. Allison MacLean, and a cast of 11 girls will repeat the popular playlet that was such a hit when first staged before a recent meeting of the Home and School Welfare Group.

The grade 10 girls have a choice between home economics and science. Their practical work in home economics counts as fifty per cent of their grade 10 examinations in this subject, and includes both sewing and cooking, and related subjects. The grade 11 girls taking this subject have a choice between home economics and chemistry, and their practical work counts as fifty per cent of their grade 11 examinations in this subject.

Hundreds of people have visited the wonderful display of projects that are being exhibited in the High School Auditorium in what could be described as a miniature museum of education, quite in fitting with Education Week.

The auditorium is open each day until Sunday from 3 to 9 in the afternoon, and from 7 to 9 in the evening, when receptionists are on hand to welcome the public and hand out interesting programs giving information about the numerous exhibits on display.

Tonight the teachers will be in their various class rooms to meet and talk with the parents of the children they teach; this will enable the parents to visit the school rooms and chat with the teachers who are responsible for the education of their children.

Radio is also being used by the High School in their participation in Education Week, and tonight a description of the fashion show and some of the exhibits will be broadcast over CJRW at 8 p.m., and followed tomorrow by a broadcast at 11:30 a.m. by Dr. Muriel Uprichard, national director of the Canadian Junior Red Cross.

This broadcast will be presented as part of the weekly assembly box broadcast from Summerside High School, and Dr. Uprichard's message is being directed to all the schools within hearing distance of the radio station.

The cast of characters in tonight's playlet include: Barbara Dalton, Margaret Shaw, Bessie Darby, Sally Woodside, Shirley MacDonald, Barbara Morrison, Janet Bell, Mary Mountain, Joyce Bell, Lorraine Gaudet and Sandra Logan.

Other girls modelling clothing they have made include: Ella Cahill, Birdie Cairns, Irene Gallant, Helen Laughlin, Pauline Moase, Lucy Nietz, Shirley Perry, Mary MacGougan, Carrie Thompson, Barbara Woodside, Doreen Fraught, Jessie Bingham, Joyce Estman, Doris MacLean, Verlene Johnston, Lurlia Horne, Diane Horne, Betty Gay, Joyce Jenkins, Janis Morrison, Jean Cairns, Shirley Burns, Doris Heckbert, Betty MacInnis, Elizabeth Strong, Mary Cameron, Verna Raynor, Alice MacDonald, Dorothy Cannon, Shirley Morrison, and Joan Spears.

Program Is

Continued from page 1 Britain for military aid the sum of \$300,000,000, "none of which has yet been received."

"There is no question of reproaches on either side," he said, "but the fact remains we have foreshadowed, that the rearmament program is much more likely to be carried out in four years than in three."

Labor demanded a speedup in the program. Churchill, giving an over-all picture of Britain's defence efforts, struck back by declaring he felt a "sensation of extreme nakedness such as I had never felt before, in peace or war," at the state of the armed forces when he took over as Prime Minister last October.

The Labor Government left the United Kingdom "without a single regular competent formation in the country," Churchill said. "I thought it right to take what precautions were possible against paratroop descent."

The Prime Minister reported rapid progress in mobilizing 24,000 officers and men, who were in depots and training schools, into mobile columns.

Churchill made a plea for unity in the defence efforts and called for more volunteers for the home guard.

He said that, as soon as Britain gets the modern equipment, "we should have available for service abroad and at home 22 divisions, of which a considerable portion will be armored."

The Royal Navy is making good progress in its defence buildup, particularly in new types of surface ships designed to cope with submarines, he said, but there is still great danger from enemy submarines and mining of shipping lanes.

The state of air power is causing him anxiety, he said, with deliveries behind schedule and the prospect that needed new jet fighters will be in service in any-thing like adequate numbers for some time.

Once again Churchill said "I do not believe war is imminent or inevitable, though he could not give guarantees."

Hospital Ladies Aid Meeting

The March meeting of the Ladies Aid of the Prince County Hospital was held in the board room on Wednesday afternoon with the president, Mrs. Heath Strong, in the chair.

Following the reading of the minutes by Mrs. C. H. Stewart, as pro tem secretary, the financial statement was submitted by the treasurer Mrs. Keith Compton. Mrs. John Dowling was welcomed as a new member. Mrs. William Hayward, as convener of the recent afternoon bridge in the curling rink, and Miss Millicent Strong as convener of the Centre Ward pantry sale, were congratulated on the success of each and tendered a vote of thanks. Plans were made to hold the East End pantry sale the last Saturday of this month and Mrs. W. P. Callaghan was appointed convener. It was decided to hold a rummage sale in April and Mrs. Leslie Simons and Mrs. A. H. Hubley were appointed in charge. Another afternoon bridge, for the purpose of raising funds will be held at the home of Mrs. Hayward, with Mrs. J. K. Beer, Mrs. John Dowling and Mrs. Mark Gaudet, Jr., as conveners.

As an expression of sympathy in their recent sad bereavement it was decided to send cards to Mrs. Mark Delaney and Mrs. R. L. Willet.

It was moved that a talent sale and afternoon tea be held on April 16th with Miss Millicent Strong to arrange for the place of meeting.

The superintendent, Miss Helen Schurman, reported the tentative dates for the nurses graduation and dance to be May 14th and 15th. She was authorized to purchase two dozen uniforms for the floor girls in the hospital.

After the meeting adjourned, tea was served.

No Trouble In Trip From Yukon Until Reached Here

Flt./Sgt. Donald Bradshaw of the R.C.A.F. who has been stationed at Watson Lake and White Horse in the Yukon for the past one and a half years arrived in Summerside on Monday evening to visit his brother, Mr. Wallace Bradshaw.

Flt./Sgt. Bradshaw drove his automobile all the way from the Yukon, a distance of 5,000 miles, and encountered no trouble in travelling down the Alaskan Highway or across Canada and the United States until he arrived at Borden pier where he found to his dismay that the road had not been plowed even to the Borden station. His car, therefore, remained on the pier and he continued his journey to Summerside by train.

Flt./Sgt. Bradshaw commented that in all his journey from the Yukon that Prince Edward Island was the only place where the roads were not plowed but allowing for the fact that there might not have been time to have them open after the unusual storm, it seemed strange to him that no arrangements had been made by the Provincial Tourist Bureau to warn motorists that roads on the island were not open.

Flt./Sgt. Bradshaw left yesterday for Halifax, N. S., from where he expected to sail last evening via the Cunard White Star Line S. S. Ascania, for London, England. He will be stationed there for two months before being located elsewhere on the continent.
